

Goldman Sachs Active Municipal Fixed Income Separately Managed Account

An Active and Customized Approach to Municipal Investing

An active strategy that seeks to maximize after-tax returns and tax-exempt income by seeking the best relative values across the yield curve and sectors.

Disciplined Approach

Active management will allow the portfolio to track more closely to a benchmark and returns can be compared to similar strategies.

Experienced Management

Access to a tenured portfolio management team with flexibility to navigate the complexities of the municipal market.

Client Alignment

Portfolio management is aligned with client objectives fostering long lasting relationships based on trust, transparency and shared goals.

Select Features and Customizations

Yield optimization, active benchmark duration management, and tax loss harvesting. Customizations are offered on all states.

Potential Benefits of an Active Municipal Fixed Income Portfolio

The strategy focuses on optimizing yield through structuring the portfolio based on the shape of the yield curve. Active tracking of benchmark duration through selling shorter dated securities – along with tactical curve exposure – may lead to higher returns. Taxable events may be incurred, with a focus on harvesting losses and/or minimizing gains.

Intermediate Duration Portfolio Position

GS Active Municipal Fixed Income

Product Offerings	Short Duration	Intermediate Duration	Market Duration
Benchmark	Bloomberg 3yr Municipal Index	Bloomberg 1-10yr Municipal Index	Bloomberg Aggregate Index
Duration	~2.5 years	~4.0 years	~6.0 years

Goldman Sachs Asset Management

Goldman Sachs Asset Management is one of the world's leading asset managers, overseeing more than \$3.2 trillion¹ in assets under supervision worldwide. Our investment teams capitalize on the market insights, risk management and expertise and technology of Goldman Sachs.

We seek to help our clients navigate today's dynamic markets and identify the opportunities that shape their portfolios and long-term investment goals.

as to future results. Income from municipal securities is generally free from federal taxes and state taxes for residents of the issuing state. While the interest income is tax-free, capital gains, if any, will be subject to taxes. Income for some investors may be subject to the federal Alternative Minimum Tax (AMT). Diversification does not protect an investor from market risk and does not ensure a profit. There is no guarantee that objectives will be met. Goldman Sachs does not provide accounting, tax or legal advice. Please see additional disclosures at the end of this document. These examples are for illustrative purposes only and are not actual results. If any assumptions used do not prove to be true, results may vary substantially. The portfolio risk management process includes an effort to monitor and manage risk but does not imply low risk. Portfolios and benchmarks are not rated by an independent ratings agency. Goldman Sachs Asset Management may receive credit quality ratings on the underlying securities of portfolios and their respective benchmarks from the three major rating agencies: Standard & Poor's, Moody's and Fitch. Goldman Sachs Asset Management calculates the credit quality breakdown and overall rating for both portfolios and their respective benchmarks according to the client's preferred method or such other method as selected by Goldman Sachs Asset Management in its sole discretion. The applicable method may differ from the method independently used by benchmark providers. Securities that are not rated by all three agencies are reflected as such in the breakdown. For illustrative purposes, Goldman Sachs Asset Management converts all ratings to the equivalent S&P major rating category when reporting the credit rating breakdown. Ratings and portfolio credit quality may change over time. Unrated securities do not necessarily indicate low quality, and for such securities the investment adviser will evaluate the credit quality.

Assets Under Supervision (AUS) includes assets under management and other client assets for which Goldman Sachs does not have full discretion. Firmwide AUM includes assets managed by Goldman Sachs Asset Management and its investment advisory affiliates.

GLOSSARY

Alternative Minimum Tax (AMT) is a federal tax aimed at ensuring that high-income individuals, estates, trusts, and corporations pay a minimal level income tax. For individuals, the AMT is calculated by adding tax preference items to regular taxable income.

Credit Quality Rating assesses the financial ability of a debt issuer to make timely payments of principal and interest. Ratings of AAA (the highest), AA, A, and BBB are investment-grade quality. Ratings of BB, B, CCC, CC, C and D (the lowest) are considered below investment grade, speculative grade, or junk bonds.

Duration is the method of determining a bond's price sensitivity given a change in interest rates. The duration for fixed income securities is calculated by determining the price movement due to a 100 basis point change in market interest rates. This calculation incorporates the change in value of any embedded options that exist.

Volatility is a measure for variation of price of a financial instrument over time.

Yield to Worst (YTW) is the lowest potential yield that can be received on a bond without the issuer actually defaulting.

RISK CONSIDERATIONS

Goldman Sachs Municipal Fixed Income SMA Risk Considerations: Investments in fixed-income securities are subject to credit and interest rate risks. Bond prices fluctuate inversely to changes in interest rates. Therefore, a general rise in interest rates can result in the decline in the bond's price. Credit risk is the risk that an issuer will default on payments of interest and principal. This risk is higher when investing in high yield bonds, also known as junk bonds, which have lower ratings and are subject to greater volatility. All fixed income investments may be worth less than their original cost upon redemption or maturity.

Municipal securities are subject to credit/default risk and interest rate risk and may be more sensitive to adverse economic, business, political, environmental, or other developments if it invests a substantial portion of its assets in the bonds of similar projects or in particular types of municipal securities. While interest earned on municipal securities is generally not subject to federal tax, any interest earned on taxable municipal securities is fully taxable at the federal level and may be subject to tax at the state level.

Income from municipal securities is generally free from federal taxes and state taxes for residents of the issuing state. While the interest income is tax-free, capital gains, if any, will be subject to taxes. Income for some investors may be subject to the federal Alternative Minimum Tax (AMT).

GENERAL DISCLOSURES

THIS MATERIAL DOES NOT CONSTITUTE AN OFFER OR SOLICITATION IN ANY JURISDICTION WHERE OR TO ANY PERSON TO WHOM IT WOULD BE UNAUTHORIZED OR UNLAWFUL TO DO SO.

Prospective investors should inform themselves as to any applicable legal requirements and taxation and exchange control regulations in the countries of their citizenship, residence or domicile which might be relevant.

Views and opinions expressed are for informational purposes only and do not constitute a recommendation by Goldman Sachs Asset Management to buy, sell, or hold any security. Views and opinions are current as of the date of this document and may be subject to change, they should not be construed as investment advice.

Although certain information has been obtained from sources believed to be reliable, we do not guarantee its accuracy, completeness or fairness. We have relied upon and assumed without independent verification, the accuracy and completeness of all information available from public sources.

Goldman Sachs does not provide legal, tax or accounting advice, unless explicitly agreed between you and Goldman Sachs (generally through certain services offered only to clients of Private Wealth Management). Any statement contained in this document concerning U.S. tax matters is not intended or written to be used and cannot be used for the purpose of avoiding penalties imposed on the relevant taxpayer.

Notwithstanding anything in this document to the contrary, and except as required to enable compliance with applicable securities law, you may disclose to any person the US federal and state income tax treatment and tax structure of the transaction and all materials of any kind (including tax opinions and other tax analyses) that are provided to you relating to such tax treatment and tax structure, without Goldman Sachs imposing any limitation of any kind. Investors should be aware that a determination of the tax consequences to them should take into account their specific circumstances and that the tax law is subject to change in the future or retroactively and investors are strongly urged to consult with their own tax advisor regarding any potential strategy, investment or transaction.

This information discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice. This material has been prepared by Goldman Sachs Asset Management and is not financial research nor a product of Goldman Sachs Global Investment Research (GIR). It was not prepared in compliance with applicable provisions of law designed to promote the independence of financial analysis and is not subject to a prohibition on trading following the distribution of financial research. The views and opinions expressed may differ from those of Goldman Sachs Global Investment Research or other departments or divisions of Goldman Sachs and its affiliates. Investors are urged to consult with their financial advisors before buying or selling any securities. This information may not be current and Goldman Sachs Asset Management has no obligation to provide any updates or changes.

The portfolio risk management process includes an effort to monitor and manage risk, but does not imply low risk.

CONFIDENTIALITY
