Notes to Financial Statements	18
Other Information	25

Effective January 24, 2023, open-end mutual funds and exchange traded funds will be required to provide shareholders with streamlined annual and semi-annual shareholder reports ("Tailored Shareholder Reports"). Funds will be required to prepare a separate Tailored Shareholder Report for each share class of a fund that highlights key information to investors. Other information, including financial statements, will no longer appear in a fund's shareholder report, but will be available online, delivered free of charge upon request, and filed with the Securities and Exchange Commission on a semi-annual basis on Form N-CSR. The new requirements have a compliance date of July 24, 2024.

# Goldman Sachs Community Municipal Bond ETF

February 29, 2024

The following are highlights both of key factors affecting the municipal bond market and of any key changes made to the Goldman Sachs Community Municipal Bond ETF (the "Fund") during the six months ended February 29, 2024 (the "Reporting Period"). A streamlined annual shareholder report covering the 12 months ended August 31, 2024 will be provided to Fund shareholders, per new SEC requirements with a compliance date of July 24, 2024.

### Market and Economic Review

- The broad municipal bond market produced positive returns during the Reporting Period, propelled by especially strong gains in the final two months of 2023.
- As the Reporting Period began in September 2023, municipal bond yields rose, following the trend in the U.S. Treasury market, as investors anticipated the Federal Reserve would keep interest rates higher for longer. Municipal bond prices, which move inversely with yields, fell.
- This pattern continued at the start of the fourth calendar quarter, with municipal bond yields hitting 15-year highs during October. Weak market technicals (i.e., supply and demand dynamics) put further pressure on municipal bond market performance.
- However, in November and December, municipal bond yields fell sharply, following the trajectory of the U.S. Treasury market, as investors positioned themselves to lock in higher yields ahead of the new year. Municipal bond prices also benefited from an increase in demand prior to the seasonal slowdown in activity that historically occurs in the municipal bond market at the end of a calendar year.
- In January 2024, the broad municipal bond market weakened, as elevated new issue supply and expensive valuations weighed on performance.
- Municipal bond yields held firm throughout February, rising only modestly compared to U.S. Treasury yields, which increased substantially during the month. Municipal bond market performance was especially noteworthy given the challenging backdrop of heightened new issue supply and negligible investment flows into municipal bond mutual funds.

### Fund Changes and Highlights

No material changes were made to the Fund during the Reporting Period.

# Community Municipal Bond ETF

as of February 29, 2024

FUND SNAPSHOT	
As of February 29, 2024	
Market Price <sup>1</sup>	\$50.15
Net Asset Value (NAV) <sup>1</sup>	\$50.01

1 The Market Price is the price at which the Fund's shares are trading on the NYSE Arca, Inc. The Market Price of the Fund's shares will fluctuate and, at the time of sale, shares may be worth more or less than the original investment or the Fund's then current net asset value ("NAV"). The NAV is the market value of one share of the Fund. This amount is derived by dividing the total value of all the securities in the Fund's portfolio, plus other assets, less any liabilities, by the number of Fund shares outstanding. Fund shares are not individually redeemable and are issued and redeemed by the Fund at their NAV only in large, specified blocks of shares called creation units. Shares otherwise can be bought and sold only through exchange trading at market price (not NAV). Shares may trade at a premium or discount to their NAV in the secondary market. Information regarding how often shares of the Fund traded on NYSE Arca, Inc. at a price above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund can be found at www.GSAMFUNDS.com/ETFs.

PERFORMANCE REVIEW			
	Fund Total Return (based	Fund Total Return (based on Market	Bloomberg Goldman Sachs Community Municipal
September 1, 2023-February 29, 2024	on NAV) <sup>2</sup>	Price) <sup>2</sup>	Index <sup>3</sup>
Shares	2.58%	2.76%	3 23%

- 2 Total returns are calculated assuming purchase of a share at the market price or NAV on the first day and sale of a share at the market price or NAV on the last day of each period reported. The Total Returns based on NAV and Market Price assume the reinvestment of dividends and do not reflect brokerage commissions in connection with the purchase or sale of Fund shares, which if included would lower the performance shown above. The NAV used in the Total Return calculation assumes all management fees incurred by the Fund. Market Price returns are based upon the last trade as of 4:00 pm EST and do not reflect the returns you would receive if you traded shares at other times. Total returns for periods less than one full year are not annualized.
- <sup>3</sup> "Bloomberg<sup>®</sup>" and the Bloomberg Goldman Sachs Community Municipal Index (the "Index") are service marks of Bloomberg Finance L.P. and its affiliates, including Bloomberg Index Services Limited ("BISL"), the administrator of the index (collectively, "Bloomberg"), and have been licensed for use for certain purposes by GSAM. The Fund is not sponsored, endorsed, sold or promoted by Bloomberg. Bloomberg does not make any representation or warranty, express or implied, to the owners of or counterparties to the Fund or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly. The only relationship of Bloomberg to GSAM is the licensing of certain trademarks, trade names and service marks and of the Index, which is determined, composed and calculated by BISL without regard to GSAM or the Fund. Bloomberg has no obligation to take the needs of GSAM or the owners of the Fund into consideration in determining, composing or calculating the Index. Bloomberg is not responsible for and has not participated in the determination of the timing of, prices at, or quantities of the Fund to be issued. Bloomberg shall not have any obligation or liability, including, without limitation, to Fund customers, in connection with the administration, marketing or trading of the Fund.

The returns set forth in the table above represent past performance. Past performance does not guarantee future results. The Fund's investment returns and principal value will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted above. Please visit our web site at www.GSAMFUNDS.com/ETFs to obtain the most recent month-end returns. Performance reflects applicable fee waivers and/or expense limitations in effect during the periods shown. In their absence, performance would be reduced. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the sale of Fund shares.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

(a) Issued with a zero coupon. Income is recognized through the accretion of discount.

(b) Pre-refunded security. Maturity date disclosed is pre-refunding date.

(c) Variable Rate Demand Instruments - rate shown is that which is in effect on February 29, 2024. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions.

Security ratings disclosed, if any, are issued by either Standard & Poor's, Moody's Investor Service or Fitch and are unaudited. A brief description of the ratings is available in the Fund's Statement of Additional Information.

(a) Calculated based on the average shares outstanding methodology.

(b) Assumes investment at the net asset value at the beginning of the period, reinvestment of all dividends and distributions, a complete redemption of the investment at the net asset value at the end of the period. Returns do not reflect the impact of taxes to shareholders relating to Fund distributions or the redemption of Fund shares. Total returns for periods less than one full year are not annualized.

(c) Annualized.

(d) The Fund's portfolio turnover rate is calculated in accordance with regulatory requirements and excludes portfolio securities received or delivered as a result of in-kind transactions and short-term transactions. If such transactions were included, the Fund's portfolio turnover rate may be higher.

# Notes to Financial Statements

February 29, 2024 (Unaudited)

#### 1. ORGANIZATION

Goldman Sachs Community Municipal Bond ETF (the "Fund") is a diversified series of the Goldman Sachs ETF Trust (the "Trust") which is an open-end management investment company, registered under the Investment Company Act of 1940, as amended (the "Act"), consisting of multiple series. The Trust was organized as a Delaware statutory trust on December 16, 2009. The Fund commenced operations on March 7, 2023.

The investment objective of the Fund is to provide investment results that closely correspond, before fees and expenses, to the performance of the Bloomberg Goldman Sachs Community Municipal Index (the "Index").

Goldman Sachs Asset Management, L.P. ("GSAM"), an affiliate of Goldman Sachs & Co. LLC ("Goldman Sachs"), serves as investment adviser (the "Investment Adviser") to the Fund pursuant to a management agreement (the "Agreement") with the Trust. The Fund is an exchange-traded fund ("ETF"). Shares of the Fund are listed and traded on the NYSE Arca, Inc. Market prices for the Fund's shares may be different from their net asset value ("NAV"). The Fund issues and redeems shares at its respective NAV only in blocks of a specified number of shares, or multiples thereof, referred to as "Creation Units". Creation Units are issued and redeemed generally for a designated portfolio of securities (including any portion of such securities for which cash may be substituted) and a specified amount of cash. Shares generally trade in the secondary market in quantities less than a Creation Unit at market prices that change throughout the day. Only those that have entered into an authorized participant agreement with ALPS Distributors, Inc. (the "Distributor") may do business directly with the Fund.

### 2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and require management to make estimates and assumptions that may affect the reported amounts and disclosures. Actual results may differ from those estimates and assumptions. The Fund is an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies.

A. Investment Valuation — The Fund's valuation policy is to value investments at fair value.

B. Investment Income and Investments — Investment income includes interest income, dividend income, and securities lending income, if any. Interest income is accrued daily and adjusted for amortization of premiums and accretion of discounts. Dividend income is recognized on ex-dividend date or, for certain foreign securities, as soon as such information is obtained subsequent to the ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received. Investment transactions are reflected on trade date. Realized gains and losses are calculated using identified cost. Investment transactions are recorded on the following business day for daily NAV calculations.

C. Expenses — Expenses incurred directly by the Fund are charged to the Fund, and certain expenses incurred by the Trust that may not solely relate to the Fund are allocated to the Fund and other applicable funds of the Trust on a straight-line and/or pro-rata basis, depending upon the nature of the expenses, and are accrued daily.

D. Federal Taxes and Distributions to Shareholders — It is the Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies and to distribute each year substantially all of its investment company taxable income and capital gains to its shareholders. Accordingly, the Fund is not required to make any provisions for the payment of federal income tax. Distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions, if any, are declared and paid monthly and annually, respectively.

Net capital losses, if any, are carried forward to future fiscal years and may be used to the extent allowed by the Code to offset any future capital gains. Losses that are carried forward will retain their character as either short-term or long-term capital losses. Utilization of capital loss carryforwards will reduce the requirement of future capital gains distributions.

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with federal income tax rules, which may differ from GAAP. The source of the Fund's distributions may be shown in the accompanying financial statements as either from distributable earnings or capital. Certain components of the Fund's net assets on the Statement of Assets and Liabilities reflect permanent GAAP/tax differences based on the appropriate tax character.

#### 3. INVESTMENTS AND FAIR VALUE MEASUREMENTS

U.S. GAAP defines the fair value of a financial instrument as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price); the Fund's policy is to use the market approach. GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety. The levels used for classifying investments are not necessarily an indication of the risk associated with investing in these investments. The three levels of the fair value hierarchy are described below:

Level 1 — Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 — Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including, but not limited to, quoted prices for similar investments, interest rates, foreign exchange rates, volatility and credit spreads), either directly or indirectly;

Level 3 — Prices or valuations that require significant unobservable inputs (including GSAM's assumptions in determining fair value measurement).

The Board of Trustees ("Trustees") has approved Valuation Procedures that govern the valuation of the portfolio investments held by the Fund, including investments for which market quotations are not readily available. With respect to the Fund's investments that do not have readily available market quotations, the Trustees have designated the Adviser as the valuation designee to perform fair valuations pursuant to Rule 2a-5 under the Investment Company Act of 1940 (the "Valuation Designee"). GSAM has day-to-day responsibility for implementing and maintaining internal controls and procedures related to the valuation of the Fund's investments. To assess the continuing appropriateness of pricing sources and methodologies, GSAM regularly performs price verification procedures and issues challenges as necessary to third party pricing vendors or brokers, and any differences are reviewed in accordance with the Valuation Procedures.

A. Level 1 and Level 2 Fair Value Investments— The valuation techniques and significant inputs used in determining the fair values for investments classified as Level 1 and Level 2 are as follows:

**Debt Securities** — Debt securities for which market quotations are readily available are valued daily on the basis of quotations supplied by dealers or an independent pricing service. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date or (ii) quotations from securities dealers to determine current value. With the exception of treasury securities of G7 countries, which are generally classified as Level 1, these investments are generally classified as Level 2 of the fair value hierarchy.

Money Market Funds — Investments in the Goldman Sachs Financial Square Government Fund ("Underlying Money Market Fund") are valued at the NAV per share of the Institutional Share class on the day of valuation. These investments are generally classified as level 1 of the fair value hierarchy. For information regarding the Underlying Money Market Fund's accounting policies and investment holdings, please see the Underlying Money Market Fund's shareholder report.

B. Level 3 Fair Value Investments — To the extent that significant inputs to valuation models and other alternative pricing sources are unobservable, or if quotations are not readily available, or if GSAM believes that such quotations do not accurately reflect fair value, the fair value of the Fund's investments may be determined under the Valuation Procedures. GSAM, consistent with its procedures and applicable regulatory guidance, may make an adjustment to the most recent valuation prices of either domestic or foreign securities in light of significant events to reflect what it believes to be the fair value of the securities at the time of determining the Fund's NAV. To the extent investments are valued using single source broker quotations obtained directly from the broker or passed through from third party pricing vendors, such investments are classified as Level 3 investments.

**C.** Fair Value Hierarchy — The following is a summary of the Fund's investments classified in the fair value hierarchy as of February 29, 2024:

# Notes to Financial Statements (continued)

### 3.INVESTMENTS AND FAIR VALUE MEASUREMENTS (continued)

Community Municipal Bond ETF				
Investment Type	I	Level 1	Level 2	Level 3
Assets				
Fixed Income Municipal Bond	\$	— \$	9,877,916 \$	

For further information regarding security characteristics, see the Schedule of Investments.

#### 4. AGREEMENTS AND AFFILIATED TRANSACTIONS

A. Management Agreement — Under the Agreement, GSAM manages the Fund, subject to the general supervision of the Trustees.

As compensation for the services rendered pursuant to the Agreement, the assumption of the expenses related thereto and administration of the Fund's business affairs, including providing facilities, GSAM is entitled to a management fee, accrued daily and paid monthly, equal to an annual percentage rate of the Fund's average daily net assets.

The Fund operates under a unitary management fee structure. Under the unitary fee structure, GSAM is responsible for paying substantially all the expenses of the Fund, excluding payments under the Fund's 12b-1 plan (if any), interest expenses, taxes, acquired fund fees and expenses, brokerage fees, costs of holding shareholder meetings, litigation, indemnification and extraordinary expenses. As the Fund directly pays fees and expenses of the independent Trustees, the management fee collected by GSAM will be reduced by an amount equal to the fees and expenses paid by the Fund to the independent Trustees.

For the six months ended February 29, 2024, contractual and effective net unitary management fees with GSAM were at the following rates:

Fund	Contractual Unitary Management Fee	Effective Net Unitary Management Fee
Community Municipal Bond ETF	0.25%	0.16%

----

On September 25, 2023, GSAM agreed to waive a portion of its management fee in order to achieve an effective net management fee rate of 0.15% as an annual percentage rate of average daily net assets of the Fund through at least December 29, 2024, and prior to such date the Investment Adviser may not terminate the arrangement without the approval of the Board of Trustees. Prior to September 25, 2023 there was no waiver agreement. For the six months ended February 29, 2024, GSAM waived \$7,579 of the management fees for the Fund.

The Fund invests in Institutional Shares of the Goldman Sachs Financial Square Government Fund, which is an affiliated Underlying Money Market Fund. GSAM has agreed to waive a portion of its management fee payable by the Fund in an amount equal to the management fee it earns as an investment adviser to the affiliated Underlying Money Market Fund in which the Fund invests. For the six months ended February 29, 2024, the management fee waived by GSAM was \$33.

**B.** Other Transactions with Affiliates — For the six months ended February 29, 2024, Goldman Sachs did not earn any brokerage commission from portfolio transactions on behalf of the Fund.

The following table provides information about the Fund's investments in the Goldman Sachs Financial Square Government Fund - Institutional Shares for the six months ended February 29, 2024:

	 inning value of August 31,		Proceeds from	Ending value as of	Shares as of February	
Fund	 2023	Purchases at Cost	Sales	February 29, 2024	29, 2024	Dividend Income
Community Municipal Bond ETF	\$ 114,880	\$ 393,063	\$ (507,943)	\$ –		\$ 1,068

#### 5. CREATION AND REDEMPTION OF CREATION UNITS

The Trust issues and redeems shares of the Fund only in Creation Units on a continuous basis through the Distributor, without an initial sales load, at NAV next determined after receipt, on any Business Day (as defined in the Statement of Additional Information), of an order in proper form. Shares of the Fund may only be purchased or redeemed by certain financial institutions (each an "Authorized Participant"). An Authorized Participant is either (1) a "Participating Party" or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation; or (2) a Depository Trust Company participant; which, in either case, must have executed an agreement with the Distributor. Retail investors will typically not qualify as an Authorized Participant or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the shares directly from the Fund. Rather, most retail investors will purchase shares in the secondary market at market prices with the assistance of a broker and may be subject to customary brokerage commissions or fees. Fixed creation and redemption transaction fees are imposed in connection with creations and redemptions.

Authorized Participants transacting in Creation Units for cash may also pay a variable charge to compensate the Fund for certain transaction costs (e.g. taxes on currency or other financial transactions, and brokerage costs) and market impact expenses relating to investing in portfolio securities. Such variable charges, if any, are included in "Proceeds from sale of shares" in the Statement of Changes in Net Assets.

Share activity is as follows:

	Community Municipal Bond ETF						
	For the Six Months Ended February 29, 2024 (Unaudited)			For the Period March 7, 2023 to August 31, 2023			
	Shares	Shares Dollars		Shares Dollars		Dollars	
Fund Share Activity							
Shares sold	—	\$	—	400,000	\$	19,964,233	
Shares redeemed	(200,000)		(10,039,110)			_	
NET INCREASE (DECREASE) IN SHARES	(200,000)	\$	(10,039,110)	400,000	\$	19,964,233	

\* Commencement of operations

### 6. PORTFOLIO SECURITIES TRANSACTIONS

The cost of purchases and proceeds from sales and maturities of long-term securities for the six months ended February 29, 2024, were as follows:

Fund	Purchases		
Community Municipal Bond ETF	\$	2,605,807 \$	12,259,857

### 7. TAX INFORMATION

As of the Fund's most recent fiscal year end, August 31, 2023, the Fund's capital loss carryforwards on a tax-basis were as follows:

			Community Aunicipal Bond ETF	
Capital loss carryforwards:				
Perpetual Short-Term	\$	. (4	4,824)	

As of February 29, 2024, the Fund's aggregate security unrealized gains and losses based on cost for U.S. federal income tax purposes were as follows:

## Notes to Financial Statements (continued)

February 29, 2024 (Unaudited)

### 7. TAX INFORMATION (continued)

	Community Municipal Bond ETF	
Tax Cost	\$ 9,795,425	
Gross unrealized gain	94,520	
Gross unrealized loss	(12,029)	
Net unrealized gain (loss)	\$ 82,491	

The difference between GAAP-basis and tax-basis unrealized gains (losses) is attributable to differences in the tax treatment of market discount accretion and premium amortization.

GSAM has reviewed the Fund's tax positions for all open tax years (the current year) and has concluded that no provision for income tax is required in the Fund's financial statements. Such open tax year remains subject to examination and adjustment by tax authorities.

### 8. OTHER RISKS

The Fund's risks include, but are not limited to, the following:

**Calculation Methodology Risk** —The Index relies on various sources of information to assess the criteria of issuers included in the Index (or a reference index if applicable) including fundamental information that may be based on assumptions and estimates. Neither the Fund, the Investment Adviser, nor the Index Provider can offer assurances that the Index's calculation methodology or sources of information will provide a correct valuation of securities, nor can they guarantee the availability or timeliness of the production of the Index.

**ESG Standards Risk** — The application of the Index Provider's methodology when constructing the Index generally will affect the Fund's exposure to certain issuers, sectors, and regions and may affect the Fund's performance depending on whether such investments are in or out of favor. For example, the Fund generally will not invest in issuers that the Index Provider's methodology screens as a result of certain social or environmental factors (e.g., funds tied to alcohol, tobacco, gambling, transportation, or correctional facilities). Application of the Index's ESG criteria may also affect the Fund's performance relative to similar funds that do not seek to track indexes that utilize such criteria. The Fund and GSAM rely on the Index Provider to determine whether the Index's ESG criteria are met and do not perform a separate ESG analysis of Index constituents. When assessing whether an issuer meets the Index's ESG criteria, the Index Provider generally will rely on third-party data that it believes to be reliable, but it does not guarantee the accuracy of such third-party data. ESG information from the Index Provider and other third-party data providers may be incomplete, inaccurate or unavailable and may vary significantly from one third-party data provider to another, which may adversely impact the Fund's investments. Certain investments may be dependent on U.S. government policies, including tax incentives and subsidies, which may change without notice. The Index's ESG criteria may be changed without shareholder approval.

Index Risk — Bloomberg Professional Services (the "Index Provider") constructs the Fund's Index in accordance with a rules-based methodology. The Fund will be negatively affected by general declines in the securities and asset classes represented in its Index. In addition, because the Fund is not "actively" managed, unless a specific security is removed from an Index, the Fund generally would not sell a security because the security's issuer was in financial trouble. Market disruptions and regulatory restrictions could have an adverse effect on the Fund's ability to adjust its exposure to the required levels in order to track the Index. The Fund also does not attempt to take defensive positions under any market conditions, including declining markets. Therefore, the Fund's performance could be lower than funds that may actively shift their portfolio assets to take advantage of market opportunities or to lessen the impact of a market decline or a decline in the value of one or more issuers. When the index is rebalanced and the Fund in turn rebalances its portfolio to attempt to increase the correlation between the Fund's portfolio and the Index, any transaction costs and market exposure arising from such portfolio rebalancing may be borne directly by the Fund and its shareholders. The Index Provider may utilize third party data in constructing the Index, but it does not guarantee the accuracy or availability of any such third party data. Errors in index data, index computation or the construction of an Index in accordance with its methodology may occur from time to time and may not be identified and corrected by the Index Provider for a period of time or at all, which may have an adverse impact on the Fund and its shareholders. In addition, neither the Fund, the Investment Adviser, the Calculation Agent nor the Index Provider can guarantee the availability or timeliness of the production of the Index.

Interest Rate Risk — When interest rates increase, fixed income securities or instruments held by the Fund will generally decline in value. Long-term fixed income securities or instruments will normally have more price volatility because of this risk than short-

#### 8. OTHER RISKS (continued)

term fixed income securities or instruments. A wide variety of market factors can cause interest rates to rise, including central bank monetary policy, rising inflation and changes in general economic conditions. Changing interest rates may have unpredictable effects on the markets, may result in heightened market volatility and may detract from Fund performance. In addition, changes in monetary policy may exacerbate the risks associated with changing interest rates. Funds with longer average portfolio durations will generally be more sensitive to changes in interest rates than funds with a shorter average portfolio duration Fluctuations in interest rates may also affect the liquidity of fixed income securities and instruments held by the Fund. A sudden or unpredictable increase in interest rates may cause volatility in the market and may decrease the liquidity of the Fund's investments, which would make it harder for the Fund to sell its investments at an advantageous time.

Large Shareholder Transaction Risk — Certain shareholders, including other funds advised by the Investment Adviser, may from time to time own a substantial amount of the Fund's Shares. In addition, a third party investor, the Investment Adviser or an affiliate of the Investment Adviser, an authorized participant, a lead market maker, or another entity (i.e., a seed investor) may invest in the Fund and hold its investment solely to facilitate commencement of the Fund or to facilitate the Fund's achieving a specified size or scale. Any such investment, that the size of the Fund would be maintained at such levels or that the Fund would continue to meet applicable listing requirements. Redemptions by large shareholders could have a significant negative impact on the Fund, including on the Fund's liquidity. In addition, transactions by large shareholders may account for a large percentage of the trading volume on (insert exchange for the fund/funds here) and may, therefore, have a material upward or downward effect on the market price of the Shares.

Liquidity Risk — The Fund may make investments that are illiquid or that may become less liquid in response to market developments or adverse investor perceptions. Illiquid investments may be more difficult to value. To the extent a Fund engages in cash redemptions, then liquidity risk may also refer to the risk that the Fund will not be able to pay redemption proceeds within the allowable time period or without significant dilution to remaining investors' interests because of unusual market conditions, declining prices of the securities sold, an unusually high volume of redemption requests, or other reasons. To meet redemption requests, the Fund may be forced to sell investments at an unfavorable time and/or under unfavorable conditions. If the Fund is forced to sell securities at an unfavorable time and/or under unfavorable conditions, such sales may adversely affect the Fund's NAV and dilute remaining investors' interests. Liquidity risk may be the result of, among other things, the reduced number and capacity of traditional market participants to make a market in fixed income securities or the lack of an active market. The potential for liquidity risk may be magnified by a rising interest rate environment or other circumstances where investor redemptions from fixed income funds may be higher than normal, potentially causing increased supply in the market due to selling activity. Redemptions by large shareholders may have a negative impact on a Fund's liquidity.

Market and Credit Risks — In the normal course of business, a Fund trades financial instruments and enters into financial transactions where risk of potential loss exists due to changes in the market (market risk). The value of the securities in which a Fund invests may go up or down in response to the prospects of individual companies, particular sectors or governments and/or general economic conditions throughout the world due to increasingly interconnected global economies and financial markets. Events such as war, military conflicts, acts of terrorism, social unrest, natural disasters, recessions, inflation, rapid interest rate changes, supply chain disruptions, sanctions, the spread of infectious illness or other public health threats could also significantly impact a Fund and its investments. Additionally, a Fund may also be exposed to credit risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which the Fund has unsettled or open transactions defaults.

Market Trading Risk — The Fund faces numerous market trading risks, including disruptions to creations and redemptions, the existence of extreme market volatility or potential lack of an active trading market for Shares. If a shareholder purchases Shares at a time when the market price is at a premium to the NAV or sells Shares at a time when the market price is at a discount to the NAV, the shareholder may pay more for, or receive less than, the underlying value of the Shares, respectively. The Investment Adviser cannot predict whether Shares will trade below, at or above their NAV. Price differences may be due, in large part, to the fact that supply and demand forces at work in the secondary trading market for Shares will be closely related to, but not identical to, the same forces influencing the prices of the securities of a Fund's Index trading individually or in the aggregate at any point in time.

Municipal Securities Risk — Municipal securities are subject to credit/default risk, interest rate risk and certain additional risks. The Fund may be more sensitive to adverse economic, business or political developments if it invests a substantial portion of its assets in the debt securities of similar projects (such as those relating to education, health care, housing, transportation, and utilities), industrial development bonds, or in particular types of municipal securities (such as general obligation bonds, private activity bonds and moral obligation bonds). The Fund may also invest in municipal securities indirectly (including by investing in tender option bonds). While interest earned on municipal securities is generally not subject to federal tax, any interest earned on taxable municipal securities is fully taxable at the federal level and may be subject to tax at the state level.

# Notes to Financial Statements (continued)

February 29, 2024 (Unaudited)

#### 8. OTHER RISKS (continued)

Seed Investor Risk — GSAM and/or its affiliates may make payments to one or more investors that contribute seed capital to the Fund. Such payments may continue for a specified period of time and/or until a specified dollar amount is reached. Those payments will be made from the assets of GSAM and/or such affiliates (and not the Fund). There is a risk that such seed investors may redeem their investments in the Fund, particularly after payments from GSAM and/or its affiliates have ceased. As with redemptions by other large shareholders, such redemptions could have a significant negative impact on the Fund, including on the Fund's liquidity and the market price of the Fund's Shares.

**State/Territory Specific Risk** — The Fund's investments in municipal obligations of issuers located in a particular state or U.S. territory may be adversely affected by political, economic and regulatory developments within that state or U.S. territory. Such developments may affect the financial condition of a state's or territory's political subdivisions, agencies, instrumentalities and public authorities and heighten the risks associated with investing in bonds issued by such parties, which could, in turn, adversely affect the Fund's income, NAV, liquidity, and/or ability to preserve or realize capital appreciation.

Tax Risk — Any proposed or actual changes in income tax rates or the tax-exempt status of interest income from municipal securities can significantly affect the demand for and supply, liquidity and marketability of municipal securities. Such changes may affect the Fund's net asset value and ability to acquire and dispose of municipal securities at desirable yield and price levels.

**Tracking Error Risk** — Tracking error is the divergence of the Fund's performance from that of its Index. The performance of the Fund may diverge from that of its Index for a number of reasons. Tracking error may occur because of transaction costs, the Fund's holding of cash, differences in accrual of dividends, changes to its Index or the need to meet new or existing regulatory requirements. Unlike the Fund, the returns of the Index are not reduced by investment and other operating expenses, including the trading costs associated with implementing changes to its portfolio of investments. Tracking error risk may be heightened during times of market volatility or other unusual market conditions.

### 9. IN DEMNIFICATIONS

Under the Trust's organizational documents, its Trustees, officers, employees and agents are indemnified, to the extent permitted by the Act and state law, against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, GSAM believes the risk of loss under these arrangements to be remote.

### **10. OTHER MATTERS**

Pursuant to an effort to consolidate the membership of the Board of Trustees of the Trust (the "Board") with the Board of Trustees of each of Goldman Sachs ETF Trust II, Goldman Sachs Real Estate Diversified Income Fund, Goldman Sachs Trust, Goldman Sachs Trust II, and Goldman Sachs Variable Insurance Trust, in July 2023, the Board voted to nominate Gregory G. Weaver, Dwight L. Bush, Kathryn A. Cassidy, John G. Chou, Joaquin Delgado, Eileen H. Dowling, and Paul C. Wirth (the "Nominees") for election as Trustees of the Trust. At a virtual special joint meeting of shareholders held on November 16, 2023, each of the Nominees was elected to serve as Trustees alongside the then current Trustees of the Trust, effective January 1, 2024.

#### **11. SUBSEQUENT EVENTS**

Subsequent events after the Statement of Assets and Liabilities date have been evaluated, and GSAM has concluded that there is no impact requiring adjustment or disclosure in the financial statements.

### Voting Results of Special Meeting of Shareholders (Unaudited)

A Special Meeting of Shareholders (the "Meeting") of the Goldman Sachs ETF Trust (the "Trust") was held on November 16, 2023 to consider and elect nominees to the Trust's Board of Trustees. At the Meeting, Gregory G. Weaver, Dwight L. Bush, Kathryn A. Cassidy, John G. Chou, Joaquin Delgado, Eileen H. Dowling, and Paul C. Wirth were elected to the Trust's Board of Trustees. In electing the nominees, the Trust's shareholders voted as follows:

Proposal Election of Trustees	For	Withheld
Gregory G. Weaver	312,642,103	27,755,773
Dwight L. Bush	339,557,290	840,856
Kathryn A. Cassidy	339,692,259	705,617
John G. Chou	339,628,535	769,341
Joaquin Delgado	339,626,867	771,009
Eileen H. Dowling	339,570,827	827,049
Paul C. Wirth	339,591,397	806,479

### Statement Regarding Basis for Approval of Management Agreement (Unaudited)

#### Background

The Goldman Sachs Community Municipal Bond ETF (the "Fund") is an investment portfolio of Goldman Sachs ETF Trust (the "Trust"). The Board of Trustees oversees the management of the Trust and reviews the investment performance and expenses of the Funds at regularly scheduled meetings held throughout the year. In addition, the Board of Trustees determines annually whether to approve the continuance of the Trust's investment management agreement (the "Management Agreement") with Goldman Sachs Asset Management, L.P. (the "Investment Adviser") on behalf of the Fund.

The Management Agreement was most recently approved for continuation until September 30, 2024 by the Board of Trustees, including those Trustees who are not parties to the Management Agreement or "interested persons" (as defined in the Investment Company Act of 1940, as amended) of any party thereto (the "Independent Trustees"), at a meeting held on September 19-20, 2023 (the "Annual Meeting").

The review process undertaken by the Trustees spans the course of the year and culminates with the Annual Meeting. To assist the Trustees in their deliberations, the Trustees have established a Contract Review Committee (the "Committee"), comprised of the Independent Trustees. The Committee held four meetings over the course of the year since the Management Agreement was last approved. At those Committee meetings, regularly scheduled Board or other committee meetings, and/or the Annual Meeting, matters relevant to the renewal of the Management Agreement were considered by the Board, or the Independent Trustees, as applicable. With respect to each Fund, such matters included:

- (a) the nature and quality of the advisory, administrative, and other services provided to the Fund by the Investment Adviser and its affiliates, including information about:
  - (i) the structure, staff, and capabilities of the Investment Adviser and its portfolio management teams;
  - (ii) the groups within the Investment Adviser and its affiliates that support the portfolio management teams or provide other types of necessary services, including fund services groups (e.g., accounting and financial reporting, tax, shareholder services, and operations); controls and risk management groups (e.g., legal, compliance, valuation oversight, credit risk management, internal audit, compliance testing, market risk analysis, finance, and central funding); sales and distribution support groups, and others (e.g., information technology and training);
  - (iii) trends in employee headcount;
  - (iv) the Investment Adviser's financial resources and ability to hire and retain talented personnel and strengthen its operations; and
  - (v) the parent company's support of the Investment Adviser and its registered fund business, as expressed by the firm's senior management;
- (b) information on general investment outlooks in the markets in which the Fund invests;
- (c) the terms of the Management Agreement entered into by the Trust on behalf of the Fund;
- (d) fee and expense information for the Fund, including the relative management fee and expense levels of the Fund as compared to those of comparable funds managed by other advisers, as provided by the Outside Data Provider;
- (e) with respect to the expense comparison data provided by the Outside Data Provider, its processes in producing that data for the Fund;
- (f) the undertaking of the Investment Adviser to implement a fee waiver;
- (g) whether the Fund's existing management fee schedule adequately addressed any economies of scale;
- (h) a summary of the "fall-out" benefits derived by the Investment Adviser and its affiliates from their relationships with the Fund;
- (i) a summary of potential benefits derived by the Fund as a result of its relationship with the Investment Adviser;
- (j) portfolio manager ownership of Fund shares; the manner in which portfolio manager compensation is determined; and the number and types of accounts managed by the portfolio managers;
- (k) the nature and quality of the services provided to the Fund by its unaffiliated service providers, and the Investment Adviser's general oversight and evaluation (including reports on due diligence) of those service providers as part of the administrative services provided under the Management Agreement; and
- the Investment Adviser's processes and policies addressing various types of potential conflicts of interest; its approach to risk management; the annual review of the effectiveness of the Fund's compliance program; and periodic compliance reports.

The presentations made at the Board and Committee meetings and at the Annual Meeting encompassed the Fund and other registered funds for which the Board of Trustees has responsibility. In evaluating the Management Agreement at the Annual Meeting, the Trustees relied upon their knowledge, resulting from their meetings and other interactions throughout the year, of the Investment Adviser and its affiliates, their services, and the Fund. In conjunction with these meetings, the Trustees received written materials and oral presentations on the topics covered, and the Investment Adviser addressed the questions and concerns of the Trustees, including concerns regarding the investment performance of certain of the funds they oversee. The Independent Trustees were advised by their independent legal counsel regarding their responsibilities and other regulatory requirements related to the approval and continuation of registered fund investment management agreements under applicable law. In addition, the Investment Adviser and its affiliates provided the Independent Trustees with a written response to a formal request for information sent on behalf of the Independent Trustees by their independent legal counsel. During the course of their deliberations, the Independent

### Statement Regarding Basis for Approval of Management Agreement (Unaudited) (continued)

Trustees met in executive sessions with their independent legal counsel, without representatives of the Investment Adviser or its affiliates present.

#### Nature, Extent, and Quality of the Services Provided Under the Management Agreement

As part of their review, the Trustees considered the nature, extent, and quality of the services provided to the Fund by the Investment Adviser. In this regard, the Trustees considered both the investment advisory services and non-advisory services that are provided by the Investment Adviser and its affiliates. The Trustees noted the transition in the leadership and changes in personnel of various of the Investment Adviser's portfolio management teams that had occurred in recent periods, and the ongoing recruitment efforts aimed at bringing high quality investment talent to the Investment Adviser. They also noted the Investment Adviser's commitment to maintaining high quality systems and expending substantial resources to respond to ongoing changes to the market, regulatory and control environment in which the Fund and its service providers operate, including developments associated with the COVID-19 pandemic, geopolitical events, and economic sanctions, as well as the efforts of the Investment Adviser and its affiliates to combat cyber security risks. The Trustees considered that under the Management Agreement, the Fund pays a single fee to the Investment Adviser, and the Investment Adviser pays the Fund's ordinary operating expenses, excluding payments under the Fund's 12b-1 plan (if any), interest expenses, taxes, acquired fund fees and expenses, brokerage fees, costs of holding shareholder meetings, litigation, indemnification and extraordinary expenses. The Trustees also considered information about the Fund's structure, investment objective, strategies and other characteristics. In particular, they noted that the Fund is a passively-managed exchange traded fund ("ETF") that seeks to track an index developed and maintained by a third-party service provider. The Trustees noted the experience and capabilities of the key personnel of the Investment Adviser who provide services to the Fund. In particular, the Trustees considered the Investment Adviser's extensive experience in managing investment strategies similar to those of the Fund. The Trustees also considered information regarding the Investment Adviser's business continuity planning and remote operations capabilities. The Trustees concluded that the Investment Adviser continued to commit substantial financial and operational resources to the Fund and expressed confidence that the Investment Adviser would continue to do so in the future. The Trustees also recognized that the Investment Adviser had made significant commitments to address regulatory compliance requirements applicable to the Fund and the Investment Adviser and its affiliates.

#### **Investment Performance**

The Trustees noted that the Fund had launched on March 9, 2023 and did not yet have a meaningful performance history. In addition, the Trustees considered the Investment Adviser's periodic reports with respect to the Fund's risk profile, and how the Investment Adviser's approach to risk monitoring and management influences portfolio management.

#### **Unitary Fee Structure**

The Trustees considered the unitary management fee rate payable by the Fund, noting that the Management Agreement provides for a unitary fee structure, pursuant to which the Fund pays a single fee to the Investment Adviser and the Investment Adviser then pays all of the Fund's ordinary operating expenses. In addition, the Trustees considered information on the services rendered by the Investment Adviser to the Fund, which included both advisory and non-advisory services that were directed to the needs and operations of the Fund as an ETF.

In particular, the Trustees reviewed analyses prepared by the Outside Data Provider regarding the expense rankings of the Fund. The analyses provided a comparison of the Fund's management fee to those of a relevant peer group and category universe; an expense analysis which compared the Fund's overall net and gross expenses to a peer group and a category universe; and data comparing the Fund's net expenses to the peer and category medians. The Trustees also considered information previously provided regarding fees and expenses of comparable ETFs advised by other, unaffiliated investment management firms. The comparisons of the Fund's fee rate and expense ratio were prepared by the Investment Adviser and certain third-party providers of mutual fund and ETF data. In particular, the Trustees referred to an analysis comparing the Fund's management fee rate and net expense ratio to those of relevant peer funds. The Trustees concluded that the comparisons were useful in evaluating the reasonableness of the management fee and total expenses paid by the Fund. They also noted that shareholders are able to sell their Fund shares on the secondary market if they believe that Fund fees and expenses are too high or if they are dissatisfied with the performance of the Fund. In addition, the Trustees considered the Investment Adviser's undertaking to implement a management fee waiver for the Fund. The Trustees noted that license fees would be payable by the Investment Adviser to Bloomberg Professional Services for the use of its index.

#### **Economies of Scale**

The Trustees noted that the Fund, similar to many other ETFs, does not have management fee breakpoints. They considered information previously provided regarding the Fund's fee structure, the amount of assets in the Fund, the Fund's recent creation and redemption activity, and information provided by the Investment Adviser relating to the costs of the services provided by the

### Statement Regarding Basis for Approval of Management Agreement (Unaudited) (continued)

Investment Adviser and its affiliates. The Trustees further noted the Investment Adviser's assertion that future economies of scale (among several factors) had been taken into consideration in determining the Fund's unitary management fee rate.

#### Other Benefits to the Investment Adviser and Its Affiliates

The Trustees also considered the other benefits be derived by the Investment Adviser and its affiliates from their relationships with the Fund as stated above, including: (a) trading efficiencies resulting from aggregation of orders of the Fund with those for other funds or accounts managed by the Investment Adviser; (b) the Investment Adviser's ability to leverage the infrastructure designed to service the Fund on behalf of its other clients; (c) the Investment Adviser's ability to cross-market other products and services to Fund shareholders; (d) the Investment Adviser's ability to negotiate better pricing with custodians on behalf of its other clients, as a result of the relationship with the Fund; (e) the investment of cash in money market funds managed by the Investment Adviser that will result in increased assets under management for those money market funds; and (f) the possibility that the working relationship between the Investment Adviser and the Fund's third-party service providers may cause those service providers to be more likely to do business with other areas of Goldman Sachs & Co. LLC. In the course of considering the foregoing, the Independent Trustees requested and received further information quantifying certain of these fall-out benefits.

#### Other Benefits to the Fund and Its Shareholders

The Trustees also noted that the Fund receives certain other potential benefits as a result of its relationship with the Investment Adviser, including: (a) trading efficiencies resulting from aggregation of orders of the Fund with those of other funds or accounts managed by the Investment Adviser; (b) enhanced servicing from vendors due to the volume of business generated by the Investment Adviser and its affiliates; (c) enhanced servicing from broker-dealers because of the volume of business generated by the Investment Adviser and its affiliates; (d) the advantages received from the Investment Adviser's knowledge and experience gained from managing other accounts and products; (e) the Investment Adviser's ability to hire and retain qualified personnel to provide services to the Fund because of the reputation of the Goldman Sachs organization; (f) the Fund's access, through the Investment Adviser, to certain firm-wide resources (e.g., proprietary risk management systems and databases), subject to certain restrictions; and (g) the Fund's access to certain affiliated distribution channels. They considered the competitive nature of the ETF marketplace, noting that many of the Fund's shareholders invested in the Fund in part because of the Fund's relationship with the Investment Adviser and have a general expectation that the relationship will continue.

#### Conclusion

In connection with their consideration of the Management Agreement, the Trustees gave weight to each of the factors described above, but did not identify any particular factor as controlling their decision. After deliberation and consideration of all of the information provided, including the factors described above, the Trustees concluded, in the exercise of their business judgment, that the unitary fee paid by the Fund was reasonable in light of the services provided to it by the Investment Adviser, the Investment Adviser's costs and the Fund's current and reasonably foreseeable asset levels. The Trustees unanimously concluded that the Investment Adviser's continued management likely would benefit the Fund and its shareholders and that the Management Agreement with respect to the Fund should be approved and continued until September 30, 2024.

# Liquidity Risk Management Program

February 29, 2024

The Fund has adopted and implemented a liquidity risk management program (the "Program") in accordance with Rule 22e-4 under the 1940 Act. The Program seeks to assess and manage the Fund's liquidity risk, i.e., the risk that a Fund is unable to satisfy redemption requests without significantly diluting remaining investors' interests in the Fund. The Board of Trustees of the Trust has designated GSAM, the Fund's investment adviser, to administer the Program. Certain aspects of the Program rely on third parties to perform certain functions, including the provision of market data and application of models.

The Program is comprised of various components designed to support the assessment and/or management of liquidity risk, including: (1) the periodic assessment (no less frequently than annually) of certain factors that influence the Fund's liquidity risk; (2) the periodic classification (no less frequently than monthly) of the Fund's investments into one of four liquidity categories that reflect an estimate of their liquidity under current market conditions; (3) a 15% limit on the acquisition of "illiquid investments" (as defined under Rule 22e-4); (4) for a Fund that does not invest primarily in "highly liquid investments" (as defined under Rule 22e-4), the determination of a minimum percentage of the Fund's assets that will generally be invested in highly liquid investments (a "Highly Liquid Investment Minimum"); and (5) periodic reporting to the Board of Trustees.

At a meeting of the Board of Trustees on February 13-14, 2024, GSAM provided a written report to the Board addressing the operation, and the adequacy and effectiveness of the implementation, of the Program, including, as applicable, the operation of any Highly Liquid Investment Minimum and any material changes to the Program, for the period from January 1, 2023 through December 31, 2023 (the "Reporting Period"). Among other things, the annual report discussed: (1) the results of stress tests designed to assess liquidity under a hypothetical stressed scenario involving elevated redemptions; (2) an assessment of the methodologies used to classify investments into one of four liquidity categories; (3) the efficiency of the arbitrage function during the Reporting Period; and (4) the impact of local holidays in non-U.S. jurisdictions. The report concluded that the Program continues to be reasonably designed to assess and manage liquidity risk and was adequately and effectively implemented during the Reporting Period.

There can be no assurance that the Program will achieve its objectives under all circumstances in the future. Please refer to your Fund's prospectus for more information regarding the Fund's exposure to liquidity risk and other risks to which it may be subject.

### Fund Expenses — Six Months ended February 29, 2024 (Unaudited)

As a shareholder you incur ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in Shares of the Funds and to compare these costs with the ongoing costs of investing in other exchange-traded funds. This example does not take into account brokerage commissions that you may pay on your purchases and sales of Shares of a Fund.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from September 1, 2023 through February 29, 2024, which represents a period of 182 days of a 366 day year.

Actual Expenses — The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the six months. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000=8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid" to estimate the expenses you paid on your account during this period.

*Hypothetical Example for Comparison Purposes* — The second line in the table below provides information about hypothetical account values and hypothetical expenses based on a Fund's actual net expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in a Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Community Municipal Bond ETF			
	Beginning	Ending	Expenses	
	Account Value	Account Value	Paid for the 6 months	
	9/1/23	2/29/24	ended 2/29/24*	
Actual based on NAV	\$1,000.00	\$1,025.81	\$0.81	
Hypothetical 5% return	1,000.00	1,024.07 <sup>+</sup>	0.81	

+ Hypothetical expenses are based on each Fund's actual annualized net expense ratios and an assumed rate of return of 5% per year before expenses.

\* Expenses are calculated using each Fund's annualized net expense ratio for each class, which represents the ongoing expenses as a percentage of net assets for the six months ended February 29, 2024. Expenses are calculated by multiplying the annualized net expense ratio by the average account value for the period; then multiplying the result by the number of days in the most recent fiscal half year; and then dividing that result by the number of days in the fiscal year.

The annualized net expense ratios for the period were as follows: Fund

This information discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice. This material has been prepared by Goldman Sachs Asset Management and is not financial research nor a product of Goldman Sachs Global Investment Research (GIR). It was not prepared in compliance with applicable provisions of law designed to promote the independence of financial analysis and is not subject to a prohibition on trading following the distribution of financial research. The views and opinions expressed may differ from those of Goldman Sachs Global Investment Research or other departments or divisions of Goldman Sachs and its affiliates. Investors are urged to consult with their financial advisors before buying or selling any securities. This information may not be current and Goldman Sachs Asset Management has no obligation to provide any updates or changes.

The reports concerning the Fund included in this shareholder report may contain certain forward-looking statements about the factors that may affect the performance of the Funds in the future. These statements are based on Fund management's predictions and expectations concerning certain future events and their expected impact on the Funds, such as performance of the economy as a whole and of specific industry sectors, changes in the levels of interest rates, the impact of developing world events, and other factors that may influence the future performance of the Funds. Management believes these forward-looking statements to be reasonable, although they are inherently uncertain and difficult to predict. Actual events may cause adjustments in portfolio management strategies from those currently expected to be employed.

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities and information regarding how the Funds voted proxies relating to portfolio securities for the most recent 12-month period ended June 30, are available (i) without charge, upon request by calling 1-800-621-2550; and (ii) on the Securities and Exchange Commission ("SEC") website at http://www.sec.gov.

The Fund will file its portfolio holdings information for each month in a fiscal quarter within 60 days after the end of the relevant fiscal quarter on the Form N-PORT. Portfolio holdings information for the third month of each fiscal quarter will be made available on the SEC's website at http://www.sec.gov. Portfolio holdings information may be obtained upon request and without charge by calling 1-800-621-2550.

Fund holdings and allocations shown are as of February 29, 2024 and may not be representative of future investments. Fund holdings should not be relied on in making investment decisions and should not be construed as research or investment advice regarding particular securities. Current and future holdings are subject to risk.

ETF Fund shares are not individually redeemable and are issued and redeemed by the Fund at their net asset value ("NAV") only in large, specified blocks of shares called creation units. Shares otherwise can be bought and sold only through exchange trading at market price (not NAV). Shares may trade at a premium or discount to their NAV in the secondary market. Brokerage commissions will reduce returns.

This material is not authorized for distribution to prospective investors unless preceded or accompanied by a current Prospectus or summary prospectus, if applicable. Investors should consider a Fund's objective, risks, and charges and expenses, and read the summary prospectus, if available, and/or the Prospectus carefully before investing or sending money. The summary prospectus, if available, and the Prospectus contain this and other information about a Fund and may be obtained from your authorized dealer or from Goldman Sachs & Co. LLC by calling (retail --1-800-526-7384) (institutional --1-800-621-2550).
