Portfolios and benchmarks are not rated by an independent ratings agency. GSAM may receive credit quality ratings on the underlying securities of portfolios and their respective benchmarks from the three major rating agencies: Standard & Poor's, Moody's and Fitch. GSAM calculates the credit quality breakdown and overall rating for both portfolios and their respective benchmarks according to the client's preferred method or such other method as selected by GSAM in its sole discretion. The applicable method may differ from the method independently used by benchmark providers. Securities that are not rated by all three agencies are reflected as such in the breakdown. For illustrative purposes, GSAM converts all ratings to the equivalent S&P major rating category when reporting the credit rating breakdown. Ratings and portfolio credit quality may change over time. Unrated securities do not necessarily indicate low quality, and for such securities the investment adviser will evaluate the credit quality.
