The Portfolio is exposed to risks associated with financial derivative instruments, including writing (selling) of covered call options, which may lead to a significant loss by the Portfolio. * The Portfolio is exposed to risks associated with currency, equity market, small-capitalisation / mid-capitalisation companies, regulatory/exchanges requirements/policies of the equity market in Emerging Markets, RMB currency and conversion, sustainability risk, depositary receipts, Money Market Instruments, liquidity, counterparty, credit, interest rate, downgrading, high yield instruments and/or below Investment Grade or unrated securities of comparable credit quality, investments in debt instruments with loss-absorption features, valuation, credit rating, Tactical Exposures and dynamic asset allocation strategy. * Material losses to the Portfolio may arise as a result of human error, system and/ or process failures, inadequate procedures or controls. * Insolvency, breaches of duty of care or misconduct of a custodian or sub-custodian responsible for the safekeeping of the Portfolio's assets can result in loss to the Portfolio. * For Other Currency Shares (Gross MDist) (AUD-Hedged), the investment returns are denominated in Australian dollar. US/HK dollar based investors are therefore exposed to fluctuations in the US/HK dollar/Australian dollar exchange rate. * For Other Currency Shares (Gross MDist)(RMB-Hedged), the investment returns are denominated in RMB. ⁽¹⁾ Effective December 28, 2018, the portfolio name changed from Goldman Sachs Global Income Builder Portfolio to Goldman Sachs Global Multi-Asset Income Portfolio. ⁽²⁾ The performance up to and including 2017 was achieved under circumstances that no longer apply, as the investment objective and investment policy were changed since April 2015 and August 2017 whereby the portfolio may seek to generate income through the writing of call options on equity securities or indices, and the portfolio's currency exposure was hedged back to the US Dollar, respectively. ⁽³⁾ © 2025 Morningstar, Inc. All Rights Reserved. The Information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. ⁽⁴⁾ Portfolio returns are shown net of applicable ongoing fees within the portfolio, with dividends re-invested using the ex-dividend NAV. These returns are for comparison of performance against specified index. As the investor may be liable to other fees, charges and taxes, they are not meant to provide a measure of actual return to investors. The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares. ⁽⁵⁾ For more detailed information on fees and charges, please refer to the Hong Kong offering documents including the Product Key Facts Statement (KFS). Effective April 27, 2015, the Management Fee of all Base Classes and Other Currency Share Classes changed from up to 1.50% per annum to 1.25% per annum.

⁽⁶⁾ Portfolio holdings may not represent current, future investments or all of the portfolio's holdings. Future portfolio holdings may not be profitable. ⁽⁷⁾ Dividend history for Base Shares (Gross MDist) only. Annualised Dividend Yield = Dividend per share / NAV as of Record Date x 12. The annualised dividend yield is calculated based on the latest dividend distribution with dividend reinvested, and may be higher or lower than the actual annual dividend yield. Positive distribution yield does not imply positive return. The share classes mentioned herein seek to distribute income gross of management fees and operating expenses and therefore ongoing charges are effectively deducted from capital. You should be aware that this may result in an erosion of capital and may reduce future capital growth. Investors should be aware that, where ongoing charges are deducted from capital, this may have tax implications for an investor where income and capital gains are subject to different treatment and personal tax rates. Therefore, investors should seek their own tax advice before investing in such classes. The fund / the investment manager may at its discretion pay dividend out of the capital of the fund, or out of gross income while charging/ paying all or part of the fund's fees and expenses to/out of the capital of the fund, resulting in an increase in distributable income for the payment of dividends by the fund and therefore, the fund may effectively pay dividend out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the fund's capital or payment of dividends effectively out of the fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share/unit. Distribution of dividends (if any) is not applicable to all share classes and is not guaranteed, and is subject to the sole and absolute discretion of Management Company. Dividend yield is not indicative of your investment's return. Net Distributable Income means the net investment income (i.e. dividend income and interest income net of fees and expenses) attributable to the relevant share class and may also include the net realized gains (if any) based on unaudited management accounts. Net Distributable Income which is not declared and paid as dividends in a period of a financial year can be carried forward as net distributable income for the next period(s) within the same financial year. Net Distributable Income that has been accrued as at the end of a financial year and is declared and paid as dividends at the next distribution date immediately after that financial year end could be treated as Net Distributable Income in respect of that financial year. Net Distributable Income which has been accrued as at the end of a financial year but is not declared and paid as dividends at the next distribution date immediately after that financial year end should be included as "capital" for the next financial year. ⁽⁸⁾ For Class Other Currency Shares (Gross M-Dist) (GBP-Hedged), no calendar year performance was shown because there is insufficient data to provide a useful indication of past performance to investors; the share class was launched on February 02, 2024. For Class Other Currency Shares (Gross M-Dist) (CAD-Hedged), no calendar year performance was shown because there is insufficient data to provide a useful indication of past performance to investors; the share class was launched on February 15, 2024.

Glossary

- **Net Asset Value** – Represents the net assets of the fund (ex-dividend) divided by the total number of shares issued by the fund.

Past performance does not guarantee future results, which may vary.

(a) We identify two broad categories of funds to help investors think about how to construct their overall investment portfolio. We describe the following as “**Core**”: (A) Equity funds with a global investment remit or those mainly focused on US and European markets, given the size and transparency of these markets. (B) Fixed income funds with a global investment remit or those mainly focused on US, European and UK markets and invest predominantly in investment grade debt, including government. (C) Multi asset funds with a multi asset benchmark. All other funds we describe as “**Complements**”. Both Core and Complement funds can vary in risk level and those terms are not meant to indicate the risk level of the funds. There is no guarantee that these objectives will be met.

For regionally focused investment portfolios we understand that the categorisation may be different from the perspective of different investors. **Consult your financial adviser before investing to help determine if an investment in this fund and the amount of the investment would be suitable.**

Asian Private Banker Asset Management Awards for Excellence 2025: Best Fund Provider – Multi-Asset Provider is selected by the judging panel made up of Asian Private Bankers’ editorial team, based on weighted criteria on product performance, asset gathering, service competency and fund selector feedback. The award is based on house performance from August 2023 to August 2024 and are for reference only. These awards are not indicative of past or future fund performance. Award names and logos are trademarks or registered trademarks of their respective holders. Use by Goldman Sachs does not imply or suggest an endorsement or affiliation.
