Past Performance

This chart shows the fund's performance as the percentage loss or gain per year over the last 10 year(s) against its benchmark. It can help you to assess how the fund has been managed in the past and compare it to its benchmark. Where past performance is not shown there is insufficient data to provide a useful indication of past performance.

• **Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the fund has been managed in the past.**

- The Fund was launched in 2008. The share class was launched in 2013.
- Where applicable, past performance has been calculated in EUR and is expressed as a percentage change of the Fund's Net Asset Value at each year end (net of all fees).
- Please be aware that past performance is not indicative of future performance which may vary.
- The past performance shown here takes account of all charges and costs, excluding entry and exit costs and fund switching costs.
- With effect as of 15-11-2018 the share class is relaunched. For this reactivated share class the performance is shown from the date of reactivation and not from the share class launch date. The Benchmark changed over time. Current Benchmark: Euribor 3-month (50% Germany T-Bills 3-month, 50% Germany T-Bills 6-month until 1 Feb 2013). This performance was achieved when the Fund had different characteristics.
