

Goldman Sachs MLP Energy Infrastructure Fund

Notification of Source of Distributions

Pursuant to Rule 19a-1 under the Investment Company Act of 1940

The Goldman Sachs MLP Energy Infrastructure Fund (“the Fund”) made distributions for the Quarter ended November 30th, 2024. A portion of this distribution may be treated for tax purposes as a return of capital; however, the final characterization of such distribution will be made in 2024 when the Fund can determine its earnings and profits for the full year.

The Fund’s quarterly distribution normally consists of dividends and distributions it receives from master limited partnerships (“MLPs”) and other portfolio securities. Historically, distributions received from MLPs include a return of capital for tax purposes. As a result, when the Fund pays these distributions to shareholders, they may share a similar tax treatment. Estimated as of November 15th, 2024, the distributions paid fiscal year-to-date by the Fund would have been approximately 6% from income, 94% from cumulative net realized gains, and none from return of capital.

The ultimate composition of these distributions may vary from the estimates provided above due to a variety of factors including future income and expenses and realized gains and losses from the purchase and sale of securities.
