## Goldman Sachs Funds II Investment Adviser's Report For the Period Ended 31 May 2025

#### **Dear Shareholders:**

Enclosed is the report for the six months ended 31 May 2025.

## A. Market Review<sup>1</sup>

#### Macro

From a macro standpoint, sequentially better US labour market data and strong US consumption growth in Q4 2024 continued to point towards a solid US economy, which grew at 2.8% in 2024. Aside from economic data and central banks, a key event in January was the inauguration speech of the newly elected President Trump. Going into the event, market participants were worried about the announcement of tariffs. However, a lack of any concrete details on tariffs led to short-term relief, which helped risk assets. In February, major developed market central banks, excluding the Bank of Japan (BoJ), continued to point towards a gradual easing of interest rates as they approached their estimates of neutral policy rates and inflation remained above target. In March, weaker US activity data, especially business and consumer surveys, coupled with further increases in trade policy uncertainty weighed on risk sentiment. The US Federal Reserve (Fed) revised down its growth estimate and revised up its inflation estimate for 2025. In Europe, Germany launched a significant fiscal package (defence and infrastructure) to support growth and bolster national security. Tariff-related news drove financial markets in April as macroeconomic data took a backseat. On 2 April, the Trump administration announced a 10% tariff on most trading partners, excluding Canada and Mexico, along with country-specific reciprocal tariffs, which were higher than market expectations and to be effective from 9 April 2025. On 12 May, the Trump administration announced that both the US and China have agreed to reduce tariffs by 115%, which left US tariffs on Chinese imports at 30% and Chinese tariffs on the US imports at 10%. Given this de-escalation, economists revised up their growth expectations for both economies. However, actual hard data in the US softened as core retail sales, industrial production, and core capital goods orders were somewhat weaker than expected. While the news on trade policy remained volatile, the Trump administration proceeded quickly on the fiscal policy front. The House passed the "One Big Beautiful Act", which could be positive for US growth in 2026 due to fiscal tailwinds and would likely keep deficits elevated.

## **Monetary Policy**

2024 concluded with US growth continuing to look healthy, downside risks in Europe and China via trade, central banks signaling that the pace of easing could be more gradual going forward, and the BoJ awaiting further confirmation of improvement in underlying wage growth and price increases. On the monetary policy front, 2025 began with the European Central Bank (ECB) reducing its policy rate in January by 25bps to 2.75%, in line with expectations. Mirroring the trend in 2024, the BoJ remained an outlier and raised policy rate by 25bps to 0.5%. In the UK, Bank of England (BoE) cut rates by 25bps, as expected, at its February meeting, while Europe flash composite Purchasing Managers' Indexes (PMIs) were stable. In China, manufacturing activities rose to a three-month high, signaling expansion in the sector. In March, the Fed left rates unchanged and signalled that there is no rush to cut rates if the labour market is healthy. Amid April's elevated tariff uncertainty, Chair Powell noted that the Fed was not in a hurry to cut rates and stated that the Federal Open Market Committee (FOMC) is well positioned to wait for greater clarity given a highly uncertain outlook. Across the border, the Bank of Canada held policy rate at 2.75%, which was widely anticipated. In Europe, the ECB cut rates by 25bps, in line with market pricing. The ECB Governing Council noted that the growth outlook has deteriorated due to trade uncertainty and the Euro area was facing a negative demand shock. In May, the Fed remained steady and kept rates unchanged, waiting for more clarity on trade and fiscal policy. In Asia, the BoJ decided to maintain its policy rate at 0.5%, in line with expectations, and revised down its economic and price outlook for 2025 and 2026.

## **Bond Markets**

Developed market bond yields went up in the final month of 2024 with the US and the UK 10Y yield rising by 35bps each. The German 10Y yield was up 25bps while the Japanese 10Y yield was up a modest 6bps. The rise in US 10Y nominal yield was mainly driven by a 30bps rise in real yields, with breakeven inflation rising by a modest 5bps. The US 10Y yield was unchanged in January. A 25bps hike by the BoJ and slightly hawkish stance led to a 14bps rise in the Japanese 10Y yield. In February the US 10Y yield was down 34bps through the month despite a higher-than-expected Core CPI print, as weaker growth data coupled with higher uncertainty overshadowed higher inflation. The Japanese 10Y yield rose from 1.24% to 1.37% as the BoJ remains the only major central bank which is tightening monetary policy. In Europe, yields were relatively subdued with the UK 10Y yield up by 5bps whereas the German 10Y yield was down by 7bps. Yields were generally higher through the month of March. Leading the way was the German 10Y yield which rose by 36bps on the back of the fiscal package announcement by the German government. Rates had a volatile month in April. While the US 10Y yield was lower, it reached a low of 3.98% on 4 April and a high of 4.49% on 11 April, registering a 50bps move within a week. Elsewhere, German, the UK, and Japanese 10Y yields were down by 29bps, 25bps, and 17bps respectively. At the short end, US 2Y yield was down 30bps as markets priced in more rate cuts. Yields were largely higher in May as the US 10Y yield was up by 24bps, closely followed by increases of 23bps in UK 10Y yield and 18bps in Japanese 10Y yield. German 10Y yields were up a modest 6bps. Positive risk sentiment coupled with elevated deficits in the US on the back of the new tax bill kept yields higher.

## **Equity Markets**

After a significant equity market rally in November, December turned out to be a month of consolidation, mostly

## Goldman Sachs Funds II Investment Adviser's Report For the Period Ended 31 May 2025

driven by hawkish comments from the December FOMC meeting. Global equities got off to a strong start in 2025, largely led by strong performances of Euro area equities and US equities. Among US sectors, technology underperformed, largely driven by a sell-off on 27 January due to the news on DeepSeek, a Chinese artificial intelligence (AI) lab, releasing an open-source reasoning model that achieved performance comparable to OpenAI's O1, which is the current state of the art model. Most importantly, DeepSeek claimed that its model was trained at a fraction of the cost of OpenAI. As a result, market participants questioned the growth estimates and profit margin of AI-related stocks. Softer US activity data and higher policy uncertainty in the US soured risk sentiment in February. However, in Europe, improving earnings dynamics coupled with manufacturing PMIs bouncing off the lows, and better economic surprises, drove Euro Area equities higher. Weaker US economic activity and trade and fiscal policy uncertainty negatively impacted US equity markets in March. Global equities were almost flat in April, with minimal dispersion across major markets. However, intra-month volatility was noteworthy. During the first week of April, global equities were sharply lower. Given that the US was engaging in a trade conflict with all major trading partners at the same time, the drag on US growth was expected to be larger, which made market participants question US growth exceptionalism. Amidst the uncertainty, President Trump eventually announced a 90-day pause on the country-specific reciprocal tariffs, except China, on 9 April to allow for negotiations. Financial markets reacted strongly to this positive development and global equities rallied. Global equities continued to rally in May, buoyed by the de-escalation of trade tensions.

### 1 Organisation

Goldman Sachs Funds II ("the Fund") was incorporated on 20 November 2007 under the laws of the Grand Duchy of Luxembourg as a "Société d'Investissement à Capital Variable" ("SICAV"), for an unlimited period of time. The Fund is registered in accordance with Part I of the Law of 17 December 2010, as amended and has appointed Goldman Sachs Asset Management B.V. ("GSAMBV") to be its Management Company. GSAMBV is authorised and regulated by the Dutch Authority for the Financial Markets (AFM), and is a wholly owned subsidiary of The Goldman Sachs Group, Inc.

Refer to Note 6 for details of functions the Management Company has delegated.

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch, (the "Depositary") to act as the Depositary of the Fund's assets.

As at 31 May 2025, the Fund is comprised of ten different portfolios ("the Portfolios").

As at 31 May 2025, the Fund offered shares in the Portfolios as detailed in Report of the Management Company I.

Please refer to Report of the Management Company II for Portfolios that were launched, merged, closed or changed name during the period.

#### 2 Investment Objective Policies

The primary investment objectives of the Portfolios are detailed in the Prospectus and in the relevant Supplements of the Prospectus.

## 3 Significant Accounting Policies

### (a) Basis of Preparation of Financial Statements

The financial statements of the individual Portfolios are presented in their base currency while the Combined Total of all the Portfolios is presented in United States Dollars. The Board of Directors considers that the Portfolios' base currency most accurately represents the economic effects of the underlying transactions, events and conditions of the Portfolios.

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds. The financial statements have been prepared on a going concern basis (except for the Portfolios where an intention to liquidate or to cease operations has been taken by the Board of Directors at the time of the approval of the financial statements) as the Directors are of the view that the Fund can continue in operational existence for the foreseeable future.

The preparation of financial statements requires the Board of Directors to make estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Refer to the Statement of Assets and Liabilities and Note 4 where the Board of Directors was required to make certain estimates and assumptions to determine value. Actual results may differ from those estimates.

## 3 Significant Accounting Policies (Continued)

#### (a) Basis of Preparation of Financial Statements (Continued)

In accordance with the Prospectus, Shareholders' Equity as at 30 May 2025 reflect all capital and securities transactions until 29 May 2025 for all Portfolios of the Fund. By way of information, if the Fund had calculated the Shareholders' Equity solely with a view to publication, all the capital and securities transactions traded on 30 May 2025 would have been included in the Shareholders' Equity as at 30 May 2025.

#### (b) Investment Transactions, Related Investment Income and Operating Expenses

Realised gains and losses are based on the Weighted Average Cost Method. Dividend income and dividend expense are recorded on the ex-dividend date and interest income and interest expense are accrued over the life of the investment. Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment. Interest income and dividend income are recognised on a gross basis before withholding tax, if any.

Operating expenses are recognised on an accrual basis.

#### (c) Transaction Costs

Transaction costs are recognised in the Statement of Operations as part of net change in unrealised gain/(loss) on investment securities and net realised gain/(loss) on investment securities. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Portfolio.

## (d) Financial Investment in Securities and Valuation

## i. Recognition and Derecognition

The Portfolios recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the investment. Any gains and losses arising from changes in value of the financial assets or financial liabilities are recorded in the Statement of Operations.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Portfolio has transferred substantially all risks and rewards of ownership.

#### ii. Value Measurement Principles

The value of all securities and derivatives is determined according to the following policies:

## (ii.1) Exchange Listed Assets and Liabilities

The value of exchange traded financial investments, including transferable securities admitted to an official exchange listing or dealt in on any other regulated market that operates regularly, which comprise Common Stocks, Bonds, Real Estate Investment Trusts, Warrants, Mutual Funds, Preferred Stocks, Options, Contracts for Difference and Futures Contracts, are valued based upon quoted market prices at the period end date without any deduction for estimated future transaction costs.

## (ii.2) Debt Securities

Debt securities, comprising Bonds are valued at mid or bid depending on fund methodology, by third party pricing service providers without any deduction for estimated future transaction costs.

When a debt security has been identified as being in default, the interest accrual on the defaulted security may be stopped, and upon confirmation from relevant parties, the amount receivable may be written off.

## 3 Significant Accounting Policies (Continued)

## (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

## (ii.3) Certificates of Deposit and Money Market Investments

Certificates of Deposit, Commercial Papers and Money Market Investments are valued at mid by third party service providers, or where such pricing service is unavailable, at amortised cost which approximates market value.

#### (ii.4) Shares in Collective Investment Schemes

The value of investments in open-ended investment funds, comprising Mutual Funds, are valued based upon the official net asset value per share ("NAV") as at the last available date as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its prospectus. In cases where the most recent available NAV is not deemed representative of their fair value, the valuation is determined by the valuer and any significant changes or events that may have occurred after the latest available NAV is considered.

As at period-end, there are no investments in Collective Investment Schemes that have been valued by the valuer.

#### (ii.5) Derivatives

A derivative is an instrument whose value is derived from an underlying instrument, index reference rate or a combination of these factors. Derivative instruments may be privately negotiated contracts which are often referred to as over the counter ("OTC") derivatives or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative contracts are stated at market value and recognised as assets and liabilities in the Statement of Assets and Liabilities. Gains and losses resulting from the change in the market value are reflected in the Statement of Operations as a component of net change in unrealised gain/(loss). Realised gains or losses are recorded on termination or from periodic cash flow payments.

### (ii.5) (a) Option Contracts

The Portfolios may enter into exchange traded and OTC option contracts with various counterparties. When the Portfolio purchases an option, an amount equal to market value which is based on the premium paid is recorded as an asset, the value of which is marked-to-market daily. When the Portfolio writes an option, an amount equal to market value which is based on the premium received by the Portfolio is recorded as a liability and is adjusted to the market value of the option written on each valuation date.

When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is treated as realised gain or loss. The exercise of an option written by the Portfolio could result in the Portfolio buying or selling a financial instrument at a price different from the current market value.

The fair value of an OTC contract is determined by using counterparty supplied valuations, an independent pricing service or valuation models which use market data inputs supplied by a third party pricing service, and is typically valued at mid. Exchange traded options are valued based on the exchange settlement/last sale prices, or, if the last settlement price is not available for any reason, at the midpoint of the bid and ask prices (or, in the absence of two-way trading, at the last bid price for long positions and the last ask price for short positions), or independent market guotes provided by a pricing service or counterparty.

## (ii.5) (b) Futures Contracts

Futures contracts are contracts to buy or sell a standardised quantity of a specified commodity, security or index and are valued based on exchange settlement/last sale prices, last bid or ask prices on the exchange, or independent market quotes. Initial margin deposits, in either cash or securities, are required to trade in the

### 3 Significant Accounting Policies (Continued)

## (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.5) Derivatives (Continued)

(ii.5) (b) Futures Contracts (Continued)

futures market. Unrealised gains or losses on futures contracts are recognised to reflect the market value of the contracts and are included as a component of the unrealised gains or losses on the Portfolio's Statement of Operations. Variation margin is received or paid, depending on whether unrealised gains or losses are incurred. When the contract is terminated, the Portfolio will recognise a realised gain or loss equal to the difference between the value of the contract at the time it was entered into and the time it is closed.

## (ii.5) (c) Swap Contracts

Swaps, comprising Interest Rate Swaps and Total Return Swaps, can be linked to any number of underlying investments and indices, and swap terms can vary greatly. Cash flows are exchanged based on the underlying. Upfront payments, which represent a risk premium, are amortised or accreted over the contract term. Swap agreements are carried at market value, typically valued at mid, and the value of the swap agreement is based on a counterparty provided price, third party pricing service or valuation model. The model considers various inputs including the market value of the underlying, the risks associated with the underlying and the specific terms of the contract. In connection with these agreements, securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency. This collateral or margin is primarily denominated in base currency, and is paid from the custody account to the broker.

For the period ended 31 May 2025, all collateral in relation to total return swaps was pledged in the form of cash. Please refer to Note 13 and to Report of the Management Company III for more information.

Total return swaps and more specifically OTC derivative transactions are entered into by the Portfolio under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Portfolio and a counterparty that governs OTC derivative transactions (including total return swaps) entered into by the parties.

All returns from OTC derivative transactions will accrue to the Portfolio and are not subject to any returns sharing agreement with the Portfolio's manager or any other third parties.

## (ii.5) (d) Forward Foreign Currency Contracts

In a forward foreign currency contract, the Portfolio agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. Purchases and sales of forward foreign currency contracts having the same notional value, settlement date and counterparty and right to settle net are generally offset (which result in a net foreign currency position of zero with the counterparty) and any realised gains or losses are recognised.

Forward foreign currency contracts are valued at mid by third party pricing service providers.

#### (ii.6) All Securities and Derivatives

If a quoted market price is not available from a third party pricing service or a dealer, or a quotation is believed to be materially inaccurate, the market value of the investment is determined by using valuation techniques. Valuation techniques include the use of recent market transactions, reference to the current market value of another investment that is substantially the same, discounted cash flow analyses or any other techniques that provides a reliable estimate of prices obtained in actual market transactions. Such securities and derivatives shall be valued at their fair value as determined by the Valuer. Please refer to Note 4 for further details.

## 3 Significant Accounting Policies (Continued)

## (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.6) All Securities and Derivatives (Continued)

The investments have been valued in accordance with Luxembourg generally accepted accounting principles that may require the use of certain estimates and assumptions to determine value. Although these estimates and assumptions are based on the best available information, actual results could be materially different from these estimates.

Refer to Note 4 for securities where the Valuer was used to determine fair value.

## (e) Cash

Cash is valued at cost, which approximates market value.

#### (f) Due from/to Brokers

Due from brokers consists primarily of cash receivable for collateral from the Portfolios' clearing brokers and various counterparties. Due to brokers consists primarily of cash payable for collateral to the Portfolios' clearing brokers and various counterparties.

Due from/to broker balances are valued at cost, which approximates market value. Refer to Note 13 for further details.

## (g) Foreign Currency Translation

The books and records of all Portfolios are maintained in their base currency. Please refer to Report of the Management Company I for the base currency of each Portfolio. Transactions in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into the base currency at the foreign currency closing exchange rate in effect at the period end date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of assets and liabilities are recognised in the Statement of Operations. Foreign currency exchange gains or losses relating to investments, derivative financial investments, and all other foreign currency exchange gains or losses relating to monetary items, including cash and cash equivalents, are reflected in the net realised gain/(loss) or net change in unrealised gain/(loss) in the Statement of Operations.

## (h) Expenses

Expenses incurred by the Fund that do not specifically relate to an individual Portfolio or Share Class of a Portfolio are allocated to the Portfolios based on an allocation basis that depends upon the nature of the charges. Expenses directly attributable to a Portfolio or Share Class are generally charged to that Portfolio or Share Class.

## (i) Income Equalisation Arrangements

Income equalisation arrangements may be applied in some or all of the Portfolios of the Fund. Where they are applied, these arrangements are intended to ensure that the income per share which is distributed or deemed distributed in respect of a distribution period is not affected by changes in the number of shares in issue during that period, and the amount of the first distribution received by a Shareholder in an impacted Portfolio following the purchase of shares in that Portfolio will represent partly participation in income received by the Portfolio and partly a return of capital (the "equalisation amount"). The equalisation amounts are included within the proceeds from shares issued and the payment for shares redeemed in the Statement of Changes in Shareholders' Equity.

## (j) Swing Pricing

On any Business Day the Management Company in consultation with its appointed delegate, Goldman Sachs Asset Management International ("GSAMI") as Investment Adviser, in conformity with guidelines established by the Board of Directors, may determine to apply swing pricing (to include such reasonable factors as they see fit) to the net asset value per share. This method of net asset value calculation is intended to pass the estimated

## 3 Significant Accounting Policies (Continued)

## (j) Swing Pricing (Continued)

costs of underlying investment activity of the Portfolio to the active Shareholders by adjusting the net asset value of the relevant share and thus to protect the Portfolio's long-term Shareholders from costs associated with ongoing redemption and subscription activity. This is processed as a capital adjustment.

Swing pricing may take account of trading spreads on the Portfolio's investments, the value of any duties and charges incurred as a result of trading and may include an estimate of market impact. Where GSAMI, based on the prevailing market conditions and the level of subscriptions or redemptions requested by Shareholders or potential Shareholders in relation to the size of the relevant Portfolio, have determined for a particular Portfolio to apply swing pricing, the Portfolio's net asset value may be valued either on a bid or offer basis.

Because the determination of whether to value the Portfolio's net asset value on a bid or offer basis is based on the net transaction activity of the relevant day, Shareholders transacting in the opposite direction of the Portfolio's net transaction activity may benefit at the expense of the other Shareholders in the Portfolio. In addition, the Portfolio's net asset value and short-term performance may experience greater volatility as a result of this swing pricing.

Investors should be aware that, the factor used to apply swing pricing ("swing factor") will under normal conditions not exceed 2% of the net asset value per share of the relevant Share Class of the Portfolio, unless otherwise stated in the relevant Supplement. Notwithstanding the above, where exceptional circumstances (including, but not limited to, widening bid offer spreads often as a result of high market volatility and/or illiquidity, exceptional market conditions market disruptions) the Management Company, in consultation with the Board of Directors, may decide, in the best interest of Shareholders and in respect of any particular Portfolio and on any Business Day, to apply a swing factor which is above 2%. Shareholders will be informed on such decision via a notice and/or a publication posted on www.gsam.com. The swing factor applied to individual Portfolios will be reviewed by the Investment Adviser on a periodic basis in order to verify their appropriateness in light of prevailing market conditions.

The following Portfolios are able to apply swing pricing:

Multi-Manager Emerging Markets Equity Portfolio	Balanced Allocation Portfolio
Multi-Manager Europe Equity Portfolio	Strategic Factor Allocation Portfolio
Multi-Manager Global Equity Portfolio	Tactical Tilt Overlay Portfolio
Multi-Manager US Equity Portfolio	Strategic Volatility Premium Portfolio
Multi-Manager US Small Cap Equity Portfolio	

The reversal of the swing net asset calculation method presented in the Statement of Changes in Shareholders' Equity represents the reversal of the amount applied as at 30 November 2024.

Refer to the Statement of Assets and Liabilities and the Statement of Changes in Shareholders' Equity for the Portfolios that applied swing pricing as at 31 May 2025.

## 4 Valuation Determined by the Valuer

The Valuer is appointed by the Management Company. The Valuer also has direct responsibilities to the Board of Directors for certain valuation functions, which are ultimately reflected in the financial statements. The Valuer during the period ended 31 May 2025 was Goldman Sachs & Co. LLC and the valuation function was performed by Goldman Sachs Controllers Division ("Controllers").

The following table sets forth the assets where the Valuer was used to determine the fair value as at 31 May 2025:

As at 31 May 2025						
Portfolios Currency Number of Assets valued Value % of Sharehold Eq						
Multi-Manager Emerging Markets Equity Portfolio	USD	10	202,020	0.07%		
Multi-Manager Global Equity Portfolio	USD	3	6,071	0.00%		

## 4 Valuation Determined by the Valuer (Continued)

As at 31 May 2025					
Portfolios Currency Number of Assets valued Value % of Sharehold Eq					
Multi-Manager US Small Cap Equity Portfolio	USD	1	913	0.00%	

Securities traded on certain Asia Pacific/Middle Eastern exchanges may utilise international equity adjusted prices provided by an independent third party pricing service in order to more accurately reflect the value of securities traded on markets which are closed at the valuation point.

The independent valuation service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are not included in the above table.

#### 5 Taxation

#### Taxation - Luxembourg

The Fund is not liable for any Luxembourg tax on profits or income. However, the Fund is liable in Luxembourg to an annual subscription tax (taxe d'abonnement) of 0.05% per annum. The taxable basis of the subscription tax is the aggregate net assets of the Fund as valued on the last day of each quarter. This rate is however 0.01% per annum for each of the following:

- undertakings whose exclusive object is the collective investment in Money Market Instruments and the placing of deposits with credit institutions;
- · undertakings whose exclusive object is the collective investment in deposits with credit institutions; and
- individual compartments of undertakings for collective investment ("UCI") with multiple compartments
  referred to in the law dated 17 December 2010, as amended, as well as for individual classes of securities
  issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities
  of such compartments or classes are reserved to one or more institutional investors.

## Taxation - Belgium

The Fund may incur a liability to subscription tax at the rate of 0.0925% in respect of subscriptions made through intermediaries situated in Belgium to the extent that net shares are outstanding as of 31 December of the previous year.

#### Taxation - General

Each Portfolio may be subject to taxation on capital gains, interest and dividends in certain jurisdictions in which each Portfolio invests. It is the policy of each Portfolio to accrue for any such taxes on dividends and interest when the dividend is declared or interest is earned. At each valuation date, taxation on realised and unrealised appreciation of securities may be accrued for at statutory rates.

Prospective investors should consult their own taxation advisers regarding the tax implications of investing in the Fund in relation to their own individual circumstances as they may differ from the general statements that appear above.

## 6 Significant Agreements and Related Parties

#### **Management Company**

As outlined in Note 1, the Fund appointed GSAMBV, a wholly-owned subsidiary of The Goldman Sachs Group, Inc., as its Management Company.

The Portfolios pay the Management Company an annual fee which shall be accrued daily and generally paid monthly in arrears.

### 6 Significant Agreements and Related Parties (Continued)

#### **Investment Adviser and Investment Sub-Advisers**

The Management Company has appointed GSAMI (the "Investment Adviser"), a related party to the Fund, as its delegate to provide portfolio management services.

GSAMI has entered into sub-delegation agreements with each of the following affiliated Investment Sub-Advisers:

- Goldman Sachs Asset Management LP
- · Goldman Sachs Asset Management (Hong Kong) Ltd.
- Goldman Sachs Asset Management (Singapore) Pte. Ltd.
- Goldman Sachs Asset Management Co. Ltd.
- Goldman Sachs Hedge Fund Strategies LLC
- · Goldman Sachs International

GSAMI has entered into sub-advisory agreements with each of the following external Investment Sub-Advisers ("the External Managers"):

Portfolios	External Managers*
Multi-Manager Emerging Markets Equity Portfolio	Axiom International Investors LLC J O Hambro Capital Management Ltd. Wellington Management Company LLP
Multi-Manager Europe Equity Portfolio	DNCA Finance ELEVA Capital LLP Wellington Management International Ltd.
Multi-Manager Global Equity Portfolio	Baillie Gifford & Co. Intermede Investment Partners Sanders Capital LLC Strategic Global Advisors LLC
Multi-Manager US Equity Portfolio	Diamond Hill Investments Fiera Capital Corporation Westfield Capital Management Co. LLC
Multi-Manager US Small Cap Equity Portfolio	Boston Partners Brown Advisory Victory Capital Management, Inc. Westfield Capital Management Co. LLC

<sup>\*</sup> None of these investment advisers are an affiliate of GSAMI. As compensation for the services rendered under the Investment Advisory Agreement, GSAMI receives a fee, payable monthly, at an annual rate. A portion of the Investment Adviser's fees may be remitted to the Investment Sub-Adviser.

## **Expense Cap**

GSAMI has voluntarily agreed to limit total expenses in respect of certain Portfolios and certain Share Classes. Therefore, to the extent that total ordinary expenses would exceed the expense cap, GSAMI has voluntarily agreed to bear any actual operating expenses that exceed any expense cap, either directly by waiving a portion of its fees or by reimbursement to the account of the relevant Share Class. The Investment Adviser may, in its sole discretion, designate which expenses of the Fund will be subject to any such expense cap imposed by the Investment Adviser. The expense cap does not include the GSAMI fee portion paid to external Investment Sub-Advisers. There is no guarantee that the existence or level of these expense caps will continue in the future and no obligation on the part of GSAMI to agree to limit total expenses in this way. In addition, the Portfolios are not obliged to reimburse GSAMI for prior financial year expense reimbursement, if any.

Details of advisory fee rates and the expense caps as at 31 May 2025 are detailed in Report of the Management Company I.

## 6 Significant Agreements and Related Parties (Continued)

#### **Directors' Remuneration**

Ms. Grainne Alexander and Ms. Sophie Mosnier are independent Directors and have no executive function with the Investment Adviser or its affiliated companies. The Fund pays each independent Director an annual fee for their services as a Director of the Fund. For the period ended 31 May 2025, the total Directors' fees amounted to USD 16,597.

Mr. Jonathan Beinner, Mr. Dirk Buggenhout, Mr. Jan Jaap Hazenberg and Ms. Hilary Lopez are affiliated with the Investment Adviser and receive no compensation from the Fund.

#### Fees earned on other Goldman Sachs Funds

To the extent permitted by applicable law and the terms of the Prospectus, any Portfolio may invest all or some of its short term cash investments in any money market fund advised or managed by Goldman Sachs and may invest in other investment funds advised or managed by Goldman Sachs (together "Goldman Sachs Funds"). Subject to applicable law and the terms of the Prospectus, the Fund may be required to bear its proportionate share of any fees (including investment advisory and management fees) applicable to its investment in such investment funds.

For further details on investments into other Goldman Sachs Funds please refer to the Schedule of Investments.

All Portfolios invested in the Goldman Sachs Funds were invested in non-investment advisory fee bearing share classes. As a result, for the period ended 31 May 2025, there were no investment advisory fees earned on each Portfolio's investment in the Goldman Sachs Funds.

## Commissions

In the normal course of its operations, each Portfolio may enter into transactions on securities or futures contracts with the Goldman Sachs Funds or other Goldman Sachs affiliates (together "Goldman Sachs Affiliates"). For the period ended 31 May 2025, the following transactions were entered into with Goldman Sachs Affiliates with total brokerage commissions paid to Goldman Sachs Affiliates being split between commissions related to security transactions and futures contracts:

			Security Transactions		Brokerage Commissions	
Portfolios	Currency	Aggregate Value*	Percent of total security transactions	Aggregate Value	Percent of total brokerage commissions	Futures Commissions**
Multi-Manager Emerging Markets Equity Portfolio	USD	356,453	0.11%	214	0.15%	_
Multi-Manager Europe Equity Portfolio	EUR	57,879,747	7.01%	20,341	8.22%	_
Multi-Manager Global Equity Portfolio	USD	17,089,438	3.19%	6,328	3.89%	_
Multi-Manager US Small Cap Equity Portfolio	USD	8,580,499	2.51%	6,622	3.20%	_
Total (in USD) ***		88,277,470		35,041		_

Represents the cost of securities (excluding futures transactions and investments in the Goldman Sachs Liquid Reserves Funds) for transactions entered into with Goldman Sachs Affiliates.

For all the remaining Portfolios there were no transactions with Goldman Sachs Affiliates, for the period ended 31 May 2025.

All such transactions with Goldman Sachs Affiliates were entered into in the ordinary course of business and on normal commercial terms.

## **Securities Lending**

The securities lending agent is Goldman Sachs Agency Lending ("GSAL"), an affiliate of Goldman Sachs. Approved borrowers of GSAL may include Goldman Sachs International ("GSI"), an affiliate of the Investment Adviser, as well as other third parties. The Portfolios may lend portions of investments to third parties. In return, the Portfolios receive a fee that is negotiated for each transaction. The Portfolios receive G-10 (excluding Italy,

<sup>\*\*</sup> All portfolio futures transactions disclosed in this table were effected through Goldman Sachs.

<sup>\*\*\*</sup> The amount used is calculated using the average exchange rate disclosed in Note 10.

## 6 Significant Agreements and Related Parties (Continued)

## **Securities Lending (Continued)**

Japan and the United States) government securities as collateral against the securities loaned. G-10 is made of eleven industrial countries (Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the United Kingdom and the United States) which consult and co-operate on economic, monetary and financial matters. This collateral is maintained over the life of the loan for an amount not less than 105% of the value of lent securities, with any subsequent margin posted in the form of the aforementioned government securities or cash. In general, loans may be effected through the intermediary of prime financial institutions that specialise in such activities and in the way specified by them.

Collateral received by the Portfolios in the form of G-10 (excluding Italy, Japan and the United States) government securities or cash, denominated in their respective currencies, is held by the appointed tri-party collateral manager in segregated accounts.

The following summarises the securities lent as at 31 May 2025 and the income earned by each Portfolio and the fees earned by Securities Lending Agent that is part of the Securities Lending program:

Portfolios	Currency	Market Value of Securities Lent as at 31-May-2025	% of Shareholders' Equity	% of Total Lendable Assets*	Market Value of Collateral Received as at 31-May-2025	Collateral as a Percentage of the Market Value of Securities Lent as at 31-May-2025	Gross Income Earned for the Period Ended 31-May-2025	Fees Charged for the Period Ended 31-May-2025	Net Income Earned for the Period Ended 31-May-2025
Multi-Manager Emerging Markets Equity Portfolio	USD	_	_	_	_	_	31,421	3,173	28,248
Multi-Manager Europe Equity Portfolio	EUR	9,371,160	1.27%	1.28%	10,332,554	110%	32,275	3,240	29,035
Multi-Manager Global Equity Portfolio	USD	2,088,178	0.26%	0.27%	2,307,972	111%	15,485	1,548	13,937
Multi-Manager US Small Cap Equity Portfolio	USD	_	_	_	_	_	3,715	379	3,336
Total (in USD) **	•		•		•	•	85,334	8,585	76,749

<sup>\*</sup> Lendable assets are defined as the aggregate market value of equities and bonds held in the portfolio.

## **Administrator, Domiciliary Agent and Listing Agent**

The Management Company has appointed State Street Bank International GmbH, Luxembourg Branch as the central administration agent of the Fund. The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as its domiciliary and corporate agent, paying agent and as its listing agent in Luxembourg.

For its services as Administrator, Domiciliary Agent and Listing Agent, State Street Bank International GmbH, Luxembourg Branch receives a fee payable monthly in arrears and calculated on the Monthly Average Net Assets of each Portfolio.

For its Financial Reporting Services, State Street Bank International GmbH, Luxembourg Branch receives a fixed fee per annum per Portfolio payable monthly in arrears.

### Depositary

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as Depositary. For its services as Depositary, State Street Bank International GmbH, Luxembourg Branch charges a fee which is a combination of a basis point charge on assets and transaction-based charge which is dependent on the country of transaction.

<sup>\*\*</sup> The amount used is calculated using the average exchange rate disclosed in Note 10.

## 6 Significant Agreements and Related Parties (Continued)

#### Distributor

The Fund has appointed the Management Company as principal distributor and the Management Company appoints sub-distributors and oversees them. GSAMBV may receive a portion of the sales charge imposed on the sale of Portfolio shares.

For the period ended 31 May 2025, there were no retained sales charges for the Portfolios and there were no retained sales charges received by GSAMBV.

Please refer to the Prospectus for further details about distribution fees.

Out of its fees, the Distributor is responsible for remunerating third party sub-distributors.

#### **Transfer Agent**

The Management Company has appointed CACEIS Bank, Luxembourg Branch (the "Transfer Agent") to perform registrar and transfer agency functions in respect of the Fund pursuant to the Registrar and Transfer Agent Agreement between the Fund, the Management Company and the Transfer Agent.

The day-to-day services provided to the Fund by the Transfer Agent include receiving and processing subscription and redemption orders, allotting and issuing shares and maintaining the shareholder register for the shares. The Transfer Agent is paid a fee, quarterly in arrears, out of the net assets of the Portfolios. The Transfer Agent's fee consists of both a fixed and variable fee.

The fixed portion consists of an annual charge for maintenance and shareholder account charges. Variable costs are determined by the level of transactions in each Portfolio.

## Valuer

The Management Company has appointed Goldman Sachs & Co. LLC to act as the Valuer and the valuation function was performed by Controllers during the period ended 31 May 2025. Please also refer to Note 4.

## 8 Distributions

The Fund intends that substantially all the net investment income, if any, of each Portfolio will be declared as a dividend and paid at least annually to the Shareholders of the Distribution Share Classes of the Portfolios. Net capital and currency gains realised on each Portfolio's investments and/or capital attributable to certain Share Classes may also be distributed to Shareholders of certain Distribution Share Classes of the Portfolios.

Generally no distributions will be paid in respect of the Accumulation Share Classes.

Please refer to the Prospectus for further details about distribution policies.

## 9 Financial Investments and Associated Risks

The Fund's investing activities expose it to various types of risks that are associated with the financial investments and markets in which it and its underlying Portfolios invest (the "Investment Risks"). The Board of Directors has appointed the Management Company to be responsible for, among other things, investment management and risk management. The Management Company has delegated certain investment management functions to the Investment Adviser.

The main types of financial risks which the Fund is exposed to are market risk, liquidity risk and credit risk. The Prospectus provides details of these and other types of risk some of which are additional to that information provided in these financial statements.

The risk management policies employed in relation to the Fund are outlined below:

## (a) Market Risk

The potential for changes in the market value of the Fund's underlying Portfolios' investments is referred to as market risk. Commonly used categories of market risk include currency risk, interest rate risk and other price risk.

(i)  $\frac{\text{Currency risks}}{\text{of currency rates}}$  may result from exposures to changes in spot prices, forward prices and volatilities

## 9 Financial Investments and Associated Risks (Continued)

## (a) Market Risk (Continued)

- (ii) Interest rate risks may result from exposures to changes in the level, slope and curvature of the various yield curves, the volatility of interest rates, mortgage prepayment speeds and credit spreads.
- (iii) Other price risks are the risk that the value of an investment will fluctuate as a result of changes in market prices other than those arising from currency risk or interest rate risk and may result from exposures to changes in the prices and volatilities of individual equities, equity baskets, equity indices, and commodities.

The Fund's market risk strategy is driven by the Fund's underlying Portfolios' investment risk and return objectives.

Market risk is managed through the application of risk budgeting principles. The Investment Adviser determines an appropriate risk target, commonly referred to as Tracking Error, employing a risk budgeting framework.

## (i) Currency Risk

The Fund may invest in financial investments and enter into transactions denominated in currencies other than its Portfolios' base currency. Consequently, the Fund may be exposed to risk that the exchange rate of its base currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the base currency.

When an investor invests into a Share Class which is in a different currency to the base currency of the Portfolio in which it invests, the currency risk of the investor will be different to the currency risk of the Portfolio.

## (ii) Interest Rate Risk

The Fund may invest in fixed income securities and interest rate swaps contracts. Any change to relevant interest rates for particular securities may result in the Investment Adviser being unable to secure similar returns upon the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of fixed income securities will decline. A decline in interest rates will in general, have the opposite effect. All fixed income securities and floating rate securities, together with their interest rate and maturity date are disclosed in the Schedule of Investments. The Fund may invest in instruments in desired currencies at fixed, floating and zero rates of interest.

## (iii) Other Price Risk

Other price risk is the risk that the value of a financial investment will fluctuate as a result of changes in market prices, other than those arising from currency risk or interest rate risk whether caused by factors specific to an individual investment, its issuer or any factor affecting financial investments traded in the market.

The Fund's financial investments are carried at market value with market value changes recognised in the Statement of Operations, all changes in market conditions will directly affect Shareholders' Equity.

## (b) Liquidity Risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Among other things liquidity could be impaired by an inability to access secured and/or unsecured sources of financing, an inability to sell assets or unforeseen outflows of cash or collateral or violations of counterparty or prime broker terms or covenants. This situation may arise due to circumstances outside of the Fund's control, such as a general market disruption or an operational problem affecting the Fund or third parties. Also, the ability to sell assets may be impaired if other market participants are seeking to sell similar assets at the same time.

The redemption of Shares of a Portfolio may be temporarily suspended, or deferred, by the Board of Directors or the Management Company on behalf of the Fund upon certain circumstances, and where it is deemed in the best interests of Shareholders.

## 9 Financial Investments and Associated Risks (Continued)

## (b) Liquidity Risk (Continued)

As of 31 May 2025, the Fund participated in a USD 200,000,000 committed, unsecured revolving line of credit facility (the "facility") together with other sub-funds of Goldman Sachs Funds SICAV and Goldman Sachs Lux Investment Funds. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on a reference rate related to the drawn currency (e.g. Federal Funds Rate). The facility also requires a fee to be paid by the Fund based on the amount of the commitment that has not been utilised. For the period ended 31 May 2025, the Fund did not have any borrowings under the facility.

## (c) Credit Risk

Credit and counterparty risk is the risk that one party to a financial investment will cause a financial loss for the other party by failing to discharge an obligation.

Procedures have been adopted to reduce credit risk related to the Fund's dealings with counterparties. Before transacting with any counterparty, the Investment Adviser or its affiliates evaluate both credit-worthiness and reputation by conducting a credit analysis of the party, their business and reputation. The credit risk of approved counterparties is then monitored on an ongoing basis, including periodic reviews of financial statements and interim financial reports as needed.

## (d) Additional Risks

## (i) Sustainability Risk

Sustainability risk is defined in Article 3 of Regulation (EU) 2019/2088 (the "Sustainable Finance Disclosure Regulation") as an environmental, social or governance event or condition, that if it occurs, could cause an actual or a potential material negative impact on the value of the investment.

Additional details of risks not disclosed in these Financial Statements can be found in the Prospectus.

## 10 Exchange Rates

The following exchange rate (against USD) was used to calculate the Combined Total, in the Statement of Assets and Liabilities, for the period ended 31 May 2025:

Currency	31-May-2025
1 Euro (EUR)	1.131850 USD

The following average exchange rate (against USD) was used to calculate the Combined Total, in the Statement of Operations and in the Statement of Changes in Shareholders' Equity (except for Shareholders' Equity at the start and end of the period) for the period ended 31 May 2025:

Currency	
1 Euro (EUR)	1.075524 USD

The following exchange rates were used to convert amounts from local share class currencies to base Portfolios' currencies, for the period ended 31 May 2025:

Share Class Currency	Base Currency
Share class currency	United States Dollar (USD)
1 Australian Dollar (AUD)	0.641050
1 Euro (EUR)	1.131850
1 Swedish Krona (SEK)	0.103920
1 Swiss Franc (CHF)	1.213740
1 United Kingdom Pound (GBP)	1.345100

### 11 Commission Recapture

All Portfolios may direct trades, subject to obtaining best price and execution, to various brokers who have agreed to rebate a portion of the commissions generated. Such rebates are made directly to the applicable Portfolio as cash payments and are included in net realised gain and loss on investments in the Statement of Operations.

Portfolios	Commissions paid on securities in the program (USD)	Commissions reimbursed to the portfolio (USD)	Percentage reimbursed in the program
Multi-Manager US Equity Portfolio	13,832	8,960	64.78%
Multi-Manager US Small Cap Equity Portfolio	1,510	848	56.16%
Total	15,342	9,808	63.93%

## 12 Statement of Changes in each Portfolio

A Statement of Changes in each Portfolio is available, free of charge, upon request from the registered office.

#### 13 Cash Collateral Information

The table below provides the cash collateral balances due from / due to the brokers in relation to the following investments held as at 31 May 2025:

## 14 Commissions for Research and/or Execution

Certain Portfolios pay commission for execution only and/or execution and investment research. The commissions for execution are recognised in the settlement amount. The Fund did not otherwise enter into any third party commission arrangements for the period ended 31 May 2025.

## 15 Prospectus

As at 31 May 2025, the latest Prospectus of the Fund was issued in May 2025.

## 16 Currency Adjustment

In the Statement of Changes in Shareholders' Equity, the opening value of the Fund has been restated at the exchange rates ruling at 30 November 2024, and the combined figures have been calculated using the average exchange rates throughout the period. The resulting gain of USD 75,246,844 represents the movement in exchange rates between 1 December 2024 and 31 May 2025. This is a notional gain, which has no impact on the Net Asset Value of the individual Portfolios.

#### 17 Cross Liabilities

In accordance with Luxembourg law, each Portfolio is "ring-fenced" and considered to constitute a single pool of assets and liabilities, so that the rights of Shareholders and creditors in relation to each Portfolio should be limited to the assets of that Portfolio.

#### 18 Contingent Liabilities

There were no contingent liabilities as at 31 May 2025.

#### 19 Subsequent Events

There were no subsequent events to note.

## 20 Indemnifications

The Fund may enter into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts.

## 21 Approval of Financial Statements

The Board of Directors approved the Unaudited Semi-Annual Financial Statements on 24 July 2025.

## 22 Cross Sub-Fund investments

As at 31 May 2025, there was no cross sub-fund investment within the Fund.

<sup>(</sup>a) Refer to Note 6.

The above expense ratios are an average throughout the period to 31 May 2025. The above Expense Caps represent the expense cap levels at period end 31 May 2025.

<sup>(</sup>b) The Total Expense Ratio ("TER") expresses the sum of all costs, commissions and performance fees (excluding dealing commissions and market costs) charged on an ongoing basis to the Portfolios' assets (operating net expenses) taken retrospectively as a percentage of the Portfolios' assets, and is calculated using the following formula:
Total operating net expenses in CU\* /Average portfolios' assets in CU\* x 100 = TER %.
The TER is calculated for the Period from 1 December 2024 to 31 May 2025. TER's are annualised for Portfolios operating less than one year.

\* CU = Currency units in the Portfolio's base currency.

<sup>(</sup>c) The expense cap does not include the GSAMI fee portion paid to external Sub-Investment Advisers.

# Goldman Sachs Funds II Report of the Management Company II—Portfolio Launches, Closures and Mergers As at 31 May 2025

There were no Portfolio launches, closures, mergers or name changes during the period.

The Management Company is required to make available a Semi-Annual Report for the financial period for each of its Funds, containing certain disclosures as set out in Article 13 of the European Commission Regulation 2015/2365 on transparency of securities financing transactions and of reuse (the "Regulation"). The disclosures set out below are included to meet the requirements of the Regulation.

#### I. Global Data

Please refer to Note 6 Securities lending for details on the amount of securities lent expressed as an absolute amount, as a proportion of total lendable assets and as a proportion of the Shareholders' Equity.

Please refer to the different Schedule of Investments for details on the amount of Total Return Swap ("TRS") an absolute amount and as a proportion of the Shareholders' Equity.

#### II. Concentration Data

The table below shows the 10 largest issuers of total non-cash collateral received by Portfolio that is outstanding as at 31 May 2025. Please refer to Note 13 for cash collateral information.

Portfolio	Portfolio currency	Non-cash collateral Issuer	Market value of collateral received	% of Shareholders' Equity
		Government of Sweden	5,691,892	0.77%
Multi-Manager Europe Equity Portfolio	EUR	Federal Republic of Germany	2,482,867	0.34%
		Government of Netherlands	2,157,795	0.29%
		Federal Republic of Germany	2,108,314	0.27%
Multi-Manager Global Equity Portfolio	USD	Government of Netherlands	165,902	0.02%
		Government of Switzerland	33,756	0.00%

The table below shows the top 10 counterparties by Portfolio, across each type of Securities Financing transaction ("SFT") and TRS with respect to outstanding transactions as at 31 May 2025:

Securities Lending						
Portfolio	Portfolio currency	Counterparty	Market value of securities lent out	% of Shareholders' Equity		
Mariti Managan Francis Familia Pantfalia	EUR	Barclays Bank PLC	7,414,068	1.01%		
Multi-Manager Europe Equity Portfolio		Morgan Stanley & Co. International Ltd.	1,957,092	0.27%		
Mariti Managan Clabal Facility Danifalia	HCD	UBS AG	1,939,120	0.25%		
Multi-Manager Global Equity Portfolio	USD	Merrill Lynch International	149,058	0.02%		

Total Return Swaps					
Portfolio	Portfolio Currency	Counterparty	Net Unrealised Gain / (Loss) USD	% of Shareholders' Equity	
Tactical Tilt Overlay Portfolio	USD	JP Morgan Chase Bank NA	(1,361,927)	(0.06%)	

#### III. Transaction Data

The below table summarises the country of counterparty establishment across each type of SFT and TRS by Portfolio, as at 31 May 2025:

			Securities Lending	Total Return Swaps		
Portfolio	Portfolio currency	Counterparty's country of incorporation	Market value of securities lent out	Net Unrealised Gain / (Loss)	Total	
Multi-Manager Europe Equity Portfolio	EUR	United Kingdom	9,371,160	_	9,371,160	
Multi Managan Olahal Fasik Dankali	HCD	United Kingdom	149,058	_	149,058	
Multi-Manager Global Equity Portfolio	050	USD	Switzerland	1,939,120	_	1,939,120
Tactical Tilt Overlay Portfolio	USD	United Kingdom	_	(1,361,927)	(1,361,927)	

The below table summarises the currency of the collateral received and pledged by Portfolio across each type of SFT and TRS as at 31 May 2025 :

			Non Cash collateral Securities Lending	Cash collateral OTC derivatives <sup>1</sup>	
Portfolio	Portfolio currency	Currency of the collateral	Market Value of the collateral received	Market Value of the collateral received / (pledged)	Total
M III M	ELID	SEK	5,691,891	_	5,691,891
Multi-Manager Europe Equity Portfolio	EUR	EUR	4,640,663	_	4,640,663
M III Marray Child Fa ii Baifilia	1100	EUR	2,274,216	_	2,274,216
Multi-Manager Global Equity Portfolio U:	USD	CHF	33,756	_	33,756
Tactical Tilt Overlay Portfolio	USD	USD	_	4,514,317	4,514,317

<sup>1</sup> Total return swaps are typically traded under ISDA master agreements ("ISDAs") which govern various types of swap and FX transactions executed between the Portfolio and each swap counterparty. Under the ISDAs, collateral is calculated daily on an aggregate, net basis across all transactions and therefore, a portion of such collateral is related to derivative transactions which are not in scope for SFTR.

Please refer to Note 6 Securities lending for details on the quality of the non-cash collateral received.

#### III. Transaction Data (Continued)

The below table summarises the maturity tenor of the collateral received and pledged by Portfolio across each type of SFT and TRS as at 31 May 2025:

			Non Cash collateral Securities	Cash collateral

		Open Transaction	_	_	_
		Total	_	(1,361,927)	(1,361,927)

For details on settlement and clearing on SFT and TRS please refer to Note 3(d)(ii.5)(c) Swap Contracts and Note 6 Securities lending.

Collateral is permitted for re-use in certain asset classes as disclosed in the Prospectus. An appropriate cash benchmark is a reliable proxy to estimate returns on the re-use of this collateral.

As detailed in Note 3(c) transaction costs for TRS are not separately identifiable.

#### IV. Safekeeping of Collateral

The below table summarises the amount of collateral received by Portfolio, as at 31 May 2025:

Portfolio	Portfolio currency	Custodian	Collateral Received Balance
Multi-Manager Europe Equity Portfolio	EUR	Bank of New York Mellon Corp.	10,332,554
Multi-Manager Global Equity Portfolio	USD	Bank of New York Mellon Corp.	2,307,972
Tactical Tilt Overlay Portfolio	USD	State Street Bank International GmbH, Luxembourg Branch	290,000

The below table summarises the proportion of collateral pledged by Portfolio, held in segregated accounts or in pooled accounts as at 31 May 2025:

		% of collateral held in:			
Portfolio	Counterparty	Segregated accounts	Pooled accounts	Total	
Tactical Tilt Overlay Portfolio	BNP Paribas SA	100%	_	100%	
	JP Morgan Chase Bank NA	100%	_	100%	
	Merrill Lynch International	100%	_	100%	
	Morgan Stanley	100%	_	100%	

### Goldman Sachs Funds II Additional Information

#### **Offering Documents**

This material is provided at your request for informational purposes only and does not constitute a solicitation in any jurisdiction in which such a solicitation is unlawful or to any person to whom it is unlawful. It only contains selected information with regards to the Fund and does not constitute an offer to buy shares in the Fund. Prior to an investment, prospective investors should carefully read the latest Key Information Document (KID) as well as the offering documentation, including but not limited to the Fund's prospectus which contains inter alia a comprehensive disclosure of applicable risks. The relevant articles of association, prospectus, supplement, KID and latest annual/semi-annual report are available free of charge from the Fund's paying and information agent and/or from your financial adviser.

#### **Distribution of Shares**

Shares of the Fund may not be registered for public distribution in a number of jurisdictions (including but not limited to any Latin American, African or Asian countries). Therefore, the shares of the Fund must not be marketed or offered in or to residents of any such jurisdictions unless such marketing or offering is made in compliance with applicable exemptions for the private placement of collective investment schemes and other applicable jurisdictional rules and regulations.

#### **Investment Advice and Potential Loss**

Financial advisers generally suggest a diversified portfolio of investments. The Fund described herein does not represent a diversified investment by itself. This material must not be construed as investment or tax advice. Prospective investors should consult their financial and tax adviser before investing in order to determine whether an investment would be suitable for them. An investor should only invest if he/she has the necessary financial resources to bear a complete loss of this investment.

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

#### **Index Benchmarks**

References to indices, benchmarks or other measures of relative market performance over a specified period of time are provided for your information only and do not imply that the portfolio will achieve similar results. The index composition may not reflect the manner in which a portfolio is constructed. While an adviser seeks to design a portfolio which reflects appropriate risk and return features, portfolio characteristics may deviate from those of the benchmark.

#### **Confidentiality**

No part of this material may, without Goldman Sachs' prior written consent, be (i) copied, photocopied or duplicated in any form, by any means, or (ii) distributed to any person that is not an employee, officer, director, or authorised agent of the recipient.

#### **Important information for Swiss Investors**

The Prospectus with its supplements, KID, the Articles of Incorporation, the annual and semi-annual reports and the list of all transactions made during the reporting period can be obtained free of charge at the Swiss Representative.

Swiss Representative: FIRST INDEPENDENT FUND SERVICES LTD.,

Feldeggstrasse 12, 8008 Zurich, Switzerland.

Paying Agent: Goldman Sachs Bank AG, Claridenstrasse 25, 8002 Zurich, Switzerland.
