⁽a) Calculated based on the average shares outstanding methodology.

⁽b) Assumes investment at the NAV at the beginning of the period, reinvestment of all dividends and distributions, a complete redemption of the investment at the NAV at the end of the period and no sales or redemption charges (if any). Total returns would be reduced if a sales or redemption charge was taken into account. Returns do not reflect the impact of taxes to shareholders relating to Fund distributions or the redemption of Fund shares. Total returns for periods less than one full year are not annualized.

⁽c) Annualized.

⁽d) The Fund's portfolio turnover rate is calculated in accordance with regulatory requirements, without regard to transactions involving short term investments. If such transactions were included, the Fund's portfolio turnover rate may be higher.

Notes to Financial Statements

April 30, 2025 (Unaudited)

1. ORGANIZATION

Goldman Sachs Trust II (the "Trust") is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company. The Trust includes the Goldman Sachs GQG Partners International Opportunities Fund (the "Fund"). The Fund is a diversified portfolio that currently offers seven classes of shares: Class A, Class C, Institutional, Investor, Class R6, Class R and Class P Shares.

Class A Shares are sold with a front-end sales charge of up to 5.50%. Class C Shares are sold with a contingent deferred sales charge ("CDSC") of 1.00%, which is imposed on redemptions made within 12 months of purchase. Institutional, Investor, Class R6, Class R, and Class P Shares are not subject to a sales charge.

Goldman Sachs Asset Management, L.P. ("GSAM"), an affiliate of Goldman Sachs & Co. LLC ("Goldman Sachs"), serves as investment adviser to the Fund pursuant to a management agreement (the "Agreement") with the Trust.

GQG Partners LLC ("GQG Partners" or the "Sub-Adviser") serves as the sub-adviser to the Fund. GSAM compensates the Sub-Adviser directly in accordance with the terms of the Sub-Advisory Agreement. The Fund is not charged any separate or additional investment advisory fees by the Sub-Adviser.

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and require management to make estimates and assumptions that may affect the reported amounts and disclosures. Actual results may differ from those estimates and assumptions. The Fund is an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies.

- A. Investment Valuation The Fund's valuation policy is to value investments at fair value.
- B. Investment Income and Investments Investment income includes interest income, dividend income and securities lending income, if any. Interest income is accrued daily and adjusted for amortization of premiums and accretion of discounts. Dividend income is recognized on ex-dividend date or, for certain foreign securities, as soon as such information is obtained subsequent to the ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received. Investment transactions are reflected on trade date. Realized gains and losses are calculated using identified cost. Investment transactions are recorded on the following business day for daily net asset value ("NAV") calculations. Investment income is recorded net of any foreign withholding taxes, less any amounts reclaimable. The Fund may file withholding tax reclaims in certain jurisdictions to recover a portion of amounts previously withheld. Any foreign capital gains tax is accrued daily based upon net unrealized gains, and is payable upon sale of such investments.
- C. Class Allocations and Expenses Investment income, realized and unrealized gain (loss), if any, and non-class specific expenses of the Fund are allocated daily based upon the proportion of net assets of each class. Non-class specific expenses directly incurred by the Fund are charged to the Fund, while such expenses incurred by the Trust are allocated across the Fund on a straight-line and/or pro-rata basis depending upon the nature of the expenses. Class specific expenses, where applicable, are borne by the respective share classes and include Distribution and Service, Transfer Agency and Service fees.
- D. Federal Taxes and Distributions to Shareholders It is the Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies and to distribute each year substantially all of its investment company taxable income and capital gains to its shareholders. Accordingly, the Fund is not required to make any provisions for the payment of federal income tax. Distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions, if any, are declared and paid annually.

Net capital losses, if any, are carried forward to future fiscal years and may be used to the extent allowed by the Code to offset any future capital gains. Losses that are carried forward will retain their character as either short-term or long-term capital losses. Utilization of capital loss carryforwards will reduce the requirement of future capital gains distributions.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with federal income tax rules, which may differ from GAAP. The source of the Fund's distributions may be shown in the accompanying financial statements as either from distributable earnings or capital. Certain components of the Fund's net assets on the Statement of Assets and Liabilities reflect permanent GAAP/tax differences based on the appropriate tax character.

E. Foreign Currency Translation — The accounting records and reporting currency of the Fund are maintained in U.S. dollars. Assets and liabilities denominated in foreign currencies are translated into U.S. dollars using the current exchange rates at the close of each business day. The effect of changes in foreign currency exchange rates on investments is included within net realized and unrealized gain (loss) on investments. Changes in the value of other assets and liabilities as a result of fluctuations in foreign exchange rates are included in the Statement of Operations within net change in unrealized gain (loss) on foreign currency translation. Transactions denominated in foreign currencies are translated into U.S. dollars on the date the transaction occurred, the effects of which are included within net realized gain (loss) on foreign currency transactions.

3. INVESTMENTS AND FAIR VALUE MEASUREMENTS

U.S. GAAP defines the fair value of a financial instrument as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price); the Funds' policy is to use the market approach. GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety. The levels used for classifying investments are not necessarily an indication of the risk associated with investing in these investments. The three levels of the fair value hierarchy are described below:

Level 1 — Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 — Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including, but not limited to, quoted prices for similar investments, interest rates, foreign exchange rates, volatility and credit spreads), either directly or indirectly;

Level 3 — Prices or valuations that require significant unobservable inputs (including GSAM's assumptions in determining fair value measurement).

The Board of Trustees ("Trustees") has approved Valuation Procedures that govern the valuation of the portfolio investments held by the Fund, including investments for which market quotations are not readily available. With respect to the Fund's investments that do not have readily available market quotations, the Trustees have designated GSAM as the valuation designee to perform fair valuations pursuant to Rule 2a-5 under the Act (the "Valuation Designee"). GSAM has day-to-day responsibility for implementing and maintaining internal controls and procedures related to the valuation of the Fund's investments. To assess the continuing appropriateness of pricing sources and methodologies, GSAM regularly performs price verification procedures and issues challenges as necessary to third party pricing vendors or brokers, and any differences are reviewed in accordance with the Valuation Procedures.

A. Level 1 and Level 2 Fair Value Investments — The valuation techniques and significant inputs used in determining the fair values for investments classified as Level 1 and Level 2 are as follows:

Equity Securities — Equity securities traded on a United States ("U.S.") securities exchange or the NASDAQ system, or those located on certain foreign exchanges, including but not limited to the Americas, are valued daily at their last sale price or official closing price on the principal exchange or system on which they are traded. If there is no sale or official closing price or such price is believed by GSAM to not represent fair value, equity securities will be valued at the valid closing bid price for long positions and at the valid closing ask price for short positions (i.e., where there is sufficient volume, during normal exchange trading hours).

Notes to Financial Statements (continued)

April 30, 2025 (Unaudited)

3. INVESTMENTS AND FAIR VALUE MEASUREMENTS (continued)

If no valid bid/ask price is available, the equity security will be valued pursuant to the Valuation Procedures and consistent with applicable regulatory guidance. To the extent these investments are actively traded, they are classified as Level 1 of the fair value hierarchy, otherwise they are generally classified as Level 2. Certain equity securities containing unique attributes may be classified as Level 2.

Unlisted equity securities for which market quotations are available are valued at the last sale price on the valuation date, or if no sale occurs, at the last bid price for long positions or the last ask price for short positions, and are generally classified as Level 2. Securities traded on certain foreign securities exchanges are valued daily at fair value determined by an independent fair value service (if available) under the Valuation Procedures and consistent with applicable regulatory guidance. The independent fair value service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are generally classified as Level 2 of the fair value hierarchy.

Money Market Funds — Investments in the Goldman Sachs Financial Square Government Fund ("Underlying Money Market Fund") are valued at the NAV per share of the Institutional Share class on the day of valuation. These investments are generally classified as Level 1 of the fair value hierarchy. For information regarding the Underlying Money Market Fund's accounting policies and investment holdings, please see the Underlying Money Market Fund's shareholder report.

B. Level 3 Fair Value Investments — To the extent that significant inputs to valuation models and other alternative pricing sources are unobservable, or if quotations are not readily available, or if GSAM believes that such quotations do not accurately reflect fair value, the fair value of the Fund's investments may be determined under the Valuation Procedures. GSAM, consistent with its procedures and applicable regulatory guidance, may make an adjustment to the most recent valuation prices of either domestic or foreign securities in light of significant events to reflect what it believes to be the fair value of the securities at the time of determining the Fund's NAV. To the extent investments are valued using single source broker quotations obtained directly from the broker or passed through from third party pricing vendors, such investments are classified as Level 3 investments.

C. Fair Value Hierarchy — The following is a summary of the Fund's investments classified in the fair value hierarchy as of April 30, 2025:

Investment Type	Level 1	Level 2	Level 3		
Assets					
Common Stock and/or Other Equity Investments ^(a)					
Asia	\$ 2,780,431,768	\$ 7,154,844,860	\$	_	
Australia and Oceania	_	649,818,789		_	
Europe	1,637,684,226	22,813,405,640		_	
North America	7,755,094,080	1,897,547,913		_	
South America	827,242,039	_		_	
Preferred Stocks	_	1,588,401,766		_	
Securities Lending Reinvestment Vehicle	719,760,032	_		_	
Investment Company	3,260,511,345	_		_	
Total	\$16,980,723,490	\$34,104,018,968	\$		

⁽a) Amounts are disclosed by continent to highlight the impact of time zone differences between local market close and the calculation of NAV. Security valuations are based on the principal exchange or system on which they are traded, which may differ from country of domicile. The Fund utilizes fair value model prices provided by an independent fair value service for international equities, resulting in a Level 2 classification.

For further information regarding security characteristics, see the Schedule of Investments.

4. AGREEMENTS AND AFFILIATED TRANSACTIONS

A. Management Agreement — Under the Agreement, GSAM manages the Fund, subject to the general supervision of the Trustees

As compensation for the services rendered pursuant to the Agreement, the assumption of the expenses related thereto and administration of the Fund's business affairs, including providing facilities, GSAM is entitled to a management fee, accrued daily and paid monthly, equal to an annual percentage rate of the Fund's average daily net assets. For the six months ended April 30, 2025, contractual and effective net management fees with GSAM were at the following rates:

	Contractual Management Rate						
Fund	First \$1 billion	Next \$1 billion	Next \$3 billion	Next \$3 billion	Over \$8 billion	Effective Rate	Effective Net Management Rate^
Goldman Sachs GQG Partners International Opportunities Fund	0.85%	0.77%	0.73%	0.71%	0.70%	0.70%	0.69%

Effective Net Management Rate includes the impact of management fee waivers of affiliated underlying funds, if any.

The Fund invests in Institutional Shares of the Goldman Sachs Financial Square Government Fund, which is an affiliated Underlying Fund. GSAM has agreed to waive a portion of its management fee payable by the Fund in an amount equal to the management fee it earns as an investment adviser to the affiliated Underlying Fund in which the Fund invests, except those management fees it earns from the Fund's investments of cash collateral received in connection with securities lending transactions in the Goldman Sachs Financial Square Government Fund. For the six months ended April 30, 2025, GSAM waived \$1,453,376 of the Fund's management fee.

B. Distribution and/or Service (12b-1) Plans — The Trust, on behalf of Class A and Class R Shares of the Fund, has adopted Distribution and Service Plans subject to Rule 12b-1 under the Act. Under the Distribution and Service Plans, Goldman Sachs, which serves as distributor (the "Distributor"), is entitled to a fee accrued daily and paid monthly for distribution services and personal and account maintenance services, which may then be paid by Goldman Sachs to authorized dealers. These fees are equal to an annual percentage rate of the average daily net assets attributable to Class A or Class R Shares of the Fund, as applicable, as set forth below.

The Trust, on behalf of Class C Shares of the Fund, has adopted a Distribution Plan subject to Rule 12b-1 under the Act. Under the Distribution Plan, Goldman Sachs as Distributor is entitled to a fee accrued daily and paid monthly for distribution services, which may then be paid by Goldman Sachs to authorized dealers. These fees are equal to an annual percentage rate of the average daily net assets attributable to Class C Shares of the Fund, as set forth below.

	Distribution	Distribution and/or Service Plan Rates		
	Class A*	Class C	Class R*	
Distribution and/or Service Plan	0.25%	0.75%	0.50%	

^{*} With respect to Class A and Class R Shares, the Distributor at its discretion may use compensation for distribution services paid under the Distribution Plan to compensate service organizations for personal and account maintenance services and expenses as long as such total compensation does not exceed the maximum cap on "service fees" imposed by the Financial Industry Regulatory Authority.

C. Distribution Agreement — Goldman Sachs, as Distributor of the shares of the Fund pursuant to a Distribution Agreement, may retain a portion of the Class A Shares' front end sales charge and Class C Shares' CDSC. During the six months ended April 30, 2025, Goldman Sachs retained the following amounts:

	Front End Sales Charge
Fund	Class A
Goldman Sachs GQG Partners International Opportunities Fund	\$39,594

Notes to Financial Statements (continued)

April 30, 2025 (Unaudited)

4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

During the six months ended April 30, 2025, Goldman Sachs did not retain any portion of Class C Shares' CDSC.

- D. Service Plan The Trust, on behalf of the Fund, has adopted a Service Plan to allow Class C Shares to compensate service organizations (including Goldman Sachs) for providing varying levels of personal and account maintenance services to their customers who are beneficial owners of such shares. The Service Plan provides for compensation to the service organizations equal to an annual percentage rate of 0.25% of the average daily net assets attributable to Class C Shares of the Fund.
- E. Transfer Agency Agreement Goldman Sachs also serves as the transfer agent of the Fund for a fee pursuant to the Transfer Agency Agreement. The fees charged for such transfer agency services are accrued daily and paid monthly at annual rates as follows: 0.15% of the average daily net assets of Class A, Class C, Investor and Class R Shares; 0.03% of the average daily net assets of Class R6 and Class P Shares; and 0.04% of the average daily net assets of Institutional Shares. Goldman Sachs has agreed to waive a portion of its transfer agency fee equal to 0.01% as an annual percentage rate of the average daily net assets attributable to Class R6 and Class P Shares of the Fund. This arrangement will remain in effect through at least February 28, 2026, and prior to such date Goldman Sachs may not terminate the arrangement without the approval of the Trustees.
- F. Other Expense Agreements and Affiliated Transactions GSAM has agreed to reduce or limit certain "Other Expenses" of the Fund (excluding acquired fund fees and expenses, transfer agency fees and expenses, service fees and shareholder administration fees (as applicable), taxes, interest, brokerage fees, expenses of shareholder meetings, litigation and indemnification and extraordinary expenses) to the extent such expenses exceed, on an annual basis, a percentage rate of the average daily net assets of the Fund. Such Other Expense reimbursements, if any, are accrued daily and paid monthly. In addition, the Fund is not obligated to reimburse GSAM for prior fiscal year expense reimbursements, if any. The Other Expense limitation as an annual percentage rate of average daily net assets for the Fund is 0.014%. The Other Expense limitation will remain in place through at least February 28, 2026, and prior to such date GSAM may not terminate the arrangement without the approval of the Trustees. In addition, the Fund has entered into certain offset arrangements with the transfer agent, which may result in a reduction of the Fund's expenses and are received irrespective of the application of the "Other Expense" limitations described above.

GSAM may voluntarily waive a portion of any payments under the Fund's Distribution and Service Plan, Service Plan and Transfer Agency Agreement, and these waivers are in addition to what is stipulated in any contractual fee waiver arrangements (as applicable). These temporary waivers may be modified or terminated at any time at the option of Goldman Sachs without shareholder approval.

For the six months ended April 30, 2025, these expense reductions, including any fee waivers and Other Expense reimbursements, were as follows:

Fund	Management Fee Waiver	Transfer Agency Waivers/Credits	Other Expense Reimbursements	Total Expense Reductions
Goldman Sachs GQG Partners International Opportunities Fund	\$1,453,376	\$363,727	\$3,438,153	\$5,255,256

- G. Line of Credit Facility As of April 30, 2025, the Fund participated in a \$1,300,000,000 committed, unsecured revolving line of credit facility (the "facility") together with other funds of the Trust and certain registered investment companies having management agreements with GSAM or its affiliates. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on the federal funds rate. The facility also requires a fee to be paid by the Fund based on the amount of the commitment that has not been utilized. For the six months ended April 30, 2025, the Fund did not have any borrowings under the facility. Prior to April 14, 2025 the facility was \$1,150,000,000.
- H. Other Transactions with Affiliates For the six months ended April 30, 2025, Goldman Sachs earned \$12,850 of brokerage commissions from portfolio transactions, on behalf of the Fund.

4. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

The table below provides information about the Fund's investments in the Goldman Sachs Financial Square Government Fund for the six months ended April 30, 2025:

		Beginning Value as of			Ending Value as of	Shares as of	
Fund	Underlying Fund	October 31, 2024	Purchases at Cost	Proceeds from Sales	April 30, 2025	April 30, 2025	Dividend Income
Goldman Sachs GQG Partners International Opportunities	Goldman Sachs Financial Square Government Fund —						
Fund	Institutional Shares	\$1,897,466,943	\$10,895,426,436	\$(9,532,382,034)	\$3,260,511,345	3,260,511,345	\$39,191,230

5. PORTFOLIO SECURITIES TRANSACTIONS

The cost of purchases and proceeds from sales and maturities of long-term securities for the six months ended April 30, 2025, were \$22,761,849,789 and \$23,253,500,145, respectively.

6. SECURITIES LENDING

Pursuant to exemptive relief granted by the Securities and Exchange Commission ("SEC") and the terms and conditions contained therein, the Fund may lend its securities through a securities lending agent, Goldman Sachs Agency Lending ("GSAL"), a wholly-owned subsidiary of Goldman Sachs, to certain qualified borrowers including Goldman Sachs and affiliates. In accordance with the Fund's securities lending procedures, the Fund receives cash collateral at least equal to the market value of the securities on loan. The market value of the loaned securities is determined at the close of business of the Fund, at their last sale price or official closing price on the principal exchange or system on which they are traded, and any additional required collateral is delivered to the Fund on the next business day. As with other extensions of credit, the Fund may experience delay in the recovery of its securities or incur a loss should the borrower of the securities breach its agreement with the Fund or become insolvent at a time when the collateral is insufficient to cover the cost of repurchasing securities on loan. Dividend income received from securities on loan may not be subject to withholding taxes and therefore withholding taxes paid may differ from the amounts listed in the Statement of Operations. Loans of securities are terminable at any time and as such 1) the remaining contractual maturities of the outstanding securities lending transactions are considered to be overnight and continuous and 2) the borrower, after notice, is required to return borrowed securities within the standard time period for settlement of securities transactions.

The Fund invests the cash collateral received in connection with securities lending transactions in the Goldman Sachs Financial Square Government Fund ("Government Money Market Fund"), an affiliated series of the Goldman Sachs Trust. The Government Money Market Fund is registered under the Act as an open end investment company, is subject to Rule 2a-7 under the Act, and is managed by GSAM, for which GSAM may receive a management fee of up to 0.16% on an annualized basis of the average daily net assets of the Government Money Market Fund.

In the event of a default by a borrower with respect to any loan, GSAL will exercise any and all remedies provided under the applicable borrower agreement to make the Fund whole. These remedies include purchasing replacement securities by applying the collateral held from the defaulting broker against the purchase cost of the replacement securities. If GSAL is unable to purchase replacement securities, GSAL will indemnify the Fund by paying the Fund an amount equal to the market value of the securities loaned minus the value of cash collateral received from the borrower for the loan, subject to an exclusion for any shortfalls resulting from a loss of value in such cash collateral due to reinvestment risk. The Fund's master netting agreements with certain borrowers provide the right, in the event of a default (including bankruptcy or insolvency), for the non-defaulting party to liquidate the collateral and calculate net exposure to the defaulting party or request additional collateral. However, in the event of a default by a borrower, a resolution authority could determine that such rights are not enforceable due to the restrictions or prohibitions against the right of set-off that may be imposed in accordance with a particular jurisdiction's bankruptcy or insolvency laws. The Fund's loaned securities were all subject to enforceable Securities Lending Agreements and the value of the collateral was at least equal to the value of the cash received. The amounts of the Fund's overnight and continuous agreements, which represent the gross

Notes to Financial Statements (continued)

April 30, 2025 (Unaudited)

6. SECURITIES LENDING (continued)

amounts of recognized liabilities for securities lending transactions outstanding as of April 30, 2025, are disclosed as "Payable upon return of securities loaned" on the Statement of Assets and Liabilities, where applicable.

Both the Fund and GSAL received compensation relating to the lending of the Fund's securities. The amounts earned, if any, by the Fund for the six months ended April 30, 2025, are reported under Investment Income on the Statement of Operations.

The table below details securities lending activity with affiliates of Goldman Sachs:

	For the Six Months		
Fund	Earnings of GSAL Relating to Securities Loaned	Amounts Received by the Funds from Lending to Goldman Sachs	Amounts Payable to Goldman Sachs Upon Return of Securities Loaned as of April 30, 2025
Goldman Sachs GQG Partners International Opportunities Fund	\$359,558	\$170,206	\$148,134,968

The following table provides information about the Fund's investment in the Government Money Market Fund for the six months ended April 30, 2025:

Fund	Beginning Value as of October 31, 2024	Purchases at cost	Proceeds from Sales	Ending Value as of April 30, 2025	Shares as of April 30, 2025
Goldman Sachs GQG Partners International Opportunities Fund	\$69,900,000	\$6,276,804,327	\$(5,626,944,295)	\$719,760,032	719,760,032

7. TAX INFORMATION

As of April 30, 2025, the Fund's aggregate security unrealized gains and losses based on cost for U.S. federal income tax purposes were as follows:

Goldman Sachs GOG Partners

	International Opportunities Fund		
Tax Cost	\$42,791,195,525		
Gross unrealized gain	9,416,803,695		
Gross unrealized loss	(1,123,256,762)		
Net unrealized gain	\$ 8,293,546,933		

The difference between GAAP-basis and tax basis unrealized gains (losses) is attributable primarily to wash sales and non-shareholder capital contributions.

GSAM has reviewed the Fund's tax positions for all open tax years (the current and prior three years, as applicable) and has concluded that no provision for income tax is required in the Fund's financial statements. Such open tax years remain subject to examination and adjustment by tax authorities.

8. OTHER RISKS

The Fund's risks include, but are not limited to, the following:

Depositary Receipts Risk - Foreign securities may trade in the form of depositary receipts, which include American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs") (collectively "Depositary Receipts"). To the extent the Fund acquires Depositary Receipts through banks which do not have a contractual relationship with the foreign issuer of the security underlying the Depositary Receipts to issue and service such unsponsored Depositary Receipts, there may be an increased

8. OTHER RISKS (continued)

possibility that the Fund would not become aware of and be able to respond to corporate actions such as stock splits or rights offerings involving the foreign issuer in a timely manner. In addition, the lack of information may result in inefficiencies in the valuation of such instruments. Investment in Depositary Receipts does not eliminate all the risks inherent in investing in securities of non-U.S. issuers. The market value of Depositary Receipts is dependent upon the market value of the underlying securities and fluctuations in the relative value of the currencies in which the Depositary Receipts and the underlying securities are quoted. The issuers of Depositary Receipts may discontinue issuing new Depositary Receipts and withdraw existing Depositary Receipts at any time, which may result in costs and delays in the distribution of the underlying assets to the Fund and may negatively impact the Fund's performance.

Foreign and Emerging Countries Risk — Investing in foreign markets may involve special risks and considerations not typically associated with investing in the U.S. Foreign securities may be subject to risk of loss because of more or less foreign government regulation; less public information; less stringent investor protections; less stringent accounting, corporate governance, financial reporting and disclosure standards; and less economic, political and social stability in the countries in which the Fund invests. The imposition of sanctions, exchange controls (including repatriation restrictions), confiscation of assets and property, trade restrictions (including tariffs) and other government restrictions by the U.S. or other governments, or from problems in registration, settlement or custody, may also result in losses. The type and severity of sanctions and other similar measures, including counter sanctions and other retaliatory actions, that may be imposed could vary broadly in scope, and their impact is impossible to predict. For example, the imposition of sanctions and other similar measures could, among other things, cause a decline in the value and/or liquidity of securities issued by the sanctioned country or companies located in or economically tied to the sanctioned country and increase market volatility and disruption in the sanctioned country and throughout the world. Sanctions and other similar measures could limit or prevent the Fund from buying and selling securities (in the sanctioned country and other markets), significantly delay or prevent the settlement of securities transactions, and significantly impact the Fund's liquidity and performance. Foreign risk also involves the risk of negative foreign currency exchange rate fluctuations, which may cause the value of securities denominated in such foreign currency (or other instruments through which the Fund has exposure to foreign currencies) to decline in value. Currency exchange rates may fluctuate significantly over short periods of time. To the extent that a Fund also invests in securities of issuers located in, or economically tied to, emerging markets, these risks may be more pronounced.

Geographic Risk— If the Fund focuses its investments in securities of issuers located in a particular country or geographic region, the Fund may be subjected, to a greater extent than if its investments were less focused, to the risks of volatile economic cycles and/or conditions and developments that may be particular to that country or region, such as: adverse securities markets; adverse exchange rates; adverse social, political, regulatory, economic, business, environmental or other developments; or natural disasters

Investment Style Risk — Different investment styles (e.g., "growth", "value" or "quantitative") tend to shift in and out of favor depending upon market and economic conditions and investor sentiment. The Fund may outperform or underperform other funds that invest in similar asset classes but employ different investment styles.

Investments in Other Investment Companies Risk — As a shareholder of another investment company, the Fund will indirectly bear its proportionate share of any net management fees and other expenses paid by such other investment companies, in addition to the fees and expenses regularly borne by the Fund. In addition, the Fund will be affected by the investment policies, practices and performance of such investment companies in direct proportion to the amount of assets the Fund invests therein.

Large Shareholder Transactions Risk — The Fund may experience adverse effects when certain large shareholders, such as other funds, institutional investors (including those trading by use of non-discretionary mathematical formulas), financial intermediaries (who may make investment decisions on behalf of underlying clients and/or include the Fund in their investment model), individuals, accounts and Goldman Sachs affiliates, purchase or redeem large amounts of shares of the Fund. Such large shareholder redemptions, which may occur rapidly or unexpectedly, may cause the Fund to sell portfolio securities at times when it would not otherwise do so, which may negatively impact the Fund's NAV and liquidity. These transactions may also accelerate the realization of taxable income to shareholders if such sales of investments resulted in gains, and may also increase transaction costs.

Notes to Financial Statements (continued)

April 30, 2025 (Unaudited)

8. OTHER RISKS (continued)

In addition, a large redemption could result in the Fund's current expenses being allocated over a smaller asset base, leading to an increase in the Fund's expense ratio. Similarly, large Fund share purchases may adversely affect the Fund's performance to the extent that the Fund is delayed in investing new cash or otherwise maintains a larger cash position than it ordinarily would.

Management Risk — A strategy used by the Investment Adviser may fail to produce the intended results.

Market and Credit Risks — In the normal course of business, the Fund trades financial instruments and enters into financial transactions where risk of potential loss exists due to changes in the market (market risk). The value of the securities in which the Fund invests may go up or down in response to the prospects of individual companies, particular sectors or governments and/or general economic conditions throughout the world due to increasingly interconnected global economies and financial markets. Events such as war, military conflict, geopolitical disputes, acts of terrorism, social or political unrest, natural disasters, recessions, inflation, rapid interest rate changes, supply chain disruptions, tariffs and other restrictions on trade, sanctions or the spread of infectious illness or other public health threats, or the threat or potential of one or more such events and developments, could also significantly impact the Fund and its investments. Additionally, the Fund may also be exposed to credit risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which the Fund has unsettled or open transactions defaults.

Mid-Cap and Small-Cap Risk — Investments in mid-capitalization and small-capitalization companies involve greater risks than those associated with larger, more established companies. These securities may be subject to more abrupt or erratic price movements and may lack sufficient market liquidity, and these issuers often face greater business risks.

9. INDEMNIFICATIONS

Under the Trust's organizational documents, its Trustees, officers, employees and agents are indemnified, to the extent permitted by the Act and state law, against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, GSAM believes the risk of loss under these arrangements to be remote.

10. OTHER MATTERS

The Fund adopted Financial Accounting Standards Board Accounting Standards Update 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures. The Fund operates in one segment. The segment derives its revenues from Fund investments made in accordance with the defined investment strategy of the Fund, as prescribed in the Fund's prospectus. The Chief Operating Decision Maker ("CODM") is the Investment Adviser. The CODM monitors and actively manages the operating results of the Fund. The financial information the CODM leverages to assess the segment's performance and to make decisions for the Fund's single segment, is consistent with that presented within the Fund's financial statements.

As previously reported, management has identified an error in the accounting for the accrual of foreign capital gains taxes on net unrealized capital gains relating to Indian securities, which resulted in an overstatement of the Fund's net assets and net unrealized gains beginning on March 6, 2023. As of December 6, 2023, the error became material, requiring reprocessing of shareholder accounts impacted by more than an established threshold under the Fund's NAV error correction policy. The Fund intends to reprocess shareholder transactions effected from December 6, 2023 through December 11, 2024, (the "Error Period"), which will generally include issuing additional shares to shareholders who purchased shares of the Fund during the Error Period, net of any redemption proceeds over distributed to impacted shareholders. The Statement of Assets and Liabilities as of April 30, 2025 includes a liability of \$174,063,622 for future shares to be issued to the impacted shareholders and an asset of \$45,921,405, which reflects the amount owed to the Fund for overdistributed redemption proceeds. Such amounts reflect management's current estimate of the impact of the planned remediation of the error.

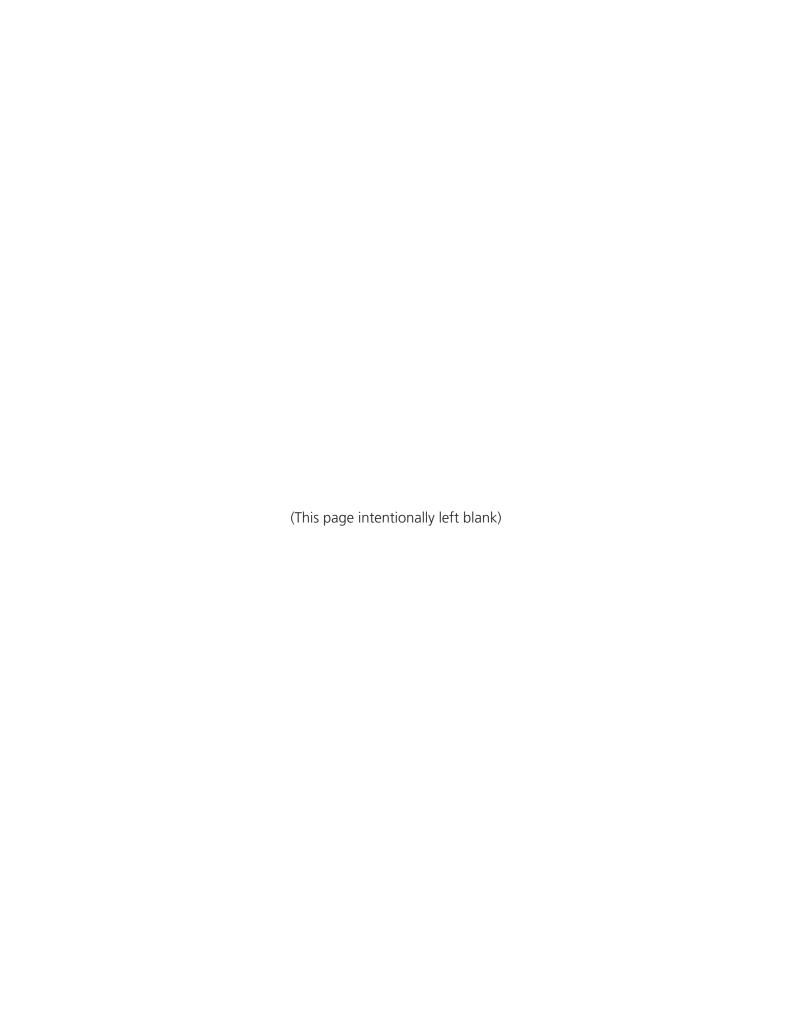

11. SUBSEQUENT EVENTS

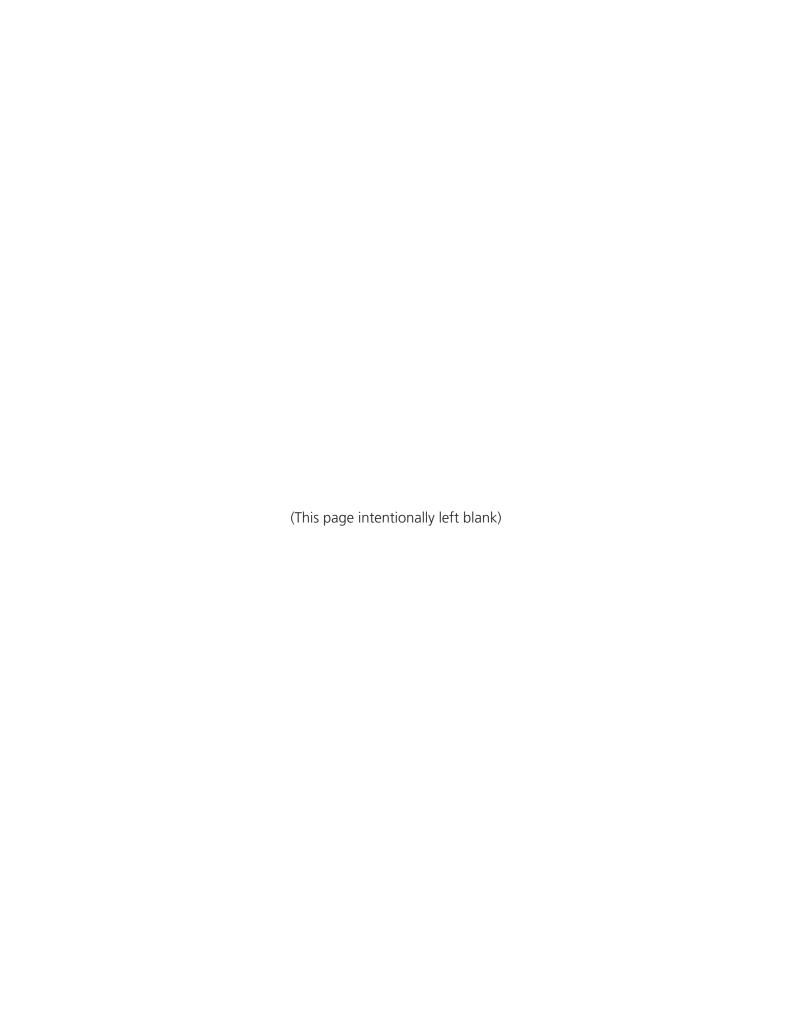

Subsequent events have been evaluated through the date of issuance, and GSAM has concluded that there is no impact requiring adjustment or disclosure in the financial statements.

12. SUMMARY OF SHARE TRANSACTIONS

Share activity is as follows:

		Goldman Sachs GQG Partners International Opportunities Fund				
	April	For the Six Months Ended April 30, 2025 (Unaudited)		For the Fiscal Year Ended October 31, 2024		
	Shares	Dollars	Shares	Dollars
