## What is this product?

### Type

Goldman Sachs Funds III is an undertaking for collective investment organized under the laws of Luxembourg as a société d'investissement à capital variable (S.I.C.A.V.) and qualifies as a UCITS. Goldman Sachs Funds III is registered pursuant to Part I of the Law of 17 December 2010 and is established as an "umbrella structure" comprised of a number of sub-funds. You are purchasing a class of shares in the sub-fund.

### Term

The term of the Fund is unlimited and therefore there is no maturity date. The Manufacturer may not unilaterally terminate the Fund, however, the directors of the Fund and/or the investors of the Fund may in certain circumstances set out in the Prospectus and constitutive document of the Fund, unilaterally terminate the Fund. Cases of automatic termination may be foreseen by laws and regulations applicable to the Fund.

### Objectives

The Fund is classified as a financial product under Article 8 of the EU Sustainable Finance Disclosure Regulation. The Fund promotes environmental or social characteristics and has partial sustainable investments as its objective. The Fund integrates ESG factors and risk in the investment process alongside traditional factors. Detailed information on the sustainability related disclosures of the Fund can be found in the Pre-Contractual Document (annex of the prospectus) on <https://am.gs.com>. The fund applies a flexible and diversified investment approach designed to respond to changing market conditions. Measured over a period of 5 years, the fund aims to achieve returns that exceed EURIBOR 1-month within a strictly defined risk budget and a focus on downside risk mitigation. The fund is actively managed and the benchmark is not used for portfolio construction but for performance measurement purposes only. The fund uses active management to respond to changing market conditions by using amongst others fundamental and behavioural analysis resulting in dynamic asset allocation over time. The fund can invest in various asset classes (such as for example stocks, investment and non-investment grade bonds, cash, indirect real estate and commodities) and can use other financial instruments, such as derivatives, to reach its objectives. The fund cannot invest in physical commodities. The fund can take long and short positions (short positions via derivative instruments only) in order to achieve its objectives. Excluding derivative exposure, the investments in investment grade fixed income investments, Money Market Instruments and cash or cash equivalents will be at least 50% of the net assets. Including derivative exposure, the investments in investment grade fixed income investments, Money Market Instruments and cash or cash equivalents can be lower than 50% of the net assets. The exposure to asset classes other than investment grade fixed income investments, Money Market Instruments and cash or cash equivalents can exceed 50% of the net assets by using leverage, subject to the maximum expected level of net leverage. The fund may also, up to 20% of its net assets, in China A through Stock Connect and Chinese debt through Bond Connect. The Sub-Fund promotes environmental and/or social characteristics, as described in Article 8 of the SFDR, by defining for the main part of the investments the materiality of environmental, social and governance (ESG) risks and opportunities. This information is integrated by the Sub-Fund in its investment process based on the Management Company's ESG Integration approach. The ESG integration approach may be limited by the quality and availability of the data disclosed by issuers or provided by third parties. For direct investments in equities and corporate bonds the Sub-Fund aims to achieve a carbon intensity that is lower than the relevant investment universes. For direct investments in sovereign debt securities issued by developed countries with an investment grade rating, the Sub-Fund aims to achieve an ESG Rating that is better than the ESG Rating of the relevant developed countries investment grade sovereign bond universe. The sub-fund's base currency is Euro (EUR) and the sub-fund can be exposed to non-Euro currencies. For this share class, which is hedged to the Hungarian Forint, 1 month BUBOR is used as a reference for the purpose of performance measurement. The difference in the total return of this hedged share class vis a vis the total return of the fund in the base currency (before hedging) reflects the return impact (positive or negative) of FX hedging. By hedging this share class we aim to exchange the base currency of the sub-fund (EUR) with the currency of this share class – Hungarian forint (HUF). The exposure towards non-HUF currencies in the sub-fund remains in this share class. A currency hedge consists of taking an offsetting position in another currency. You can sell your participation in this fund on each (working) day on which the value of the units is calculated, which for this fund occurs daily. The fund does not aim to provide you with a dividend. It will reinvest all earnings.

The return of the Fund depends on the performance of the Fund, which is directly related to the performance of its investments. The risk and reward profile of the Fund described in this key information document assumes that you hold your investments in the Fund for at least the Recommended Holding Period as set out below under the heading "How long should I hold it and can I take money out early". Please see the section "How long should I hold it and can I take money out early?" below for additional details (including restrictions and/or penalties) on the ability to redeem your investment in the Fund.

### Intended retail investor

Shares in the Fund are suitable for any investor (i) for whom an investment in the Fund does not constitute a complete investment program; (ii) who fully understands and is willing to assume that the Fund has a risk of 3 out of 7, which is a medium-low risk class; (iii) who is neither a U.S. Person nor subscribing for Shares on behalf of one or more U.S. Persons; (iv) who understands that they may not recover any or all of the invested amount and can bear the loss of their entire investment; and (v) who are looking for medium term investment.

**Depository:** Brown Brothers Harriman (Luxembourg) S.C.A.

**Further Information:** The Prospectus, annual and semi-annual reports are available free of charge in the Funds section of <https://am.gs.com>. The latest share price will be made public on the website in the Funds section of <https://am.gs.com>.

This Key Information Document describes a sub-fund of the fund Goldman Sachs Funds III. The prospectus and the periodical reports for the fund are prepared for the entire fund including all its sub-funds. Under Luxembourg Law of 17 December 2010 on Undertakings for Collective investment sub-funds assets and liabilities of the sub-funds of the fund are segregated and may be deemed to be separate entities for the purpose of the relations between investors and may be separately liquidated. The investor has the right to switch between sub-funds of Goldman Sachs Funds III under specific conditions. More information on these can be found in the prospectus.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for the Recommended Holding Period of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Fund's capacity to pay you.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

**Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Other Material Risks relevant to the Fund not included in the summary risk indicator are set out in the Prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If the Fund is not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		HUF 5 000 000	
		If you exit after 1 year	If you exit after 5 years
<b>Scenarios</b>			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	<b>What you might get back after costs</b>	HUF 3 779 340	HUF 3 671 760
	Average return each year	-24.41%	-5.99%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	HUF 4 474 930	HUF 4 885 780

	Average return each year	18.64%	6.44%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between 2017 and 2022.

Moderate scenario: this type of scenario occurred for an investment between 2016 and 2021.

Favourable scenario: this type of scenario occurred for an investment between 2020 and 2025.

### What happens if Goldman Sachs Asset Management B.V. is unable to pay out?

You may not face a financial loss due to the default of the Manufacturer.

The assets of the Fund are held in safekeeping by its Depositary, Brown Brothers Harriman (Luxembourg) S.C.A. (the "Depositary"). In the event of the insolvency of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary).

Losses are not covered by an investor's compensation or guaranteed scheme.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- HUF 5 000 000 is invested

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	HUF 144 950	HUF 366 181
<b>Annual cost impact (*)</b>	2.9%	1.3% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.4% before costs and 2.1% after costs.

## Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	2.00% (max) of the amount you pay in when entering this Investment.	Up to HUF 100 000

<b>Transaction costs</b>	0.22% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	HUF 10 950
Incidental costs taken under specific conditions		
<b>Performance fees (and carried interest)</b>	There is no performance fee for this product.	HUF 0

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years.

The Manufacturer considers this to be an appropriate period of time for the Fund to be able to implement its strategy and potentially generate returns. This is not a recommendation to redeem your investment after this time and while longer holding periods allow greater time for the Fund to implement its strategy, the outcome of any holding period with respect to investment returns is not guaranteed.

Redeeming your shares in the Fund before the recommended holding period may be detrimental in terms of your return and may increase the risks associated with your investment, which may lead to the realisation of a loss.

### How can I complain?

If you choose to invest in the Fund and subsequently have a complaint about it or the conduct of the Manufacturer or any distributor of the Fund, you should in the first instance contact the European Shareholder Services Team at Goldman Sachs Asset Management B.V. via email at [ess@gs.com](mailto:ess@gs.com), by post Goldman Sachs Asset Management B.V., Prinses Beatrixlaan 35, 2595 AK, The Hague, The Netherlands or by consulting the following website, <https://am.gs.com> in the section About us/ contact.
