

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		USD 10 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	USD 4 730	USD 4 300
	Average return each year	-52.70%	-15.53%
Unfavourable	What you might get back after costs	USD 8 560	USD 10 760
	Average return each year	-14.40%	1.48%
Moderate	What you might get back after costs	USD 10 810	USD 13 040
	Average return each year	8.10%	5.45%
Favourable	What you might get back after costs	USD 13 130	USD 15 100
	Average return each year	31.30%	8.59%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2022 and 2025.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between 2018 and 2023.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2016 and 2021.

What happens if Goldman Sachs Asset Management B.V. is unable to pay out?

You may not face a financial loss due to the default of the Manufacturer.

The assets of the Portfolio and the Fund are held in safekeeping by its Depositary. In the event of the insolvency of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary).

Losses are not covered by an investor's compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the Portfolio is a part of another product, for example a unit-linked insurance, there may be additional costs for that product.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- USD 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	USD 120	USD 756
Annual cost impact (*)	1.2%	1.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.7 % before costs and 5.5 % after costs.

These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

Composition of Costs

How long should I hold it and can I take money out early?

Recommended holding period: 5 years.

The Manufacturer considers this to be an appropriate period of time for the Portfolio to be able to implement its strategy and potentially generate returns. This is not a recommendation to redeem your investment after this time and while longer holding periods allow greater time for the Portfolio to implement its strategy, the outcome of any holding period with respect to investment returns is not guaranteed.

Investors may redeem their shares on any Business Day (as defined in the Prospectus) by giving prior written notice as further described in the Prospectus. Redeeming your shares in the Portfolio before the recommended holding period may be detrimental in terms of your return and may increase the risks associated with your investment, which may lead to the realisation of a loss.

How can I complain?

If you choose to invest in the Portfolio and subsequently have a complaint about it or the conduct of the Manufacturer or any distributor of the Portfolio, you should in the first instance contact the Shareholder Service team at Goldman Sachs Asset Management on +44 207 774 6366, via email at ESS@gs.com, by post Goldman Sachs Asset Management B.V., Prinses Beatrixlaan 35, 2595 AK, The Hague, The Netherlands or by consulting the following website, <https://www.gsam.com/content/gsam/uk/en/advisers/about-gsam/contact-us.html>. If your complaint is not satisfactorily resolved, you may also complain directly to the Financial Ombudsman Service (www.financial-ombudsman.org.uk).
