This Fund is authorised in Luxembourg.

This Key Information Document is dated 21/08/2026.

## What is this product?

**Type**

Goldman Sachs Funds is an undertaking for collective investment organised under the laws of the Grand Duchy of Luxembourg organised as a société d'investissement à capital variable (S.I.C.A.V.) and qualifies as a UCITS. The Fund is registered pursuant to Part I of the Law of 17 December 2010 and is established as an "umbrella structure" comprised of a number of Portfolios. You are purchasing a class of shares in the Portfolio.

**Term**

The term of the Portfolio and of the share class is unlimited and therefore there is no maturity date. The Manufacturer may not unilaterally terminate the Portfolio, however, the board of directors of the Fund and/or the investors of the Portfolio may in certain circumstances set out in the Prospectus and constitutive document of the Fund, unilaterally terminate the Fund, the Portfolio and/or the share class. Cases of automatic termination may be foreseen by laws and regulations applicable to the Fund.

**Objectives**

The Portfolio seeks to generate positive and measurable environmental impact alongside capital growth over the longer term.

The Portfolio will mostly hold shares or similar instruments relating to companies anywhere in the world, which in the view of the Investment Adviser are aligned to the key themes associated with solving environmental problems including, but not limited to, clean energy, resource efficiency, sustainable consumption and production, circular economy, water sustainability, and climate adaptation and which the Investment Adviser considers to be sustainable investments.

The Portfolio will be concentrated and may have significant exposure to specific sectors, including but not limited technology and consumer sectors.

The Portfolio may consider non-financial criteria across environmental (i.e., carbon footprint), social (i.e., human rights), and governance (i.e., significant governance controversies) factors in addition to financial performance. The selection process may be limited by the quality and availability of the data disclosed by issuers or provided by third parties. The Portfolio seeks to create positive environmental impact by investing in companies that the Investment Adviser considers to be sustainable investments and which provide solutions that drive environmental sustainability, by virtue of their alignment to key themes associated with solving environmental problems. This approach is implemented by investing a significant portion of the Portfolio's net assets (i.e., at least 90% of the assets of the Portfolio) into investments which are aligned to key themes associated environmental problems like clean energy, resource efficiency, among others.

The Portfolio may use derivative instruments to help manage risks and for cash management purposes . A derivative instrument is a contract between two or more parties whose value depends on the rise and fall of other underlying assets.

The Portfolio may invest in mainland China equity securities directly through the Stock Connect scheme or the Renminbi qualified foreign institutional investor program, or indirectly through access products.

The Share Class seeks to hedge the base currency exposure of the Portfolio to the Share Class currency. You should be aware that a variety of techniques may be used to effect the currency hedging which involves additional risks and there is no assurance or guarantee that such hedging will be successful.

Shares in the Portfolio may be redeemed daily (on each business day) on demand.

The Portfolio is actively managed and references the MSCI ACWI (Net Total Return) (the "Benchmark") for the purposes of setting discretionary internal risk thresholds which may reference deviations from the Benchmark.

The Investment Adviser has full discretion over the composition of the assets in the Portfolio. While the Portfolio will generally hold assets that are components of the Benchmark, it can invest in such components in different proportions, and it can hold assets which are not components of the Benchmark. Therefore returns may deviate materially from the performance of the specified reference Benchmark.

Income is rolled up into the value of your investment.

The Portfolio currency is USD. The share class currency is CZK.

The return of the Portfolio depends on the performance of the Portfolio, which is directly related to the performance of its investments. The risk and reward profile of the Portfolio described in this key information document assumes that you hold your investments in the Portfolio for at least the Recommended Holding Period as set out below under the heading "How long should I hold it and can I take money early out.

Please see the section "How long should I hold it and can I take money out early?" below for additional details (including restrictions and/or penalties) on the ability to redeem your investment in the Fund.

For full investment objective and policy details see the Prospectus.

**Intended retail investor**

Shares in the Portfolio are suitable for any investor (i) for whom an investment in the Portfolio does not constitute a complete investment program; (ii) who fully understands and is willing to assume that the Portfolio has a risk of 4 out of 7, which is a medium risk class, (iii) who is neither a U.S. Person nor subscribing for Shares on behalf of one or more U.S. Persons; (iv) who understands that they may not recover the invested amount; and (v) who are looking for medium-term investment. The investor could be using an execution only platform and acting without any advice from an investment professional.

**Depositary**: State Street Bank International GmbH Luxembourg Branch

**Further Information**: The Prospectus, annual and semi-annual reports and latest share price are available free of charge from the Fund's registered office, the Manager, administrator or the Portfolio's distributors. The Prospectus is available in English, French, German, Italian and Spanish. This document is for a single Portfolio of the Fund and the Prospectus, annual and semi-annual reports is for the entire Fund. The Fund is an investment company with segregated liability between portfolios under Luxembourg law. Therefore, the assets of the Portfolio you have invested in should not be used to pay the liabilities of other portfolios. However, this has not been tested in other jurisdictions.

## What are the risks and what could I get in return?

**Risk indicator**

The risk indicator assumes you keep the product for the Recommended Holding Period of 5 years.
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Portfolio is not able to pay you.
We have classified this Portfolio as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Portfolio 's capacity to pay you.
**Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**
Other Material Risks relevant to the Portfolio not included in the summary risk indicator are set out in the Prospectus.
This product does not include any protection from future market performance so you could lose some or all of your investment.
If the Fund is not able to pay you what is owed, you could lose your entire investment.

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

| **Recommended holding period:** | | **5 years** | |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
The stress scenario shows what you might get back in extreme market circumstances.
Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2021 and 2026.
Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between 2019 and 2024.
Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2016 and 2021.

## What happens if Goldman Sachs Asset Management B.V. is unable to pay out?

You may not face a financial loss due to the default of the Manufacturer.
The assets of the Portfolio and the Fund are held in safekeeping by its Depositary. In the event of the insolvency of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary).
Losses are not covered by an investor's compensation or guaranteed scheme.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the Portfolio is a part of another product, for example a unit-linked insurance, there may be additional costs for that product.

**Costs over Time**

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- CZK 100 000 is invested

| | **If you exit after 1 year** | **If you exit after 5 years** |
|---|---|---|
| **Total costs** | CZK 6 600 | CZK 24 634 |
| **Annual cost impact (*)** | 6.6% | 3.5% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.9 % before costs and 7.4 % after costs.
These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

**Composition of Costs**

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|---|
| **Entry costs** | 4.00% of the amount you pay in when entering this investment. | Up to CZK 4 000 |
| **Exit costs** | We do not charge an exit fee for this product, but the person selling you the product may do so. | CZK 0 |
| **Ongoing costs taken each year** | | |
| **Management fees and other administrative or operating costs** | 2.50% of the value of your investment per year. This percentage is based on actual costs over the last year. | CZK 2 500 |
| **Transaction costs** | 0.10% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | CZK 100 |
| **Incidental costs taken under specific conditions** | | |
| **Performance fees (and carried interest)** | There is no performance fee for this product. | CZK 0 |

## How long should I hold it and can I take money out early?

**Recommended holding period: 5 years.**

The Manufacturer considers this to be an appropriate period of time for the Portfolio to be able to implement its strategy and potentially generate returns. This is not a recommendation to redeem your investment after this time and while longer holding periods allow greater time for the Portfolio to implement its strategy, the outcome of any holding period with respect to investment returns is not guaranteed.

Investors may redeem their shares on any Business Day (as defined in the Prospectus) by giving prior written notice as further described in the Prospectus. Redeeming your shares in the Portfolio before the recommended holding period may be detrimental in terms of your return and may increase the risks associated with your investment, which may lead to the realisation of a loss.

## How can I complain?

If you choose to invest in the Portfolio and subsequently have a complaint about it or the conduct of the Manufacturer or any distributor of the Portfolio, you should in the first instance contact the Shareholder Service team at Goldman Sachs Asset Management on +44 207 774 6366, via email at ESS@gs.com, by post Goldman Sachs Asset Management B.V., Prinses Beatrixlaan 35, 2595 AK, The Hague, The Netherlands or by consulting the following website, https://www.gsam.com/content/gsam/uk/en/advisers/about-gsam/contact-us.html.
