## Past performance

This chart shows the Fund’s performance as the percentage loss or gain per year over the last 10 year(s) against its benchmark. It can help you to assess how the Fund has been managed in the past and compare it to its benchmark. If no past performance figures are provided, there is insufficient data available to give a useful indication of historical returns.

• **Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the Fund has been managed in the past.**

- The Sub-fund was launched in 2014. The share class was launched in 2014.
- Past performance has been calculated in EUR and is shown as a percentage change in the net asset value of the share class at the end of each year (net after deduction of all costs).
- Past performance is not indicative of future results, which may vary.
- The past performance shown here takes into account all costs and fees, with the exception of entry and exit costs and costs for switching between funds.
