March 31, 2025

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

- (a) Security with "Call" features with resetting interest rates. Maturity dates disclosed are the final maturity dates.
- (b) Exempt from registration under Rule 144A of the Securities Act of
- (c) Variable rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on March 31, 2025.
- (d) Issued with a zero coupon. Income is recognized through the accretion of discount.
- (e) All or a portion of security is segregated as collateral for initial margin requirement on futures transactions.
- (f) Represents an affiliated issuer.

### ADDITIONAL INVESTMENT INFORMATION

**FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS** — At March 31, 2025, the Fund had the following forward foreign currency exchange contracts:

### FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS WITH UNREALIZED GAIN

Counterparty	Currency	Currency	Settlement	Unrealized
	Purchased	Sold	Date	Gain
BNP Paribas SA	EUR 2,170,760	USD 2,271,913	04/09/25	\$76,442

### FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS WITH UNREALIZED LOSS

Counterparty	Currency	Currency	Settlement	Unrealized
	Purchased	Sold	Date	Loss
BNP Paribas SA	USD 4,160,891	EUR 4,035,840	04/09/25	\$(205,131)

### FUTURES CONTRACTS — At March 31, 2025, the Fund had the following futures contracts:

Description	Number of Contracts	Expiration Date	Notional Amount	Unrealized Appreciation/ (Depreciation)
Long position contracts:				
2 Year U.S. Treasury Notes	293	06/30/25	\$60,701,360	\$164,804
5 Year U.S. Treasury Notes	768	06/30/25	83,064,000	79,343
TOTAL FUTURES CONTRACTS				\$244,147

SWAP CONTRACTS — At March 31, 2025, the Fund had the following swap contracts:

### CENTRALLY CLEARED INTEREST RATE SWAP CONTRACTS

Payments Made by the Fund	Payments Received by Fund	Termination Date	Notional Amount (000s) <sup>(a)</sup>	Market Value	Upfront Premium (Received) Paid	Unrealized Appreciation/ (Depreciation)
12M SOFR <sup>(b)</sup>	3.250% <sup>(b)</sup>	06/18/26	\$ 400,260	\$(2,102,806)	\$(2,716,340)	\$ 613,534

### CENTRALLY CLEARED INTEREST RATE SWAP CONTRACTS (continued)

Payments Made by the Fund	Payments Received by Fund	Termination Date	Notional Amount (000s) <sup>(a)</sup>	Market Value	Upfront Premium (Received) Paid	Unrealized Appreciation/ (Depreciation)
3.799 <sup>(c)</sup>	12M SOFR <sup>(c)</sup>	08/31/29	\$ 83,270	\$ (619,329)	\$ (253,205)	\$(366,124)
TOTAL				\$ (298,744)	\$ 408,653	\$(707,397)

(a) Represents forward starting interest rate swaps whose effective dates of commencement of accruals and cash flows occur subsequent to March 31, 2025.

(b) Payments made at maturity.

(c) Payments made annually.

### **Currency Abbreviations:**

EUR —Euro

USD —U.S. Dollar

### Investment Abbreviations:

CLO —Collateralized Loan Obligation EURIBOR —Euro Interbank Offered Rate

GO —General Obligation
LLC —Limited Liability Company
LP —Limited Partnership
PLC —Public Limited Company

REMICS —Real Estate Mortgage Investment Conduits
SOFR —Secured Overnight Financing Rate
SpA —Stand-by Purchase Agreement

STRIPS —Separate Trading of Registered Interest and Principal of Securities

### Abbreviation:

SOFR —Secured Overnight Financing Rate

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

(a) Variable rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on March 31, 2025.

- (b) Security with "Call" features with resetting interest rates. Maturity dates disclosed are the final maturity dates.
- (c) Exempt from registration under Rule 144A of the Securities Act of
- (d) Coupon changes periodically based upon a predetermined schedule. Interest rate disclosed is that which is in effect on March 31, 2025.
- (e) TBA (To Be Announced) Securities are purchased on a forward commitment basis with an approximate principal amount and no defined maturity date. The actual principal and maturity date will be determined upon settlement when the specific mortgage pools are assigned. Total market value of TBA securities (excluding forward sales contracts, if any) amounts to \$21,837,048 which represents approximately 18.2% of net assets as of March 31, 2025.
- (f) All or a portion of security is segregated as collateral for initial margin requirement on futures transactions.
- (g) Issued with a zero coupon. Income is recognized through the accretion of discount
- (h) Represents an affiliated issuer.

### ADDITIONAL INVESTMENT INFORMATION

FORWARD SALES CONTRACTS — At March 31, 2025, the Fund had the following forward sales contracts:

Description	Interest Rate	Maturity Date <sup>(a)</sup>	Settlement Date	Principal Amount	Value
Government National Mortgage					
Association	3.000%	TBA - 30yr	04/15/25	\$(3,000,000)	\$ (2,657,207)

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

- (a) Security with "Call" features with resetting interest rates. Maturity dates disclosed are the final maturity dates.
- (b) Exempt from registration under Rule 144A of the Securities Act of
- (c) Variable rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on March 31, 2025.
- (d) Coupon changes periodically based upon a predetermined schedule. Interest rate disclosed is that which is in effect on March 31, 2025.
- (e) Security with a notional or nominal principal amount. The actual effective yield of this security is different than the stated interest rate.

- (f) TBA (To Be Announced) Securities are purchased on a forward commitment basis with an approximate principal amount and no defined maturity date. The actual principal and maturity date will be determined upon settlement when the specific mortgage pools are assigned. Total market value of TBA securities (excluding forward sales contracts, if any) amounts to \$46,340,826 which represents approximately 3.6% of net assets as of March 31, 2025.
- (g) All or a portion of security is segregated as collateral for initial margin requirement on futures transactions.
- (h) Represents an affiliated issuer.
- Issued with a zero coupon. Income is recognized through the accretion of discount.

### ADDITIONAL INVESTMENT INFORMATION

**FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS** — At March 31, 2025, the Fund had the following forward foreign currency exchange contracts:

<sup>(</sup>a) Payments made quarterly.

<sup>(</sup>b) Payments made annually.

<sup>(</sup>c) Payments made semi-annually.

<sup>(</sup>d) Payments made quarterly.

<sup>(</sup>e) Payments made at maturity.

<sup>(</sup>b) Credit spread on the referenced obligation, together with the term of the swap contract, are indicators of payment/performance risk. The likelihood of a credit event occurring which would require a fund or its counterparty to make a payment or otherwise be required to perform under the swap contract is generally greater as the credit spread and the term of the swap contract increase.

<sup>(</sup>b) Credit spread on the referenced obligation, together with the term of the swap contract, are indicators of payment/performance risk. The likelihood of a credit event occurring which would require a fund or its counterparty to make a payment or otherwise be required to perform under the swap contract is generally greater as the credit spread and the term of the swap contract increase.

PURCHASED AND WRITTEN OPTIONS CONTRACTS — At March 31, 2025, the Fund had the following purchased and written options:

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

- (a) Security with "Call" features with resetting interest rates. Maturity dates disclosed are the final maturity dates.
- (b) Variable rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on March 31, 2025.
- (c) TBA (To Be Announced) Securities are purchased on a forward commitment basis with an approximate principal amount and no defined maturity date. The actual principal and maturity date will be determined upon settlement when the specific mortgage pools are assigned. Total market value of TBA securities (excluding forward sales contracts, if any) amounts to \$37,634,712 which represents approximately 8.6% of net assets as of March 31, 2025.
- (d) All or a portion of security is segregated as collateral for initial margin requirement on futures transactions.

March 31, 2025

#### ADDITIONAL INVESTMENT INFORMATION

FORWARD SALES CONTRACTS — At March 31, 2025, the Fund had the following forward sales contracts:

Description	Interest Rate	Maturity Date <sup>(a)</sup>	Settlement Date	Principal Amount	Value
Government National Mortgage					
Association	4.500%	TBA - 30yr	04/15/25	\$ (9,000,000)	\$ (8,635,972)

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

- (a) Security with "Call" features with resetting interest rates. Maturity dates disclosed are the final maturity dates.
- (b) Exempt from registration under Rule 144A of the Securities Act of 1933.
- (c) Variable rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on March 31, 2025.
- (d) Represents an affiliated issuer.
- (e) Issued with a zero coupon. Income is recognized through the accretion of discount.

March 31, 2025

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

(a) Security with a notional or nominal principal amount. The actual effective yield of this security is different than the stated interest rate.

- (b) Variable rate security. Except for floating rate notes (for which final maturity is disclosed), maturity date disclosed is the next interest reset date. Interest rate disclosed is that which is in effect on March 31, 2025.
- (c) Security with "Call" features with resetting interest rates. Maturity dates disclosed are the final maturity dates.
- (d) Coupon changes periodically based upon a predetermined schedule. Interest rate disclosed is that which is in effect on March 31, 2025.
- (e) Exempt from registration under Rule 144A of the Securities Act of 1933
- (f) TBA (To Be Announced) Securities are purchased on a forward commitment basis with an approximate principal amount and no defined maturity date. The actual principal and maturity date will be determined upon settlement when the specific mortgage pools are assigned. Total market value of TBA securities (excluding forward sales contracts, if any) amounts to \$72,525,288 which represents approximately 41.7% of net assets as of March 31, 2025.
- (g) Issued with a zero coupon. Income is recognized through the accretion of discount.
- (h) All or a portion of security is segregated as collateral for initial margin requirement on futures transactions.
- (i) Represents an affiliated issuer.

#### ADDITIONAL INVESTMENT INFORMATION

FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS — At March 31, 2025, the Fund had the following forward foreign currency exchange contracts:

#### FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS WITH UNREALIZED LOSS

Counterparty	Currency	Currency	Settlement	Unrealized	
	Purchased	Sold	Date	Loss	
HSBC Bank PLC	EUR 504,061	USD 546,234	04/09/25	\$ (934)

<sup>(</sup>a) Payments made annually

#### **OVER-THE-COUNTER CREDIT DEFAULT SWAP CONTRACTS**

Reference Obligation/Index	Financing Rate Received/(Paid) by the Fund <sup>(a)</sup>	Credit Spread at March 31, 2025 <sup>(b)</sup>	Counterparty	Termination Date	Notional Amount (000s)	Value	Upfront Premiums (Received) Paid	Unrealized Appreciation/ (Depreciation)
Protection Sold: CMBX.NA.BBB.17	3.000%	5.568%	JPMorgan Securities, Inc.	12/15/56	\$500	\$(71,432)	\$(62,427)	\$(9,005)

<sup>(</sup>a) Payments made monthly.

<sup>(</sup>b) Represents forward starting interest rate swaps whose effective dates of commencement of accruals and cash flows occur subsequent to March 31, 2025.

<sup>(</sup>b) Credit spread on the referenced obligation, together with the term of the swap contract, are indicators of payment/performance risk. The likelihood of a credit event occurring which would require a fund or its counterparty to make a payment or otherwise be required to perform under the swap contract is generally greater as the credit spread and the term of the swap contract increase.

Ratio of net investment income to average net assets	4.04%	3.38%	1.86%	0.60%	1.20%
Portfolio turnover rate <sup>(d)</sup>	43%	23%	25%	17%	58%

<sup>(</sup>a) Calculated based on the average shares outstanding methodology.

<sup>(</sup>b) Amount is less than (\$0.005) per share.

<sup>(</sup>c) Assumes investment at the NAV at the beginning of the year, reinvestment of all dividends and distributions, a complete redemption of the investment at the NAV at the end of the year and no sales or redemption charges (if any). Total returns would be reduced if a sales or redemption charge was taken into account. Returns do not reflect the impact of taxes to shareholders relating to Fund distributions or the redemption of Fund shares.

<sup>(</sup>d) The Fund's portfolio turnover rate is calculated in accordance with regulatory requirements, without regard to transactions involving short term investments and certain derivatives. If such transactions were included, the Fund's portfolio turnover rate may be higher.

<sup>(</sup>b) Assumes investment at the NAV at the beginning of the year, reinvestment of all dividends and distributions, a complete redemption of the investment at the NAV at the end of the year and no sales or redemption charges (if any). Total returns would be reduced if a sales or redemption charge was taken into account. Returns do not reflect the impact of taxes to shareholders relating to Fund distributions or the redemption of Fund shares.

<sup>(</sup>c) The Fund's portfolio turnover rate is calculated in accordance with regulatory requirements, without regard to transactions involving short term investments. If such transactions were included, the Fund's portfolio turnover rate may be higher.

### Notes to Financial Statements

March 31, 2025

#### 1. ORGANIZATION

Goldman Sachs Trust (the "Trust") is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company. The following table lists those series of the Trust that are included in this report (collectively, the "Funds" or individually a "Fund"), along with their corresponding share classes and respective diversification status under the Act:

Fund	Share Classes Offered	Diversified/ Non-diversified
Goldman Sachs Enhanced Income Fund	A, Administration, Institutional, Service, Investor, R6 and P	Diversified
Goldman Sachs Government Income Fund	A, C, Institutional, Service, Investor, R6, R and P	Diversified
Goldman Sachs Inflation Protected Securities Fund	A, C, Institutional, Investor, R6, R and P	Diversified
Goldman Sachs Short Duration Bond Fund	A, C, Institutional, Investor, R6, R and P	Diversified
Goldman Sachs Short Duration Government Fund	A, C, Institutional, Service, Investor, R6 and P	Diversified
Goldman Sachs Short-Term Conservative Income Fund	A, Institutional, Investor, R6 and P	Diversified
Goldman Sachs U.S. Mortgages Fund	A, Institutional, Separate Account Institutional, Investor, R6 and P	Diversified

Class A Shares of the Government Income, Inflation Protected Securities, Short Duration Bond, Short Duration Government and U.S. Mortgages Funds are sold with a front-end sales charge of up to 3.75%, 3.75%, 1.50%, 1.50% and 3.75%, respectively. Class C Shares are generally sold with a contingent deferred sales charge ("CDSC") of 1.00% (0.65% for Short Duration Bond and Short Duration Government Funds), which is imposed on redemptions made within 12 months of purchase. Class A Shares of the Enhanced Income and Short-Term Conservative Income Funds are not subject to a sales charge. Similarly, Administration, Institutional, Service, Separate Account Institutional, Investor, Class R6, Class R and Class P Shares are not subject to a sales charge.

Goldman Sachs Asset Management, L.P. ("GSAM"), an affiliate of Goldman Sachs & Co. LLC ("Goldman Sachs"), serves as investment adviser to the Funds pursuant to management agreements (each, an "Agreement") with the Trust.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and require management to make estimates and assumptions that may affect the reported amounts and disclosures. Actual results may differ from those estimates and assumptions. Each Fund is an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies.

- A. Investment Valuation The Funds' valuation policy is to value investments at fair value.
- B. Investment Income and Investments Investment income includes interest income, dividend income, and securities lending income, if any. Interest income is accrued daily and adjusted for amortization of premiums and accretion of discounts. Dividend income is recognized on ex-dividend date or, for certain foreign securities, as soon as such information is obtained subsequent to the ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received. Investment transactions are reflected on trade date. Realized gains and losses are calculated using identified cost. Investment transactions are recorded on the following business day for daily net asset value ("NAV") calculations. Investment income is recorded net of any foreign withholding taxes, less any amounts reclaimable. The Funds may file withholding tax reclaims in certain jurisdictions to recover a portion of amounts previously withheld. Any foreign capital gains tax is accrued daily based upon net unrealized gains, and is payable upon sale of such investments.

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

For derivative contracts, unrealized gains and losses are recorded daily and become realized gains and losses upon disposition or termination of the contract. Upfront payments, if any, are made or received upon entering into a swap agreement and are reflected in the Statements of Assets and Liabilities. Upfront payments are recognized over the contract's term/event as realized gains or losses, with the exception of forward starting swap contracts whose realized gains or losses are recognized from the effective start date. For securities with paydown provisions, principal payments received are treated as a proportionate reduction to the cost basis of the securities, and excess or shortfall amounts are recorded as income. For treasury inflation protected securities ("TIPS"), adjustments to principal due to inflation/deflation are reflected as increases/decreases to interest income with a corresponding adjustment to cost.

- C. Class Allocations and Expenses Investment income, realized and unrealized gain (loss), if any, and non-class specific expenses of each Fund are allocated daily based upon the proportion of net assets of each class. Non-class specific expenses directly incurred by a Fund are charged to that Fund, while such expenses incurred by the Trust are allocated across the applicable Funds on a straight-line and/or pro-rata basis depending upon the nature of the expenses. Class specific expenses, where applicable, are borne by the respective share classes and include Distribution and Service, Transfer Agency and Service and Shareholder Administration fees.
- D. Federal Taxes and Distributions to Shareholders It is each Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies and to distribute each year substantially all of its investment company taxable income and capital gains to its shareholders. Accordingly, each Fund is not required to make any provisions for the payment of federal income tax. Distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions, if any, are declared and paid according to the following schedule:

	Investment Income Dividends	Capital Gains Distributions
Fund	Declared/Paid	Declared/Paid
Enhanced Income Fund	Daily/Monthly	Annually
Government Income Fund	Daily/Monthly	Annually
Inflation Protected Securities Fund	Quarterly/Quarterly	Annually
Short Duration Bond Fund	Daily/Monthly	Annually
Short Duration Government Fund	Daily/Monthly	Annually
Short-Term Conservative Income Fund	Daily/Monthly	Annually
U.S. Mortgages Fund	Daily/Monthly	Annually

Net capital losses, if any, are carried forward to future fiscal years and may be used to the extent allowed by the Code to offset any future capital gains. Losses that are carried forward will retain their character as either short-term or long-term capital losses. Utilization of capital loss carryforwards will reduce the requirement of future capital gains distributions.

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with federal income tax rules, which may differ from GAAP. The source of each Fund's distributions may be shown in the accompanying financial statements as either from distributable earnings or capital. Certain components of the Funds' net assets on the Statements of Assets and Liabilities reflect permanent GAAP/tax differences based on the appropriate tax character.

E. Foreign Currency Translation — The accounting records and reporting currency of a Fund are maintained in U.S. dollars. Assets and liabilities denominated in foreign currencies are translated into U.S. dollars using the current exchange rates at the close of each business day. The effect of changes in foreign currency exchange rates on investments is included within net realized and unrealized gain (loss) on investments. Changes in the value of other assets and liabilities as a result of fluctuations in foreign

March 31, 2025

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

exchange rates are included in the Statements of Operations within net change in unrealized gain (loss) on foreign currency translation. Transactions denominated in foreign currencies are translated into U.S. dollars on the date the transaction occurred, the effects of which are included within net realized gain (loss) on foreign currency transactions.

#### 3. INVESTMENTS AND FAIR VALUE MEASUREMENTS

U.S. GAAP defines the fair value of a financial instrument as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price); the Funds' policy is to use the market approach. GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety. The levels used for classifying investments are not necessarily an indication of the risk associated with investing in these investments. The three levels of the fair value hierarchy are described below:

Level 1 — Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 — Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including, but not limited to, quoted prices for similar investments, interest rates, foreign exchange rates, volatility and credit spreads), either directly or indirectly;

Level 3 — Prices or valuations that require significant unobservable inputs (including GSAM's assumptions in determining fair value measurement).

The Board of Trustees ("Trustees") has approved Valuation Procedures that govern the valuation of the portfolio investments held by the Funds, including investments for which market quotations are not readily available. With respect to the Funds' investments that do not have readily available market quotations, the Trustees have designated GSAM as the valuation designee to perform fair valuations pursuant to Rule 2a-5 under the Act (the "Valuation Designee"). GSAM has day-to-day responsibility for implementing and maintaining internal controls and procedures related to the valuation of the Funds' investments. To assess the continuing appropriateness of pricing sources and methodologies, GSAM regularly performs price verification procedures and issues challenges as necessary to third party pricing vendors or brokers, and any differences are reviewed in accordance with the Valuation Procedures.

A. Level 1 and Level 2 Fair Value Investments — The valuation techniques and significant inputs used in determining the fair values for investments classified as Level 1 and Level 2 are as follows:

Equity Securities — Equity securities traded on a United States ("U.S.") securities exchange or the NASDAQ system, or those located on certain foreign exchanges, including but not limited to the Americas, are valued daily at their last sale price or official closing price on the principal exchange or system on which they are traded. If there is no sale or official closing price or such price is believed by GSAM to not represent fair value, equity securities will be valued at the valid closing bid price for long positions and at the valid closing ask price for short positions (i.e., where there is sufficient volume, during normal exchange trading hours). If no valid bid/ask price is available, the equity security will be valued pursuant to the Valuation Procedures and consistent with applicable regulatory guidance. To the extent these investments are actively traded, they are classified as Level 1 of the fair value hierarchy, otherwise they are generally classified as Level 2. Certain equity securities containing unique attributes may be classified as Level 2.

Unlisted equity securities for which market quotations are available are valued at the last sale price on the valuation date, or if no sale occurs, at the last bid price for long positions or the last ask price for short positions, and are generally classified as Level 2. Securities traded on certain foreign securities exchanges are valued daily at fair value determined by an independent fair value service (if available) under the Valuation Procedures and consistent with applicable regulatory guidance. The independent fair

#### 3. INVESTMENTS AND FAIR VALUE MEASUREMENTS (continued)

value service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are generally classified as Level 2 of the fair value hierarchy.

Money Market Funds — Investments in the Goldman Sachs Financial Square Government Fund ("Underlying Money Market Fund") are valued at the NAV per share of the Institutional Shares class on the day of valuation. These investments are generally classified as Level 1 of the fair value hierarchy. For information regarding the Underlying Money Market Fund's accounting policies and investment holdings, please see the Underlying Money Market Fund's shareholder report.

Debt Securities — Debt securities for which market quotations are readily available are valued daily on the basis of quotations supplied by dealers or an independent pricing service. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date or (ii) quotations from securities dealers to determine current value. With the exception of treasury securities of G7 countries, which are generally classified as Level 1, these investments are generally classified as Level 2 of the fair value hierarchy.

- i. Commercial Paper Commercial paper normally represents short-term unsecured promissory notes issued in bearer form by banks or bank holding companies, corporations, finance companies and other issuers. Commercial paper consists of direct U.S. dollar-denominated obligations of domestic or foreign issuers. Asset-backed commercial paper is issued by a special purpose entity that is organized to issue the commercial paper and to purchase trade receivables or other financial assets.
- ii. Inverse Floaters The interest rate on inverse floating rate securities ("inverse floaters") resets in the opposite direction from the market rate of interest to which the inverse floaters are indexed. An inverse floater may be considered to be leveraged to the extent that its interest rate varies by a magnitude that exceeds the magnitude of the change in the index rate of interest. The higher the degree of leverage of an inverse floater, the greater the volatility of its market value.
- iii. Mortgage-Backed and Asset-Backed Securities Mortgage-backed securities represent direct or indirect participations in, or are collateralized by and payable from, mortgage loans secured by residential and/or commercial real estate property. Asset-backed securities include securities whose principal and interest payments are collateralized by pools of other assets or receivables. The value of certain mortgage-backed and asset-backed securities (including adjustable rate mortgage loans) may be particularly sensitive to changes in prevailing interest rates. The value of these securities may also fluctuate in response to the market's perception of the creditworthiness of the issuers.

Asset-backed securities may present credit risks that are not presented by mortgage-backed securities because they generally do not have the benefit of a security interest in collateral that is comparable to mortgage assets. Some asset-backed securities may only have a subordinated claim on collateral.

Stripped mortgage-backed securities are usually structured with two different classes: one that receives substantially all interest payments (interest-only, or "IO" and/or high coupon rate with relatively low principal amount, or "IOette"), and the other that receives substantially all principal payments (principal-only, or "PO") from a pool of mortgage loans. Little to no principal will be received at the maturity of an IO; as a result, periodic adjustments are recorded to reduce the cost of the security until maturity. These adjustments are included in interest income.

- iv. Treasury Inflation Protected Securities TIPS are treasury securities in which the principal amount is adjusted daily to keep pace with inflation, as measured by the U.S. Consumer Pricing Index for Urban Consumers. The repayment of the original bond principal upon maturity is guaranteed by the full faith and credit of the U.S. Government.
- v. When-Issued Securities and Forward Commitments When-issued securities, including TBA ("To Be Announced") securities, are securities that are authorized but not yet issued in the market and purchased in order to secure what is considered to be an advantageous price or yield to a Fund. A forward commitment involves entering into a contract to purchase or sell securities, typically on an extended settlement basis, for a fixed price at a future date. The purchase of securities on a when-issued or forward commitment basis involves a risk of loss if the value of the security to be purchased declines before the settlement date. Conversely, the sale of securities on a forward commitment basis involves the risk that the

March 31, 2025

#### 3. INVESTMENTS AND FAIR VALUE MEASUREMENTS (continued)

value of the securities sold may increase before the settlement date. Although a Fund will generally purchase securities on a when-issued or forward commitment basis with the intention of acquiring the securities for its portfolio, the Fund may dispose of when-issued securities or forward commitments prior to settlement, which may result in a realized gain or loss. For financial reporting purposes, cash collateral that has been pledged to cover obligations of a Fund and cash collateral received, if any, is reported separately on the Statements of Assets and Liabilities as receivables/payables for collateral on other investments. Non-cash collateral pledged by a Fund, if any, is noted in the Schedules of Investments.

vi. Repurchase Agreements — Repurchase agreements involve the purchase of securities subject to the seller's agreement to repurchase the securities at a mutually agreed upon date and price, under the terms of a Master Repurchase Agreement ("MRA"). During the term of a repurchase agreement, the value of the underlying securities held as collateral on behalf of a Fund, including accrued interest, is required to exceed the value of the repurchase agreement, including accrued interest. The gross value of repurchase agreements is included in the Statements of Assets and Liabilities for financial reporting purposes. The underlying securities for all repurchase agreements are held at the Funds' custodian or designated sub-custodians under tri-party repurchase agreements.

An MRA governs transactions between a Fund and select counterparties. An MRA contains provisions for, among other things, initiation of the transaction, income payments, events of default, and maintenance of securities for repurchase agreements. An MRA also permits offsetting with collateral to create one single net payment in the event of default or similar events, including the bankruptcy or insolvency of a counterparty.

If the seller defaults, a Fund could suffer a loss to the extent that the proceeds from the sale of the ;underlying securities and other collateral held by the Fund are less than the repurchase price and the Fund's costs associated with delay and enforcement of the repurchase agreement. In addition, in the event of default or insolvency of the seller, a court could determine that a Fund's interest in the collateral is not enforceable, resulting in additional losses to the Fund.

Pursuant to exemptive relief granted by the Securities and Exchange Commission and terms and conditions contained therein, the Funds, together with other funds of the Trust and registered investment companies having management agreements with GSAM or its affiliates, may transfer uninvested cash into joint accounts, the daily aggregate balance of which is invested in one or more repurchase agreements. Under these joint accounts, the Funds maintain pro-rata credit exposure to the underlying repurchase agreements' counterparties. With the exception of certain transaction fees, the Funds are not subject to any expenses in relation to these investments.

Derivative Contracts — A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. A Fund enters into derivative transactions to hedge against changes in interest rates, securities prices, and/or currency exchange rates, to increase total return, or to gain access to certain markets or attain exposure to other underliers. For financial reporting purposes, cash collateral that has been pledged to cover obligations of a Fund and cash collateral received, if any, is reported separately on the Statements of Assets and Liabilities as either due to broker/receivable for collateral on certain derivative contracts. Non-cash collateral pledged by a Fund, if any, is noted in the Schedules of Investments.

Exchange-traded derivatives, including futures and options contracts, are generally valued at the last sale or settlement price on the exchange where they are principally traded. Exchange-traded options without settlement prices are generally valued at the midpoint of the bid and ask prices on the exchange where they are principally traded (or, in the absence of two-way trading, at the last bid price for long positions and the last ask price for short positions). Exchange-traded derivatives typically fall within Level 1 of the fair value hierarchy. Over-the-counter ("OTC") and centrally cleared derivatives are valued using market transactions and other market evidence, including market-based inputs to models, calibration to market-clearing transactions, broker or dealer quotations, or other alternative pricing sources. Where models are used, the selection of a particular model to value OTC and centrally cleared derivatives depends upon the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. Valuation models require a variety of inputs, including contractual terms, market prices, yield curves, credit curves, measures of volatility, voluntary and involuntary prepayment rates, loss severity rates and correlations of such inputs. For OTC and centrally cleared derivatives that trade in liquid markets, model inputs can generally be verified and model selection does not involve significant management judgment. OTC and centrally cleared derivatives are classified within Level 2 of the fair value hierarchy when significant inputs are corroborated by market evidence.

### 3. INVESTMENTS AND FAIR VALUE MEASUREMENTS (continued)

i. Forward Contracts — A forward contract is a contract between two parties to buy or sell an asset at a specified price on a future date. A forward contract settlement can occur on a cash or delivery basis. Forward contracts are marked-to-market daily using independent vendor prices, and the change in value, if any, is recorded as an unrealized gain or loss. Cash and certain investments may be used to collateralize forward contracts.

A forward foreign currency exchange contract is a forward contract in which a Fund agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. All forward foreign currency exchange contracts are marked to market daily by using the outright forward rates or interpolating based upon maturity dates, where available. Non-deliverable forward foreign currency exchange contracts are settled with the counterparty in cash without the delivery of foreign currency.

- ii. Futures Contracts Futures contracts are contracts to buy or sell a standardized quantity of a specified commodity or security. Upon entering into a futures contract, a Fund deposits cash or securities in an account on behalf of the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by a Fund equal to the daily change in the contract value and are recorded as variation margin receivable or payable with a corresponding offset to unrealized gains or losses.
- iii. Options When a Fund writes call or put options, an amount equal to the premium received is recorded as a liability and is subsequently marked-to-market to reflect the current value of the option written. Swaptions are options on swap contracts

Upon the purchase of a call option or a put option by a Fund, the premium paid is recorded as an investment and subsequently marked-to-market to reflect the current value of the option. Certain options may be purchased with premiums to be determined on a future date. The premiums for these options are based upon implied volatility parameters at specified terms.

iv. Swap Contracts — Bilateral swap contracts are agreements in which a Fund and a counterparty agree to exchange periodic payments on a specified notional amount or make a net payment upon termination. Bilateral swap transactions are privately negotiated in the OTC market and payments are settled through direct payments between a Fund and the counterparty. By contrast, certain swap transactions are subject to mandatory central clearing. These swaps are executed through a derivatives clearing member ("DCM"), acting in an agency capacity, and submitted to a central counterparty ("CCP") ("centrally cleared swaps"), in which case all payments are settled with the CCP through the DCM. Swaps are marked-to-market daily using pricing vendor quotations, counterparty or clearinghouse prices or model prices, and the change in value, if any, is recorded as an unrealized gain or loss. Upon entering into a swap contract, a Fund is required to satisfy an initial margin requirement by delivering cash or securities to the counterparty (or in some cases, segregated in a triparty account on behalf of the counterparty), which can be adjusted by any mark-to-market gains or losses pursuant to bilateral or centrally cleared arrangements. For centrally cleared swaps the daily change in valuation, if any, is recorded as a receivable or payable for variation margin.

An *interest rate swap* is an agreement that obligates two parties to exchange a series of cash flows at specified intervals, based upon or calculated by reference to changes in interest rates on a specified notional principal amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

A *credit default swap* is an agreement that involves one party (the buyer of protection) making a stream of payments to another party (the seller of protection) in exchange for the right to receive protection on a reference security or obligation, including a group of assets or exposure to the performance of an index. A Fund's investment in credit default swaps may involve greater risks than if the Fund had invested in the referenced obligation directly. Credit events are contract specific but may include bankruptcy, failure to pay, restructuring and obligation acceleration. If a Fund buys protection through a credit default swap and no credit event occurs, its payments are limited to the periodic payments previously made to the counterparty. Upon the occurrence of a specified credit event, a Fund, as a buyer of credit protection, is entitled to receive an amount equal to the notional amount of the swap and deliver to the seller the defaulted reference obligation in a physically settled trade. A Fund may also receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap reduced by the recovery value of the reference obligation in a cash settled trade.

March 31, 2025

#### 3. INVESTMENTS AND FAIR VALUE MEASUREMENTS (continued)

As a seller of protection, a Fund generally receives a payment stream throughout the term of the swap, provided that there is no credit event. In addition, if a Fund sells protection through a credit default swap, a Fund could suffer a loss because the value of the referenced obligation and the premium payments received may be less than the notional amount of the swap paid to the buyer of protection. Upon the occurrence of a specified credit event, a Fund, as a seller of credit protection, may be required to take possession of the defaulted reference obligation and pay the buyer an amount equal to the notional amount of the swap in a physically settled trade. A Fund may also pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap reduced by the recovery value of the reference obligation in a cash settled trade. Recovery values are at times established through the credit event auction process in which market participants are ensured that a transparent price has been set for the defaulted security or obligation. In addition, a Fund is entitled to a return of any assets, which have been pledged as collateral to the counterparty upon settlement.

The maximum potential amount of future payments (undiscounted) that a Fund as seller of protection could be required to make under a credit default swap would be an amount equal to the notional amount of the agreement. These potential amounts would be partially offset by any recovery values of the respective referenced obligations or net amounts received from a settlement of a credit default swap for the same reference security or obligation where a Fund bought credit protection.

B. Level 3 Fair Value Investments — To the extent that significant inputs to valuation models and other alternative pricing sources are unobservable, or if quotations are not readily available, or if GSAM believes that such quotations do not accurately reflect fair value, the fair value of a Fund's investments may be determined under the Valuation Procedures. GSAM, consistent with its procedures and applicable regulatory guidance, may make an adjustment to the most recent valuation prices of either domestic or foreign securities in light of significant events to reflect what it believes to be the fair value of the securities at the time of determining a Fund's NAV. To the extent investments are valued using single source broker quotations obtained directly from the broker or passed through from third party pricing vendors, such investments are classified as Level 3 investments.

C. Fair Value Hierarchy — The following is a summary of the Funds' investments and derivatives classified in the fair value hierarchy as of March 31, 2025:

#### **ENHANCED INCOME FUND**

<sup>(</sup>a) Amount shown represents unrealized gain (loss) at period end.

For further information regarding security characteristics, see the Schedules of Investments.

<sup>(</sup>b) Amounts are disclosed by continent to highlight the impact of time zone differences between local market close and the calculation of NAV. Security valuations are based on the principal exchange or system on which they are traded, which may differ from country of domicile. The Fund utilizes fair value model prices provided by an independent fair value service for international equities, resulting in a Level 2 classification.

### 4. INVESTMENTS IN DERIVATIVES

The following tables set forth, by certain risk types, the gross value of derivative contracts (not considered to be hedging instruments for accounting disclosure purposes) as of March 31, 2025. These instruments were used as part of the Funds' investment strategies and to obtain and/or manage exposure related to the risks below. The values in the tables below exclude the effects of cash collateral received or posted pursuant to these derivative contracts, and therefore are not representative of the Funds' net exposure.

Enhanced Inc	ome Fund Statements of Assets and Liabilities	Assets	Statements of Assets and Liabilities	Liabilities

Interest rate	Variation margin on futures contracts; Variation margin on swap contracts	60,863 <sup>(a)</sup>	Variation margin on futures contracts; Variation margin on swap contracts		(229,773) <sup>(a)</sup>
Total		\$ 60,863		\$	(263,029)

- (a) Includes unrealized gain (loss) on futures contracts and centrally cleared swaps described in the Additional Investment Information section of the Schedules of Investments. Only current day's variation margin is reported within the Statements of Assets and Liabilities.
- (b) Aggregate of amounts includes \$23,818 and \$9,005 for the Short Duration Bond and U.S. Mortgages Funds, respectively, which represents the payments to be made pursuant to bilateral agreements should counterparties exercise their "right to terminate" provisions based on, among others, the Fund's performance, its failure to pay on its obligations or failure to pledge collateral. Such amounts do not include incremental charges directly associated with the close-out of the agreements. They also do not reflect the fair value of any assets pledged as collateral which, through the daily margining process, substantially offsets the aforementioned amounts and for which the Fund is entitled to a full return.

The following tables set forth, by certain risk types, the Funds' gains (losses) related to these derivatives and their indicative volumes for the fiscal year ended March 31, 2025. These gains (losses) should be considered in the context that these derivative contracts may have been executed to create investment opportunities and/or economically hedge certain investments, and accordingly, certain gains (losses) on such derivative contracts may offset certain (losses) gains attributable to investments. These gains (losses) are included in "Net realized gain (loss)" or "Net change in unrealized gain (loss)" on the Statements of Operations:

#### **Enhanced Income Fund**

Risk	Statements of Operations	Net Realized Gain (Loss)	Net Change in Unrealized Gain (Loss)
Currency	Net realized gain (loss) from forward foreign currency exchange contracts/Net change in unrealized gain (loss) on forward foreign currency exchange contracts	\$ 312,296	\$ (160,956)

### 4. INVESTMENTS IN DERIVATIVES (continued)

For the fiscal year ended March 31, 2025, the relevant values for each derivative type were as follows:

Average Number of Contracts, Notional Amounts, or Shares/Units<sup>(a)</sup>

Fund	Futures Contracts	Forward Contracts	Swap Agreements	Purchased Swaptions	Written Swaptions
Enhanced Income Fund	776	\$ 4,899,436	\$ 262,196,167	\$ —	\$36,800,000
Government Income Fund	208	_	81,117,700	1,140,000	12,800,000
Inflation Protected Securities Fund	870	_	224,187,517	2,280,000	50,060,000
Short Duration Bond Fund	3,374	238,750,392	2,315,119,540	64,597,432	74,211,724
Short Duration Government Fund	1,692	_	247,501,308	_	35,920,000
U.S. Mortgages Fund	183	699,667	85,324,405	1,180,000	13,540,000

<sup>(</sup>a) Amounts disclosed represent average number of contracts for futures contracts, notional amounts for forward contracts, swap agreements, purchased and written swaptions, based on absolute values, which is indicative of volume for this derivative type, for the months that each Fund held such derivatives during the fiscal year ended March 31, 2025.

### 5. AGREEMENTS AND AFFILIATED TRANSACTIONS

A. Management Agreement — Under the Agreement, GSAM manages the Funds, subject to the general supervision of the Trustees

As compensation for the services rendered pursuant to the Agreement, the assumption of the expenses related thereto and administration of the Funds' business affairs, including providing facilities, GSAM is entitled to a management fee, accrued daily and paid monthly, equal to an annual percentage rate of each Fund's average daily net assets.

For the fiscal year ended March 31, 2025, contractual and effective net management fees with GSAM were at the following rates:

Contractual Management Rate							
Fund	First \$1 billion	Next \$1 billion	Next \$3 billion	Next \$3 billion	Over \$8 billion	Effective Rate	Effective Net Management Rate^
Enhanced Income Fund	0.25%	0.23%	0.22%	0.22%	0.22%	0.25%	0.25%
Government Income Fund	0.53	0.48	0.45	0.44	0.44	0.53	0.46+
Inflation Protected Securities Fund	0.26	0.23	0.22	0.22	0.21	0.26	0.26
Short Duration Bond Fund	0.40	0.36	0.34	0.33	0.32	0.39	0.39
Short Duration Government Fund	0.44	0.40	0.38	0.37	0.36	0.44	0.44
Short-Term Conservative Income Fund	0.25	0.25	0.25	0.25	0.25	0.25	0.19*
U.S. Mortgages Fund	0.34	0.31	0.29	0.28	0.28	0.34	0.34

<sup>^</sup> Effective Net Management Rate includes the impact of management fee waivers of affiliated underlying funds, if any.

The Investment Adviser has agreed to waive a portion of its management fee in order to achieve an effective net management fee rate of 0.46% as an annual percentage of the Fund's average daily net assets of the Government Income Fund. This arrangement will remain in effect through at least July 29, 2025.

<sup>\*</sup> The Investment Adviser agreed to waive a portion of its management fee in order to achieve an effective net management fee rate of 0.20% as an annual percentage rate of the Fund's average daily net assets. This arrangement will remain in effect through at least July 29, 2025.

### 5. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

The Funds invest in Institutional Shares of the Goldman Sachs Financial Square Government Fund, which is an affiliated Underlying Fund. GSAM has agreed to waive a portion of its management fee payable by the Funds in an amount equal to the management fee it earns as an investment adviser to the affiliated Underlying Fund in which the Funds invest. For the fiscal year ended March 31, 2025, the management fee waived by GSAM for each Fund was as follows:

Fund	Management Fee Waived
Enhanced Income Fund	\$ 23,904
Government Income Fund	986
Inflation Protected Securities Fund	5,057
Short Duration Bond Fund	27,681
Short Duration Government Fund	6,168
Short-Term Conservative Income Fund	227,527
U.S. Mortgages Fund	2,576

B. Distribution and/or Service (12b-1) Plans — The Trust, on behalf of Class A and Class R Shares of each applicable Fund, has adopted Distribution and Service Plans subject to Rule 12b-1 under the Act. Under the Distribution and Service Plans, Goldman Sachs, which serves as distributor (the "Distributor"), is entitled to a fee accrued daily and paid monthly for distribution services and personal and account maintenance services, which may then be paid by Goldman Sachs to authorized dealers. These fees are equal to an annual percentage rate of the average daily net assets attributable to Class A or Class R Shares of the Funds, as applicable, as set forth below.

The Trust, on behalf of Class C Shares of each applicable Fund, has adopted a Distribution Plan subject to Rule 12b-1 under the Act. Under the Distribution Plan, Goldman Sachs as Distributor is entitled to a fee accrued daily and paid monthly for distribution services, which may then be paid by Goldman Sachs to authorized dealers. These fees are equal to an annual percentage rate of the average daily net assets attributable to Class C Shares of the Funds, as set forth below.

The Trust, on behalf of Service Shares of each applicable Fund, has adopted a Service Plan subject to Rule 12b-1 under the Act to allow Service Shares to compensate service organizations (including Goldman Sachs) for providing personal and account maintenance services to their customers who are beneficial owners of such shares. The Service Plan provides for compensation to the service organizations equal to an annual percentage rate of the average daily net assets attributable to Service Shares of the Funds, as set forth below.

March 31, 2025

U.S. Mortgages Fund

5. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)				
	Di	stribution and/or	Service Plan Ra	tes
Fund	Class A*	Class C	Service	Class R*
Enhanced Income Fund	0.15%	%	0.25%	%
Government Income Fund	0.25	0.75	0.25	0.50
Inflation Protected Securities Fund	0.25	0.75	_	0.50
Short Duration Bond Fund	0.25	0.75	_	0.50
Short Duration Government Fund	0.25	0.75	0.25	_
Short-Term Conservative Income Fund	0.15	_	_	_

<sup>\*</sup> With respect to Class A and Class R Shares, the Distributor at its discretion may use compensation for distribution services paid under the Distribution and/or Service Plan to compensate service organizations for personal and account maintenance services and expenses as long as such total compensation does not exceed the maximum cap on "service fees" imposed by the Financial Industry Regulatory Authority.

0.25

Goldman Sachs has agreed to waive a portion of the distribution (12b-1) and service fees applicable to the Short Duration Government Fund's and Short Duration Bond Fund's Class C Shares in an amount equal to 0.35% of the average daily net assets. These arrangements will remain in place through at least July 29, 2025, and prior to such date Goldman Sachs may not terminate the arrangements without the approval of the Board of Trustees. These fee waivers may be modified or terminated by Goldman Sachs at its discretion and without shareholder approval after such date, although Goldman Sachs does not presently intend to do so.

C. Distribution Agreement — Goldman Sachs, as Distributor of the shares of the Funds pursuant to a Distribution Agreement, may retain a portion of the Class A Shares' front end sales charge and Class C Shares' CDSC. During the fiscal year ended March 31, 2025, Goldman Sachs retained the following amounts:

	Front End Sales Charge
Fund	Class A
Government Income Fund	\$ 741
Inflation Protected Securities Fund	1,026
Short Duration Bond Fund	3,041
Short Duration Government Fund	850
U.S. Mortgages Fund	1,113

During the fiscal year ended March 31, 2025, Goldman Sachs did not retain any portion of Class C Shares' CDSC.

D. Administration, Service and/or Shareholder Administration Plans — The Trust, on behalf of each applicable Fund, has adopted Administration, Service and/or Shareholder Administration Plans to allow Administration, Class C and Service Shares, as applicable, to compensate service organizations (including Goldman Sachs) for providing varying levels of account administration and/or personal and account maintenance services to their customers who are beneficial owners of such shares. The Administration, Service and Shareholder Administration Plans each provide for compensation to the service organizations equal to an annual percentage rate of 0.25%, 0.25% and 0.25% of the average daily net assets attributable to Administration, Class C and Service Shares of the Funds, as applicable.

#### 5. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

E. Transfer Agency Agreement — Goldman Sachs also serves as the transfer agent of the Funds for a fee pursuant to the Transfer Agency Agreement. The fees charged for such transfer agency services are accrued daily and paid monthly at annual rates as follows: 0.12% of the average daily net assets of Class A, Class C, Investor and Class R Shares; 0.03% of the average daily net assets of Class R6 and Class P Shares; and 0.04% of the average daily net assets of Administration, Institutional, Service Shares and 0.03% of the average daily net assets with respect to the U.S. Mortgages Fund's Separate Account Institutional Shares.

Goldman Sachs has agreed to waive a portion of its transfer agency fee (a component of "Other Expenses") equal to 0.02% as an annual percentage rate of the average daily net assets attributable to Class A, Class C, Investor, and Class R Shares of the Government Income Fund and Short Duration Bond Fund through at least July 29, 2025, and prior to such date, Goldman Sachs may not terminate the arrangement without the approval of the Board of Trustees.

F. Other Expense Agreements and Affiliated Transactions — GSAM has agreed to reduce or limit certain "Other Expenses" of the Funds (excluding acquired fund fees and expenses, transfer agency fees and expenses, service fees and shareholder administration fees (as applicable), taxes, interest, brokerage fees, expenses of shareholder meetings, litigation and indemnification, and extraordinary expenses) to the extent such expenses exceed, on an annual basis, a percentage rate of the average daily net assets of each Fund. Such Other Expense reimbursements, if any, are accrued daily and paid monthly. In addition, the Funds are not obligated to reimburse GSAM for prior fiscal year expense reimbursements, if any. The Other Expense limitations as an annual percentage rate of average daily net assets for the Enhanced Income, Government Income, Inflation Protected Securities, Short Duration Bond, Short Duration Government, Short-Term Conservative Income and U.S. Mortgages Funds are 0.064%, 0.004%, 0.044%, 0.014%, 0.004%, 0.004% and 0.074%, respectively. These Other Expense limitations will remain in place through at least July 29, 2025, and prior to such date GSAM may not terminate the arrangements without the approval of the Trustees. In addition, the Funds have entered into certain offset arrangements with the transfer agent, which may result in a reduction of the Funds' expenses and are received irrespective of the application of the "Other Expense" limitations described above.

For the fiscal year ended March 31, 2025, these expense reductions, including any fee waivers and Other Expense reimbursements, were as follows:

Fund	Management Fee Waiver	Class C Distributions and Service Fees	Transfer Agency Waivers/Credits	Other Expense Reimbursements	Total Expense Reductions
Enhanced Income Fund	\$ 23,904	\$ —	\$ 163	\$ 98,207	\$ 122,274
Government Income Fund	86,265	_	10,648	483,115	580,028
Inflation Protected Securities Fund	5,057	_	475	362,327	367,859
Short Duration Bond Fund	27,681	6,588	19,368	478,370	532,007
Short Duration Government Fund	6,168	10,999	590	481,050	498,807
Short-Term Conservative Income Fund	1,207,286	_	2,019	595,618	1,804,923
U.S. Mortgages Fund	2,576	_	229	272,287	275,092

G. Line of Credit Facility — As of March 31, 2025, the Funds participated in a \$1,150,000,000 committed, unsecured revolving line of credit facility (the "facility") together with other funds of the Trust and certain registered investment companies having management agreements with GSAM or its affiliates. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on the federal funds rate. The facility also requires a fee to be paid by the Funds based on the amount of the commitment that has not been utilized. For the fiscal year ended March 31, 2025, the Funds did not have any borrowings under the facility. Prior to April 16, 2024, the facility was \$1,110,000,000. The facility was changed to \$1,300,000,000 on April 14, 2025.

March 31, 2025

### 5. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

H. Other Transactions with Affiliates — For the fiscal year ended March 31, 2025, Goldman Sachs earned \$22,075, \$9,291, \$30,069, \$113,511, \$46,563 and \$13,860 in brokerage commissions from portfolio transactions, including futures transactions executed with Goldman Sachs as the Futures Commission Merchant, on behalf of the Enhanced Income, Government Income, Inflation Protected Securities, Short Duration Bond, Short Duration Government and U.S. Mortgages Funds, respectively.

As of March 31, 2025, the following Funds were the beneficial owners of 5% or more of total outstanding shares of the following Funds:

Fund	Goldman Sachs Balanced Strategy Portfolio	Goldman Sachs Growth and Income Portfolio	Goldman Sachs Collective Trust Tactical Exposure Fund
Inflation Protected Securities Fund	8%	14%	<b>—</b> %
Short-Term Conservative Income Fund	_	_	5

As of March 31, 2025, The Goldman Sachs Group, Inc. was the beneficial owner of 5% or more of total outstanding shares of the following Funds:

Fund	Service	Class R
Enhanced Income Fund	40%	%
Short Duration Bond Fund	_	41

The table below shows the transactions in and earnings from investments in the Underlying Funds for the fiscal year ended March 31, 2025:

Fund	Underlying Fund	Beginning Value as of March 31, 2024	Purchases at Cost	Proceeds from Sales	Ending Value as of March 31, 2025	Shares as of March 31, 2025	Dividend Income

<sup>(1)</sup> The Short-Term Conservative Income Fund utilized \$6,929,128 of capital losses in the current fiscal year.

As of March 31, 2025, the Funds' aggregate security unrealized gains and losses based on cost for U.S. federal income tax purposes were as follows:

			Inflation			Short-Term	
	Enhanced Income	Government Income	Protected Securities	Short Duration Bond	Short Duration Government	Conservative Income	U.S. Mortgages
Tax Cost	\$588,836,68	3 \$146,442,692	\$205,869,958	\$1,273,420,543	\$479,809,459	\$2,066,551,974	\$250,860,297
Gross unrealized gain Gross unrealized loss	1,816,775 (1,942,50)	<i>'</i>	1,853,795 (62,182)	12,012,991 (8,627,740)	1,137,453 (9,998,282)	4,794,896 (705,415)	1,309,624 (9,326,355)
Net unrealized gain (loss)	\$ (125,72	5) \$ (5,147,694)	\$ 1,791,613	\$ 3,385,251	\$ (8,860,829)	\$ 4,089,481	\$ (8,016,731)

#### 7. TAX INFORMATION (continued)

The difference between GAAP- basis and tax basis unrealized gains (losses) is attributable primarily to wash sales, net mark to market gains/(losses) on regulated futures contracts and net mark to market gains (losses) on foreign currency contracts, and differences in the tax treatment of market discount accretion and premium amortization and swap transactions.

GSAM has reviewed the Funds' tax positions for all open tax years (the current and prior three years, as applicable) and has concluded that no provision for income tax is required in the Funds' financial statements. Such open tax years remain subject to examination and adjustment by tax authorities.

### 8. OTHER RISKS

The Funds' risks include, but are not limited to, the following:

Asset-Backed Securities Risk — Asset-backed securities are subject to credit/default, interest rate and certain additional risks, including "extension risk" (i.e., in periods of rising interest rates, issuers may pay principal later than expected) and "prepayment risk" (i.e., in periods of declining interest rates, issuers may pay principal more quickly than expected, causing the Funds to reinvest proceeds at lower prevailing interest rates). Due to these risks, asset-backed securities may become more volatile in certain interest rate environments. Asset-backed securities are subject to risks similar to those associated with mortgage-backed securities, as well as risks associated with the nature and servicing of the assets backing the securities. Asset-backed securities may not have the benefit of a security interest in collateral comparable to that of mortgage assets, resulting in additional credit risk.

Call/Prepayment Risk — An issuer could exercise its right to pay principal on an obligation held by a Fund (such as a mortgage-backed security) earlier than expected. This may happen when there is a decline in interest rates, when credit spreads change, or when an issuer's credit quality improves. Under these circumstances, a Fund may be unable to recoup all of its initial investment and will also suffer from having to reinvest in lower-yielding securities.

Derivatives Risk — The Funds' use of derivatives and other similar instruments (collectively referred to in this paragraph as "derivatives") may result in loss, including due to adverse market movements. Derivatives, which may pose risks in addition to and greater than those associated with investing directly in securities, currencies or other assets and instruments, may increase market exposure and be illiquid or less liquid, volatile, difficult to price and leveraged so that small changes in the value of the underlying assets or instruments may produce disproportionate losses to the Funds. Certain derivatives are also subject to counterparty risk, which is the risk that the other party in the transaction will not, or lacks the capacity or authority to, fulfill its contractual obligations, liquidity risk, which includes the risk that the Funds will not be able to exit the derivative when it is advantageous to do so, and risks arising from margin requirements, which include the risk that the Funds will be required to pay additional margin or set aside additional collateral to maintain open derivative positions. The use of derivatives is a highly specialized activity that involves investment techniques and risks different from those associated with investments in more traditional securities and instruments. Losses from derivatives can also result from a lack of correlation between changes in the value of derivative instruments and the portfolio assets (if any) being hedged.

Interest Rate Risk — When interest rates increase, fixed income securities or instruments held by a Fund will generally decline in value. Long-term fixed income securities or instruments will normally have more price volatility because of this risk than short-term fixed income securities or instruments. A wide variety of market factors can cause interest rates to rise, including central bank monetary policy, rising inflation and changes in general economic conditions. Changing interest rates may have unpredictable effects on the markets, may result in heightened market volatility and may detract from Fund performance. In addition, changes in monetary policy may exacerbate the risks associated with changing interest rates. Funds with longer average portfolio durations will generally be more sensitive to changes in interest rates than funds with a shorter average portfolio duration. Fluctuations in interest rates may also affect the liquidity of fixed income securities and instruments held by the Funds. A sudden or unpredictable increase in interest rates may cause volatility in the market and may decrease the liquidity of a Fund's investments, which would make it harder for the Fund to sell its investments at an advantageous time.

March 31, 2025

#### 8. OTHER RISKS (continued)

Investments in Other Investment Companies Risk — As a shareholder of another investment company, a Fund will indirectly bear its proportionate share of any net management fees and other expenses paid by such other investment companies, in addition to the fees and expenses regularly borne by the Fund. In addition, the Fund will be affected by the investment policies, practices and performance of such investment companies in direct proportion to the amount of assets the Fund invests therein.

Large Shareholder Transactions Risk — A Fund may experience adverse effects when certain large shareholders, such as other funds, institutional investors (including those trading by use of non-discretionary mathematical formulas), financial intermediaries (who may make investment decisions on behalf of underlying clients and/or include a Fund in their investment model), individuals, accounts and Goldman Sachs affiliates, purchase or redeem large amounts of shares of a Fund. Such large shareholder redemptions, which may occur rapidly or unexpectedly, may cause a Fund to sell portfolio securities at times when it would not otherwise do so, which may negatively impact a Fund's NAV and liquidity. These transactions may also accelerate the realization of taxable income to shareholders if such sales of investments resulted in gains, and may also increase transaction costs. In addition, a large redemption could result in a Fund's current expenses being allocated over a smaller asset base, leading to an increase in a Fund's expense ratio. Similarly, large Fund share purchases may adversely affect a Fund's performance to the extent that the Fund is delayed in investing new cash or otherwise maintains a larger cash position than it ordinarily would.

Liquidity Risk — A Fund may make investments that are illiquid or that may become less liquid in response to market developments or adverse investor perceptions. Illiquid investments may be more difficult to value. Liquidity risk may also refer to the risk that a Fund will not be able to pay redemption proceeds within the allowable time period or without significant dilution to remaining investors' interests because of unusual market conditions, declining prices of the securities sold, an unusually high volume of redemption requests, or other reasons. To meet redemption requests, a Fund may be forced to sell investments at an unfavorable time and/or under unfavorable conditions. If a Fund is forced to sell securities at an unfavorable time and/or under unfavorable conditions, such sales may adversely affect a Fund's NAV and dilute remaining investors' interests. Liquidity risk may be the result of, among other things, the reduced number and capacity of traditional market participants to make a market in fixed income securities or the lack of an active market. The potential for liquidity risk may be magnified by a rising interest rate environment or other circumstances where investor redemptions from fixed income funds may be higher than normal, potentially causing increased supply in the market due to selling activity. These risks may be more pronounced in connection with the Funds' investments in securities of issuers located in emerging market countries. Redemptions by large shareholders may have a negative impact on a Fund's liquidity.

Market and Credit Risks — In the normal course of business, a Fund trades financial instruments and enters into financial transactions where risk of potential loss exists due to changes in the market (market risk). The value of the securities in which a Fund invests may go up or down in response to the prospects of individual companies, particular sectors or governments and/or general economic conditions throughout the world due to increasingly interconnected global economies and financial markets. Events such as war, military conflict, geopolitical disputes, acts of terrorism, social or political unrest, natural disasters, recessions, inflation, rapid interest rate changes, supply chain disruptions, tariffs and other restrictions on trade, sanctions or the spread of infectious illness or other public health threats, or the threat or potential of one or more such events and developments, could also significantly impact a Fund and its investments. Additionally, a Fund may also be exposed to credit risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which a Fund has unsettled or open transactions defaults.

Mortgage-Backed and Other Asset-Backed Securities Risk — Mortgage-related and other asset-backed securities are subject to credit/ default, interest rate and certain additional risks, including "extension risk" (i.e., in periods of rising interest rates, issuers may pay principal later than expected) and "prepayment risk" (i.e., in periods of declining interest rates, issuers may pay principal more quickly than expected, causing the Funds to reinvest proceeds at lower prevailing interest rates). Due to these risks, asset-backed securities may become more volatile in certain interest rate environments. Mortgage-backed securities offered by non-governmental issuers are subject to other risks as well, including failures of private insurers to meet their obligations and unexpectedly high rates of default on the mortgages backing the securities, particularly during periods of rising interest rates. Other asset-backed securities are subject to risks similar to those associated with mortgage-backed securities, as well as risks associated

#### 8. OTHER RISKS (continued)

with the nature and servicing of the assets backing the securities. Asset-backed securities may not have the benefit of a security interest in collateral comparable to that of mortgage assets, resulting in additional credit risk.

**Portfolio Turnover Rate Risk** — A high rate of portfolio turnover may involve correspondingly greater expenses which must be borne by the Funds and their shareholders, and is also likely to result in short-term capital gains taxable to shareholders.

U.S. Government Securities Risk — The U.S. government may not provide financial support to U.S. government agencies, instrumentalities or sponsored enterprises if it is not obligated to do so by law. U.S. government securities issued by those agencies, instrumentalities and sponsored enterprises, including those issued by Fannie Mae, Freddie Mac and the Federal Home Loan Banks, are neither issued nor guaranteed by the U.S. Treasury and, therefore, are not backed by the full faith and credit of the United States. The maximum potential liability of the issuers of some U.S. government securities held by the Funds may greatly exceed their current resources, including any legal right to support from the U.S. Treasury. It is possible that issuers of U.S. government securities will not have the funds to meet their payment obligations in the future. Fannie Mae and Freddie Mac have been operating under conservatorship, with the Federal Housing Finance Agency ("FHFA") acting as their conservator, since September 2008. The entities are dependent upon the continued support of the U.S. Department of the Treasury and FHFA in order to continue their business operations. These factors, among others, could affect the future status and role of Fannie Mae and Freddie Mac and the value of their securities and the securities which they guarantee. Additionally, the U.S. government and its agencies and instrumentalities do not guarantee the market values of their securities, which may fluctuate.

### 9. INDEMNIFICATIONS

Under the Trust's organizational documents, its Trustees, officers, employees and agents are indemnified, to the extent permitted by the Act and state law, against certain liabilities that may arise out of performance of their duties to the Funds. Additionally, in the course of business, the Funds enter into contracts that contain a variety of indemnification clauses. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, GSAM believes the risk of loss under these arrangements to be remote.

### 10. OTHER MATTERS

The Funds adopted Financial Accounting Standards Board Accounting Standards Update 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures. Each Fund operates in one segment. The segment derives its revenues from Fund investments made in accordance with the defined investment strategy of the Fund, as prescribed in the Funds' prospectus. The Chief Operating Decision Maker ("CODM") is the Investment Adviser. The CODM monitors and actively manages the operating results of each Fund. The financial information the CODM leverages to assess the segment's performance and to make decisions for the Funds' single segment, is consistent with that presented within the Fund's financial statements.

### 11. SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date of issuance, and GSAM has concluded that there is no impact requiring adjustment or disclosure in the financial statements.

# Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Goldman Sachs Trust and Shareholders of Goldman Sachs Enhanced Income Fund, Goldman Sachs Government Income Fund, Goldman Sachs Inflation Protected Securities Fund, Goldman Sachs Short Duration Government Fund, Goldman Sachs Short Duration Bond Fund, Goldman Sachs Short-Term Conservative Income Fund and Goldman Sachs U.S. Mortgages Fund

#### **Opinions on the Financial Statements**

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Goldman Sachs Enhanced Income Fund, Goldman Sachs Government Income Fund, Goldman Sachs Inflation Protected Securities Fund, Goldman Sachs Short Duration Government Fund, Goldman Sachs Short Duration Bond Fund, Goldman Sachs Short-Term Conservative Income Fund and Goldman Sachs U.S. Mortgages Fund (seven of the funds constituting Goldman Sachs Trust, hereafter collectively referred to as the "Funds") as of March 31, 2025, the related statements of operations for the year ended March 31, 2025, the statements of changes in net assets for each of the two years in the period ended March 31, 2025, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of March 31, 2025, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended March 31, 2025 and each of the financial highlights for each of the periods indicated therein in conformity with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of March 31, 2025, by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

/s/ PricewaterhouseCoopers LLP

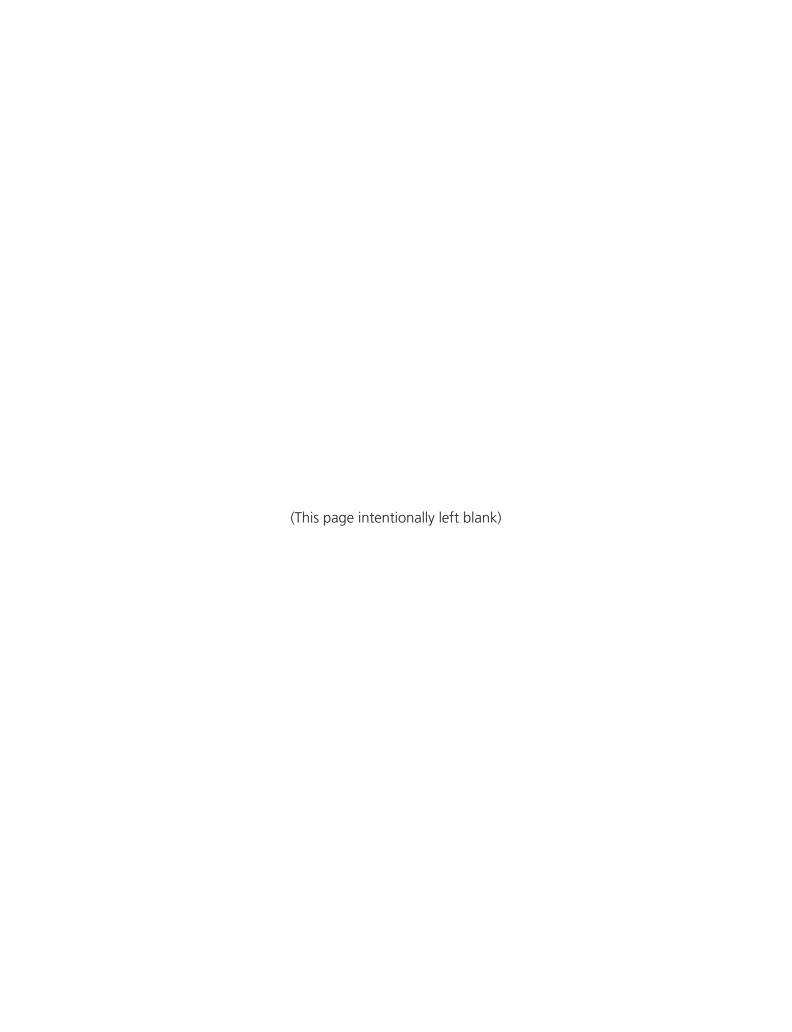

Boston, Massachusetts May 23, 2025

We have served as the auditor of one or more investment companies in the Goldman Sachs fund complex since 2000.

### Short Duration and Government Fixed Income Funds Tax Information (Unaudited)

Pursuant to Section 871(k) of the Internal Revenue Code, the Inflation Protected Securities Fund designates \$9,880,305 as interest-related dividends paid during the fiscal year ended March 31, 2025.
